

However, the entity also may request a meeting with a DHS official (in person or by phone) to discuss the additional information they will provide in support of their reconsideration request or to seek additional information about the basis for identifications. DHS will consider meeting requests on a case by case basis and identify an appropriate official to participate in such meetings on behalf of the reconsideration official.

Owners and operators of critical infrastructure entities or their authorized agents may initiate a reconsideration request by sending an email to CDII@HQ.DHS.GOV including:

1. The entity for reconsideration;
2. the name, title, telephone number and email address of a designated point of contact, whether an employee or non-employee agent, for the owner or operator of that entity to whom all communications related to the reconsideration process will be directed; and
3. if desired, a request for a meeting with DHS representatives.

DHS will confirm the submission of each reconsideration request with an email to the submitting entity and will provide a reconsideration request number within three days of receipt. Where the requesting entity has requested a telephonic or in-person meeting, a representative of DHS will contact the entity at the email address provided in the initial request to schedule a meeting or inform the entity that the requested meeting is not available.

Submission of Reconsideration Materials

Following DHS confirmation of the request, entities may submit reconsideration materials as part of an in-person or telephone meeting or in writing. Entities who submit written documentation in lieu of a meeting or who choose to provide additional documentation following a meeting should submit the information via email (with exceptions noted below) in the form of a single attachment. All pages submitted to DHS should be double-spaced 12 point Times New Roman text or visual material, with 1" margins and page numbers. Supporting documentation should be organized and labeled. Entities should include the DHS-provided reconsideration request number on each page of the submission.

Documentation used to justify a change in status for an entity with respect to identified cyber-dependent critical infrastructure may constitute protected critical infrastructure information (PCII) if it satisfies, and is submitted in accordance with,

applicable requirements. The PCII program is an information-protection program that enhances voluntary information sharing between infrastructure owners and operators and the government. In order to ensure handling under the provisions of the PCII program, owner operators must submit information consistent with the Critical Infrastructure Information Act (6 U.S.C. 131 *et seq.*), the PCII final rule (6 CFR part 29), and the PCII Program Manual. Additional information regarding the PCII program may be found at <http://www.dhs.gov/pcii>.

Classified information must not be transmitted to mailto:cdii@hq.dhs.gov; however, a request for guidance on alternate submission guidance may be sent, without any classified information, to cdii@hq.dhs.gov. DHS may in its sole discretion grant a reasonable extension to the reconsideration submission for the purpose of accommodating a request to submit classified information.

Reconsideration Request Review

A preliminary review by DHS following a meeting or submission of the reconsideration materials will evaluate whether any additional information is needed to make a decision on the reconsideration request. DHS will contact the submitter within 30 days of the meeting or submission to request additional information, if needed, or to confirm that the reconsideration package is complete. If additional information is requested, the submitter will have up to 60 days from the date of DHS's request to provide such information, and DHS will have another 30 days from the additional submission to deem the package complete. Following receipt and review of a complete reconsideration package, DHS will provide requesting entities with a written response including the basis for its determination.

If a complete reconsideration package is not received by DHS before May 15, 2014, any information provided by a submitter may be considered in connection with the next annual update rather than as a request for reconsideration of this year's determination.

In considering requests for reconsideration, DHS may consult with sector specific agencies and other appropriate federal entities. Information submitted to DHS, including appropriately submitted PCII, will be protected in accordance with applicable requirements and used only for permitted purposes.

Entities may contact cdii@hq.dhs.gov at any time to request a status update during the reconsideration request

review process. After a determination has been made in connection with the request, subsequent reconsideration requests will not be accepted until the next annual review.

Dated: April 11, 2014.

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) The accuracy of the estimated burden of the Collection; (3) Ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) Ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of information technology.

We will consider all comments and material received during the comment period. This notice requesting comments and the ICR are related to and

referenced in the final rule for the Regulated Navigation Area (RNA); Gulf Intracoastal Waterway (GIWW), Inner Harbor Navigation Canal (IHNC), New Orleans, LA. The information collected allows the Coast Guard to ensure that pre-planned deviations from the RNA, as afforded by the regulation, are done so safely and securely. The Coast Guard published the final rulemaking to enable vessels, facility owners and operators sufficient time to prepare and if desired, pre-plan safe and secure deviation from RNA requirements in time for the 2014 Hurricane Season.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR, [OMB control no. 1625-0043], and the docket number of this request, [USCG-2009-0139], and must be received by June 16, 2014. Information Collection Request

Title: Approval of Pre-planned Deviation from the Regulated Navigation Area (RNA); Gulf Intracoastal Waterway (GIWW), Inner Harbor Navigation Canal (IHNC), New Orleans, LA. The final rule for this RNA published on April 17, 2014 at 79 FR [INSERT FR PAGE NUMBER FOR FINAL RULE] under the same docket number, USCG-2009-0139.

OMB Control Number: 1625-0043.

SUMMARY: The Hurricane Operations Plans submitted to the Coast Guard provides information supporting the choice to deviate from RNA restrictions and remain within certain RNA areas during enforcement. These plans will include: Total number of remaining vessels and description, name, IMO number, etc. of each vessel; diagram of the facility; mooring arrangement details and certification; contact information for POC at facility; and insurance

disclosures. Storm Specific Verification Reports as detailed under the established Sector New Orleans Maritime Hurricane Contingency Port Plan at <http://homeport.uscg.mil/nola> will also be collected.

Need: Approval of the Hurricane Operations Plans by the Coast Guard ensures that facilities and vessels that choose to deviate from the RNA restrictions during enforcement and remain within certain areas of the RNA are able to do so safely and securely without presenting a threat to the flood protection system and possibly causing a breach leading to flooding in the Greater New Orleans area.

Use: The Coast Guard will evaluate the information to confirm that the facilities and vessels have a plan in place that meets requirements to remain safely and securely within the RNA.

Description of the Respondents: Waterfront facility and vessel owners and operators operating within the RNA.

Number of Respondents: 15.

Frequency of Response: Once in full and then annually to provide updated information based on changes in facility and vessel operations.

Burden of Response: Under 5 CFR 1320.3(b)(2), the time, effort, and financial resources necessary to comply with the information required to deviate under this rule is excluded because it will be incurred in the normal course of business and activities. The vessel information, recordkeeping, insurance disclosure, mooring plans and certifications, and emergency contact information required to deviate from the RNA are not only usual and customary, but commonly required under self-imposed operating plans, insurance requirements, or facility requirements. Therefore, the information required is already maintained by the facilities and vessels as part of their day-to-day operations. Additionally, the Coast Guard received no comments indicating that this information presents a burden to the facilities and vessels and expects to receive no adverse comment to revising the existing OMB control no. 1625-0043 to include this rule.

Estimate of Total Annual Burden: The estimated burden involved in providing the information required for deviation is 180 hours (12 hours per responding facility/vessel owner). However, under 5 CFR 1320.3(b)(2), the time, effort, and financial resources necessary to comply with the information required to deviate under this rule is excluded because it will be incurred in the normal course of business and activities. Therefore, the estimated burden for OMB control

number 1625-0043 is expected to remain unchanged.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: April 1, 2014.

K. S. Cook,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.
