

Agency in full compliance with section 510 of the FD&C Act before January 9, 2014. As previously stated, drug products covered by this document that are currently marketed but not listed with the Agency on the date of this document must, as of the effective date of this document, have approved applications before their shipment in interstate commerce. Moreover, any person or firm that has submitted or submits an application but has yet to receive approval for such products is still responsible for full compliance with this document.

V. Discontinued Products

Some firms may have previously discontinued manufacturing or distributing products covered by this document without removing them from the listing of their products under section 510(j) of the FD&C Act. Other firms may discontinue manufacturing or distributing listed products in response to this document. Firms are required to electronically update the listing of their products under section 510(j) of the FD&C Act to reflect discontinuation of unapproved products covered by this document (21 CFR 207.21(b)). Questions on electronic drug listing updates should be sent to: EDRLS@fda.hhs.gov. In addition to the required update, firms can also notify the Agency of product discontinuation by sending a letter, signed by the firm's chief executive officer and fully identifying the discontinued product(s), including the product NDC number(s), and stating that the manufacturing and/or distribution of the product(s) has (have) been discontinued. The letter should be sent electronically to Astrid Lopez-Goldberg (see **ADDRESSES**). FDA plans to rely on its existing records, including its drug listing records, the results of any subsequent inspections, or other available information when it targets violations for enforcement action.

VI. Reformulated Products

FDA cautions firms against reformulating their products into unapproved new drugs without codeine sulfate, codeine phosphate, or dihydrocodeine bitartrate, and marketing them under the same name or substantially the same name (including a new name that contains the old name) in anticipation of an enforcement action based on this document. As stated in the Marketed Unapproved Drugs CPG, FDA intends to give higher priority to enforcement actions involving unapproved drugs that are reformulated to evade an anticipated FDA enforcement action. In addition, reformulated products marketed under a

name previously identified with a different active ingredient have the potential to confuse healthcare practitioners and harm patients.
