DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP14-68-000, PF13-15-000]

Texas Eastern Transmission, LP; Notice of Application

Take notice that on January 31, 2014, Texas Eastern Transmission, LP (Texas Eastern), P.O. Box 1642, Houston, Texas 77251-1642, filed an application under section 7(c) of the Natural Gas Act to construct and operate approximately 76 miles of new 30-inch diameter pipeline

(Ohio Extension), two compressor units and related facilities in Ohio; and (ii) make the necessary compressor station modifications to provide for reverse flow capabilities to enable Texas Eastern to provide 550,000 dekatherms per day of firm transportation service from receipt points in Ohio to delivery points in the Gulf Coast area under its Ohio Pipeline Energy Network Project (OPEN Project), all as more fully set forth in the application. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding the OPEN Project should be directed to Berk Donaldson, Director, Rates and Certificates, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, TX 77251-1642 or at (713) 627-4488 (phone), or (713) 627-5947 (fax), or bdonaldson@spectraenergy.com or Marcy F. Collins, Associate General Counsel, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, TX 77251-1642 or at (713) 627-6137 (phone), or (713) 989-3191 (fax), or mfcollins@spectraenergy.com.

On June 21, 2013, the Commission staff granted Texas Eastern's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF13-15-000 to staff activities involving the project. Now, as of the filing of this application on January 31, 2014 (CP14-68-000), the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP14-68-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice, the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the

EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties.
