

identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Texas A&M University at the address in this notice by May 19, 2014.

ADDRESSES: Dr. Suzanne L. Eckert, Department of Anthropology, Texas A&M University, College Station, TX 77843-4352, telephone (979) 845-5242.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of Texas A&M University, College Station, TX. The human remains were removed from Wilson, Kinney, and Wharton Counties, TX.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by Texas A&M University (TAMU) professional staff in 1995. In 2010, representatives of the Comanche Nation, Oklahoma; Kickapoo Tribe of Oklahoma; and the Tonkawa Tribe of Indians of Oklahoma were invited to consult with TAMU for the purpose of determining the place and manner of the repatriation. The Kickapoo Tribe of Oklahoma contacted TAMU with an interest in having these remains repatriated; no representatives from the other tribes contacted TAMU in response to this invitation.

History and Description of the Remains

From July 1985 to August 1985, human remains representing, at minimum, three individuals were removed from the Wilson County Project Site (41WN73), in Wilson County, TX, as part of a salvage excavation run through the University of Texas at San Antonio. At the time of donation, these human remains were identified as being from Burial #1 (TAMU-NAGPRA 45), Burial #2 (TAMU-NAGPRA 46), and Burial #3 (TAMU-NAGPRA 47). The human remains were determined to be as follows: Burial #1, one adult of indeterminate sex; Burial #2, one adult

of indeterminate sex; and Burial #3, one adult of indeterminate sex. Based on artifacts recovered from the site, the human remains were determined to be prehistoric. No known individuals were identified. No associated funerary objects are present.

In 1978, human remains representing, at minimum, two individuals were removed from private land in Kinney County, TX, and donated to TAMU (TAMU-NAGPRA 48). At the time of donation, it was indicated that the human remains were probably prehistoric, without further explanation. Analysis of the human remains by physical anthropologists indicates that this individual was of Native American origins. The human remains were determined to be one adult female and one adult male. No known individuals were identified. No associated funerary objects are present.

In 1986, human remains representing, at minimum, one individual were removed from private land in Wharton County, TX, and donated to TAMU (TAMU-NAGPRA 56). The two associated funerary objects are a lead bullet and ceramic pipe. The associated funerary objects date the human remains to 1840-1870 A.D. Analysis of the human remains by physical anthropologists indicates that this individual was of Native American origins. The human remains were determined to be one adult of indeterminate sex. No known individuals were identified.

Based on geographic location of all the sites in this notice, TAMU staff found it reasonable to trace a shared identity between the human remains in this notice and the following historic groups: Cantona, Ervpiame, Mayeye, Comanche, Kickapoo, Tonkawa, Coahuiltecan, and Lipan Apache. Archeological and linguistic evidence, historical records, and/or traditional beliefs indicate that there is a relationship of shared group identity between these historic groups and the present-day Comanche Nation, Oklahoma; Kickapoo Tribe of Oklahoma; and the Tonkawa Tribe of Indians of Oklahoma.

Determinations Made by Texas A&M University

Officials of Texas A&M University have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of six individuals of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the two objects described in this notice are reasonably believed to have been

placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Comanche Nation, Oklahoma; Kickapoo Tribe of Oklahoma; and the Tonkawa Tribe of Indians of Oklahoma.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Dr. Suzanne L. Eckert, Department of Anthropology, Texas A&M University, College Station, TX 77843-4352, telephone (979) 845-5242, by May 19, 2014. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Comanche Nation, Oklahoma; Kickapoo Tribe of Oklahoma; and the Tonkawa Tribe of Indians of Oklahoma may proceed.

Texas A&M University is responsible for notifying the Comanche Nation, Oklahoma; Kickapoo Tribe of Oklahoma; and the Tonkawa Tribe of Indians of Oklahoma that this notice has been published.

Dated: March 4, 2014.

Sherry Hutt,

Manager, National NAGPRA Program.

Bureau of Ocean Energy Management

**[OMB Control Number 1010–0082;
MMAA104000]**

Information Collection: Leasing for Minerals Other Than Oil, Gas, and Sulphur in the Outer Continental Shelf; Proposed Collection for OMB Review; Comment Request

ACTION: 60-day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in the regulations under 30 CFR 581 Leasing for Minerals Other than Oil, Gas, and Sulphur in the Outer Continental Shelf.

DATES: Submit written comments by June 16, 2014.

ADDRESSES: Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Arlene Bajusz, Bureau of Ocean Energy Management, 381 Elden Street, HM–3127, Herndon, Virginia 20170 (mail); or arlene.bajusz@boem.gov (email); or 703–787–1209 (fax). Please reference ICR 1010–0082 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT:

Arlene Bajusz, Office of Policy, Regulations, and Analysis at (703) 787–1025 to request a copy of the ICR.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010–0082.
Title: 30 CFR 581, Leasing for Minerals Other than Oil, Gas, and Sulphur in the Outer Continental Shelf.

Abstract: Section 8(k) of the Outer Continental Shelf (OCS) Lands Act (Act), as amended (43 U.S.C. 1337), authorizes the Secretary of the Interior (Secretary) to grant to the qualified persons, offering the highest cash bonuses on a basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur. This applies to any area of the OCS not then under lease for such mineral upon royalty,

rental, and other terms and conditions that the Secretary may prescribe at the time of the lease offer. The Secretary is to administer the leasing provisions of the Act and prescribe the rules and regulations necessary to carry out those provisions.

Regulations at 30 CFR 581 implement these statutory requirements. There has been no leasing activity in the OCS for minerals other than oil, gas, or sulphur for many years; however, because these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

BOEM will use the information required by 30 CFR 581 to determine if statutory requirements are met prior to the issuance of a lease. Specifically, BOEM will use the information to:

- Evaluate the area and minerals requested by the lessee to assess the viability of offering leases for sale;
- Request the State(s) to initiate the establishment of a joint group to assess the proposed action;
- Ensure excessive overriding royalty interests are not created that would put economic constraints on all parties involved;
- Document that a leasehold or geographical subdivision has been surrendered by the record title holder; and
- Determine if activities on the proposed lease area(s) will have a significant impact on the environment.

We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2), and 30 CFR parts 580 and 582. No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion.

Description of Respondents: As there are no active respondents, we estimate the potential annual number of respondents to be one. Potential respondents are OCS lease requestors, State governments, and OCS lessees.

Estimated Reporting and Recordkeeping Hour Burden: We expect the annual reporting burden for this renewal to be 1,264 hours. The following table details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.
