

updates to contact and location information for the facility and reasons for non-reporting. Some of this information is useful to the Agency and could be useful to the public. Currently, the EPA receives this unsolicited information on paper.

This proposed modification would allow for an online means for the EPA to receive miscellaneous documents, reducing the cost of processing their submission and aligning how EPA processes such documents with the recent requirement to submit TRI reporting forms electronically. In other words, with this change, facilities could use TRI-MEweb to provide details on specific categories of information that they have been providing on a voluntary basis to the EPA throughout the existence of the program (e.g., supplemental information on updates to the facility's name, status, location, and/or parent company; supplemental information on updates on whom to contact for technical and/or public matters; and reasons for not reporting (indicating the facility did not meet thresholds or did not report for any other appropriate reason)). Receipt and processing of this information would not affect any reporting forms certified and submitted to the agency, but rather would allow facilities to provide an electronic means to submit contextual information concerning their facilities that can enhance the context of TRI data for the EPA as well as for the public.

What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice for the ICR pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: February 24, 2014.

Arnold Layne,

Director,

Office of Information Analysis and Access
Office of Environmental Information.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9907-34-OEI]

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Rhode Island

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Rhode Island's request to revise/modify its EPA Administered Permit Programs: The National Pollutant Discharge Elimination System EPA-authorized program to allow electronic reporting.

DATES: EPA's approval is effective March 3, 2014.

FOR FURTHER INFORMATION CONTACT:

Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document

receiving systems that meet the applicable subpart D requirements.

On November 13, 2013, the Rhode Island Department of Environmental Management (RI DEM) submitted an application titled "National Network Discharge Monitoring Report System" for revision/modification of its EPA-authorized Part 123 program under title 40 CFR. EPA reviewed RI DEM's request to revise/modify its EPA-authorized Part 123—EPA Administered Permit Programs: The National Pollutant Discharge Elimination System program and, based on this review, EPA determined that the application met the standards for approval of authorized program revision/modification set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Rhode Island's request to revise/modify its Part 123—EPA Administered Permit Programs: The National Pollutant Discharge Elimination System program to allow electronic reporting under 40 CFR part 122.41(I)(4)(i) is being published in the **Federal Register**.

RI DEM was notified of EPA's determination to approve its application with respect to the authorized program listed above.

Dated: February 24, 2014.

Andrew Battin,

Director, Office of Information Collection.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501—3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's

burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before May 2, 2014. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Benish Shah, Federal Communications Commission, via the Internet at Benish.Shah@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Benish Shah, Office of Managing Director, (202) 418-7866.

SUPPLEMENTARY INFORMATION: *OMB Control Number:* 3060-1087.

Title: Section 15.615, General Administrative Requirements (Broadband Over Power Line (BPL)).
Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit; not-for-profit institutions; and State, local or Tribal Government.

Number of Respondents and Responses: 100 respondents; 100 responses.

Estimated Time per Response: 26 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154(i), 301, 302, 303(e), 303(f) and 303(r).

Total Annual Burden: 2,600 hours.

Annual Cost Burden: \$60,000.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: The FCC does not require any confidentiality in the information provided to the database. There are no

proprietary or trade/technological standards to which these BPL entities wish to restrict access.

Needs and Uses: The Commission will submit this expiring information collection after this 60 day comment period to the Office of Management and Budget (OMB) to obtain the full three year clearance. There is no change in the reporting requirements or burden. Section 15.615 requires entities operating Access BPL systems shall to an industry-recognized entity, information on all existing Access BPL systems and all proposed Access BPL systems for inclusion into a publicly available database, within 30 days prior to installation of service. Such information should include the name of the Access BPL provider; the frequencies of the Access BPL operation; the postal ZIP codes served by the specific Access BPL operation; the manufacturer and type of Access BPL equipment and its associated FCC ID number, contact information; and proposed/or actual date of operation.

Federal Communications Commission.

Gloria J. Miles,

Federal Register Liaison, Office of the Secretary, Office of Managing Director.
