Agricultural Marketing Service

Title: Cotton Classing, Testing, and Standards.

OMB Control Number: 0581-0008.

Summary of Collection: The U.S. Cotton Standards Act, 7 U.S.C. 51 53 and 55, authorizes the USDA to supervise the various activities directly associated with the classification or grading of cotton, cotton linters, and cottonseed based on official USDA Standards. The Cotton and Tobacco Program of the Agricultural Marketing Service carries out this supervision and is responsible for the maintenance of the functions to which these forms relate. USDA is the only Federal agency authorized to establish and promote the use of the official cotton standards of the U.S. in interstate and foreign commerce and to supervise the various activities associated with the classification or grading of cotton, cotton linters, and cottonseed based on official USDA standards.

Need and Use of the Information: The Agricultural Marketing Service uses the following forms to collection information:

Form FD-210 is submitted by owners of cotton to request cotton classification services. The request contains information for USDA to ascertain proper ownership of the samples submitted, to distribute classification results, and bill for services. Information about the origin and handling of the cotton is necessary in order to properly evaluate and classify the samples.

Form CN-246 is submitted by cotton gins and warehouses seeking to serve as licensed samplers. Licenses issued by the USDA-AMS Cotton Program authorize the warehouse/gin to draw and submit samples to insure the proper application of standards in the classification of cotton and to prevent deception in their use.

Form CN-383 is a package of forms designated as CN-383-a through CN-383-k that is submitted by cotton producers, ginners, warehousemen, cooperatives, manufacturers, merchants, and crushers interested in acquiring cotton classification standards and round testing services.

Agricultural Marketing Service

Title: Cotton Classification and Market News Service.

OMB Control Number: 0581-0009.

Summary of Collection: The Cotton Statistics and Estimates Act, 7 U.S. Code

471-476, authorizes the Secretary of Agriculture to collect and publish annually statistics or estimates concerning the grades and staple lengths of stocks of cotton. In addition, Agricultural Marketing Service (AMS) collects, authenticates, publishes, and distributes timely information of the market supply, demand, location, and market prices for cotton (7 U.S.C. 473B). This information is needed and used by all segments of the cotton industry.

Need and Use of the Information: AMS will collect information on the quality of cotton in the carryover stocks along with the size or volume of the carryover. Growers use this information in making decisions relative to marketing their present crop and planning for the next one; cotton merchants use the information in marketing decisions; and the mills that provide the data also use the combined data in planning their future purchase to cover their needs. Importers of U.S. cotton use the data in making their plans for purchases of U.S. cotton. AMS and other government agencies are users of the compiled information.

Title: Reporting Forms under Milk Marketing Order Programs.

OMB Control Number: 0581-0032.

Summary of Collection: Agricultural Marketing Service (AMS) oversees the administration of the Federal Milk Marketing Orders authorized by the Agricultural Marketing Agreement Act of 1937, as amended. The Act is designed to improve returns to producers while protecting the interests of consumers. The Federal Milk Marketing Order regulations require places certain requirements on the handling of milk in the area it covers. Currently, there are 10 milk marketing orders regulating the handling of milk in the respective marketing areas.

Need and Use of the Information: The information collected is needed to administer the classified pricing system and related requirements of each Federal Order. Forms are used for reporting purposes and to establish the quantity of milk received by handlers, the pooling status of the handler, and the class-use of the milk used by the handler and the butterfat content and amounts of other components of the milk. Without the monthly information, the market administrator would not have the information to compute each

monthly price nor know if handlers were paying producers on dates prescribed in the order. Penalties are imposed for violation of the order, such as the failure to pay producers by the prescribed dates.

Description of Respondents: Business or other for-profit; not-for-profit institutions; individuals or households; farms.

Number of Respondents: 690.

The 2014 basetime, overtime, holiday, and laboratory services rates will be applied on the first FSIS pay period approximately 30 days after the publication of this notice, which begins on February 9, 2014.

DATES: FSIS will charge the rates announced in this notice beginning February 9, 2014.

FOR FURTHER INFORMATION CONTACT: For further information contact Michael Toner, Director, Budget Division, Office of Management, FSIS, U.S. Department of Agriculture, Room 2159, South Building, 1400 Independence Avenue SW., Washington, DC 20250-3700; Telephone: (202) 690-8398, Fax: (202) 690-4155.

SUPPLEMENTARY INFORMATION:

Background

On April 12, 2011, FSIS published a final rule amending its regulations to establish formulas for calculating the rates it charges meat and poultry establishments, egg products plants, and importers and exporters for providing voluntary, overtime, and holiday inspection and identification, certification, and laboratory services (76 FR 20220).

In the final rule, FSIS stated that it would use the formulas to calculate the annual rates, publish the rates in **Federal Register** notices prior to the start of each calendar year, and apply the rates on the first FSIS pay period at the beginning of the calendar year.

This notice provides the 2014 rates, which will be applied starting on February 9, 2014.

2014 Rates and Calculations

The following table lists the 2014 Rates per hour, per employee, by type of service:

Service	2014 Rate (estimates rounded to reflect billable quarters)
Basetime	\$55.16
Overtime	69.56
Holiday	84.00
Laboratory	68.79

The regulations state that FSIS will calculate the rates using formulas that include the Office of Field Operations (OFO) and Office of International Affairs (OIA) inspection program personnel's previous fiscal year's regular direct pay and regular hours (9 CFR 391.2, 391.3, 391.4, 590.126, 590.128, 592.510, 592.520, and 592.530). In 2013, an Agency reorganization eliminated the OIA program office and transferred all of its inspection program personnel to OFO. The calculations below include the portion of the previous fiscal year's OIA inspection program personnel's pay and hours but are identified in the calculations as "OFO inspection program personnel's" pay and hours.

FSIS determined the 2014 rates using the following calculations:

Basetime Rate = The quotient of dividing the Office of Field Operations (OFO) inspection program personnel's previous fiscal year's regular direct pay by the previous fiscal year's regular hours, plus the quotient multiplied by the calendar year's percentage of cost of living increase, plus the benefits rate, plus the travel and operating rate, plus the overhead rate, plus the allowance for bad debt rate.

The calculation for the 2014 basetime rate per hour per program employee is: [FY 2013 OFO Regular Direct Pay divided by the previous fiscal year's Regular Hours (\$463,542,338/16,407,854)] = \$28.25 + (\$28.25 * 2.0% (calendar year 2014 Cost of Living Increase)) = \$28.82 + \$9.08 (benefits rate) + \$.66 (travel and operating rate) + \$16.61 (overhead rate) + \$.02 (bad debt allowance rate) = \$55.18 (rounded to \$55.16).¹

Overtime Rate = The quotient of dividing the Office of Field Operations (OFO) inspection program personnel's previous fiscal year's regular direct pay by the previous fiscal year's regular hours, plus that quotient multiplied by the calendar year's percentage of cost of living increase, multiplied by 1.5 (for overtime), plus the benefits rate, plus the travel and operating rate, plus the overhead rate, plus the allowance for bad debt rate.

¹ FSIS can bill basetime, overtime, and holiday rates on the quarter hour. Accordingly, the 2014 basetime and overtime rates were rounded down so that the rates can equally be divided by 4 (to 2 decimal places).
