4. Public Meeting

A public meeting explaining the details and altered schedule for this deviation will be held April 16, 2014, at 6 p.m. in the City of Stillwater Council Chambers Meeting Room, 216 North Forth Street, Stillwater, Minnesota. This public meeting has also been noticed to the public through local avenues. We plan to record this meeting via audio and will upload a transcript for the meeting to the docket, which is accessible as explained under **ADDRESSES**. For information on facilities or services for individuals with disabilities or to request special assistance at the public meeting, contact the person listed above under the **FOR FURTHER INFORMATION CONTACT** section of this notice.

The City of Stillwater, Minnesota, requested a temporary deviation for the Stillwater Highway Drawbridge, across the St. Croix River, mile 23.4, at Stillwater, Minnesota. The existing operating schedule for this bridge was established approximately 20 years ago. This deviation is intended to test the operational needs of this drawbridge due to changes and growing congestion in the area. This deviation is temporary for the 2014 navigation season only. A new bridge in the area is planned to be completed in 2016 and the Stillwater Highway Bridge would then be altered to a pedestrian only bridge. Comments received in response to and the effects of this deviation will be taken into consideration both during the 2015 navigation season and in preparation for changes that may be necessary in 2016.

The temporary deviation will occur from May 15 through October 15, 2014,

and the bridge will open on signal Monday through Friday, except Federal Holidays from:

- (i) 8 a.m. to 1 p.m., every hour on the hour;
- (ii) 1 p.m. to 3 p.m., every half hour;
- (iii) 3:30 p.m. to 7 p.m., at 4 p.m., 6 p.m. and 7 p.m.;
- (iv) 7 p.m. to 10 p.m., every half hour; and
- (v) 10 p.m. to 8 a.m., upon at least two hours notice.

The Stillwater Highway Drawbridge currently operates in accordance with 33 CFR 117.667(b), which states specific seasonal and commuter hours operating requirements.

There are no alternate routes for vessels transiting this section of the St. Croix River.

The Stillwater Highway Drawbridge, in the closed-to-navigation position, provides a vertical clearance of 10.9 feet above normal pool. Navigation on the waterway primarily consists of commercial sightseeing/dinner cruise boats and recreational watercraft. This temporary deviation has been coordinated with waterway users. One objection to this deviation was received and will be available in the docket as indicated under **ADDRESSES**. This objection will also be presented at the public meeting on April 16. This deviation action will be monitored throughout its implementation, and if at any time it is determined a condition of unreasonable impediment to navigation exists, the deviation may be revised or cancelled.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: April 1, 2014.
