SUPPLEMENTARY INFORMATION: This ICR seeks to maintain PRA authorization for information collections contained in EBSA Technical Release 2013-2 and a related model notice of healthcare coverage options available under the Patient Protection and Affordable Care Act (ACA). ACA section 2623 created a new Fair Labor Standards Act (FLSA) section 18B, 29 U.S.C. 218B, requiring a covered employer to give an employee notice of coverage options available through the Health Insurance Marketplace. An employer may use the model notice in meeting the FLSA section 18B requirement.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0149.

The current approval for this collection is scheduled to expire on November 30, 2013; however, the DOL

notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 15, 2013 (78 FR 49771).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210-0149. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
