B. Regulatory History and Information

The two regulatory sections that the Coast Guard proposes to amend were originally established in 2011. Specifically, the final rules for 33 CFR §§ 100.120 and 165.171 were published on March 30, 2011 (76 FR 17530 and 76 FR 17537). These final rules were issued in order to reduce administrative overhead, expedite public notification of events, and ensure the protection of the maritime public during approximately 180 marine events in the Sector Northern New England area. Each year since these two sections were created, the table in each regulatory section has been updated to reflected changes in regular recurring events, such as additions or deletions of events or updates to pertinent event details. Although the tables have been updated, the actual regulations within 33 CFR 100.120 and 165.171 have not changed since the original publication in March of 2011. The Coast Guard has received no comments from the public since these two sections were originally established.

C. Basis and Purpose

The legal basis for the proposed rule is 33 U.S.C. 1226, 1231, 1233; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05–1, and 160.5; Public Law 107–295, 116 Stat. 2064; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to establish safety zones and special local regulations.

Swim events, fireworks displays, and marine events are held on an annual

recurring basis on the navigable waters within the Coast Guard Sector Northern New England COTP Zone. In the past, the Coast Guard has established special local regulations, regulated areas, and safety zones for these annual recurring events on a case by case basis to ensure the protection of the maritime public and event participants from the hazards associated with these events. As mentioned above, the Coast Guard has not received public comments or concerns regarding the impact to waterway traffic from the Coast Guard's regulations associated with these annually recurring events. In the past year, events were assessed for their likelihood to recur in subsequent years or to discontinue and were added to or deleted from the tables accordingly. In addition, minor changes to existing events were made to ensure the accuracy of event details.

D. Discussion of Proposed Rule

The Coast Guard proposes to amend 33 CFR 100.120 (Special Local Regulations) and 33 CFR 165.171 (Safety Zones). The proposed rule would update the list of annual recurring events in the existing regulation for the Coast Guard Sector Northern New England COTP Zone. The Tables provide the event name, sponsor, and type, as well as approximate times, dates, and locations of the events. Advanced public notification of specific times, dates, regulated areas, and enforcement periods for each event will be provided through appropriate means, which may include, but are not limited to, the Local Notice to Mariners, Broadcast Notice to Mariners, or a Notice of Enforcement published in the **Federal Register** at least 30 days prior to the event date. If an event does not have a date and time listed in this regulation, then the precise dates and times of the enforcement period for that event will be announced through a Notice of Enforcement in the **Federal Register**.

E. Regulatory Analyses

The Coast Guard developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that

Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be minimal. Although this regulation may have some impact on the public, the potential impact will be minimized for the following reasons: The Coast Guard is only modifying an existing regulation to account for new information.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

This proposed rule would affect the following entities, some of which might be small entities: Owners or operators of vessels intending to transit, fish, or anchor in the areas where the listed annual recurring events are being held. The proposed rule would not have a significant impact on a substantial number of small entities for all of the same reasons discussed in the Regulatory Planning and Review section above.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National

Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment.

A preliminary environmental analysis checklist supporting this determination will be available in the docket where indicated under **ADDRESSES**. This proposed rule involves water activities including swimming events and fireworks displays. This rule may be categorically excluded, under figure 2–1, paragraph (34)(g) (Safety Zones) and (34)(h) (Special Local Regulations) of the Instruction. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

33 CFR Part 208

Flood Control Regulations, Marshall Ford Dam (Mansfield Dam and Lake Travis), Colorado River, Texas

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is proposing to amend the rules regarding use and administration of Marshall Ford Dam (Mansfield Dam and Lake Travis), Colorado River, Texas. In 1997, the Lower Colorado River Authority (LCRA) completed repayment of the federal government's contribution for acquisition and construction costs related to Mansfield Dam. Subsequently, the United States Bureau of Reclamation (USBR) relinquished all rights and obligations to the project. However, the U.S. Department of the Interior and the USBR are referenced as project stakeholders in the Flood Control Regulations. Amending the referenced regulations to update project ownership will eliminate the current discrepancy between the regulations and associated project documents. The Fort Worth

District of the Corps and LCRA are finalizing a revised water control plan for Lake Travis. There is no intent to publish the updated water control plan in the **Federal Register**. Amending the regulations to indicate that the water control plan has been superseded would eliminate the need to amend the regulations each time the water control plan is modified.

If we cannot read your comment because of technical difficulties and cannot contact you for clarification, we may not be able to consider your comment. Electronic comments should avoid the use of any special characters, any form of encryption, and be free of any defects or viruses.
