Organizational Structure: The National Infrastructure Protection Plan organizes the critical infrastructure community into 16 critical infrastructure sectors. Each of these sectors has a Government Coordinating Council (GCC) whose membership includes: (i) A lead Federal agency that is defined as the Sector-Specific Agency; (ii) all relevant Federal, State, local, tribal, and/or territorial government agencies (or their representative bodies) whose mission interests also involve the scope of the CIPAC activities for that particular sector; and (iii) a Sector Coordinating Council (SCC) whose membership includes critical infrastructure owners and/or operators or their representative trade associations.

CIPAC Membership: CIPAC Membership may include:

(i) Critical Infrastructure (CI) owner and operator members of a DHS-recognized SCC, including their representative trade associations or equivalent organization members of an SCC as determined by the SCC.

(ii) Federal, State, local, and tribal governmental entities comprising the members of the GCC for each sector, including their representative organizations, members of the State, Local, Tribal and Territorial Government Coordinating Council, and representatives of other federal agencies with responsibility for CI activities.

CIPAC membership is organizational. Multiple individuals may participate in CIPAC activities on behalf of a member organization as long as member representatives are not federally registered lobbyists.

Notice of CIPAC Renewal: The Secretary of Homeland Security extended the CIPAC charter on March 18, 2014, for a period of two years. The current CIPAC charter reflecting the Secretary's action is available on the CIPAC Web site (<http://www.dhs.gov/cipac>).

CIPAC Membership Roster and Council Information: The current roster of CIPAC members is published on the CIPAC Web site (<http://www.dhs.gov/cipac>) and is updated as the CIPAC membership changes. Members of the public may visit the CIPAC Web site at any time to view current CIPAC membership, as well as the current and
