

Waterway Suitability Assessment (WSA) with the COTP of the zone in which the facility is or will be located. Big Lake Fuels LLC submitted an LOI and WSA on November 7, 2013 regarding the company's proposed construction and operation of a new LHG facility which will be located in Lake Charles, Louisiana.

Under 33 CFR 127.009, after receiving an LOI, the COTP issues a Letter of Recommendation (LOR) as to the suitability of the waterway for LNG or LHG marine traffic to the appropriate jurisdictional authorities. The LOR is based on a series of factors outlined in 33 CFR 127.009 that are related to the physical nature of the affected waterway and issues of safety and security associated with LNG or LHG marine traffic on the affected waterway.

The purpose of this notice is to solicit public comments on the proposed increase in LHG marine traffic on the Calcasieu Ship Channel and the Gulf Intracoastal Waterway. The Coast Guard believes that input from the public may be useful to the COTP with respect to development of the LOR. Additionally, the Coast Guard intends to work with the Area Maritime Security Committee, Port Arthur, Texas and the Southeast Texas Waterways Advisory Council (SETWAC) to form subcommittees comprised of affected port users and stakeholders. The goal of these subcommittees will be to gather information to help the COTP assess the suitability of the associated waterway for increased LHG marine traffic as it relates to navigational safety and security.

On January 24, 2011, the Coast Guard published Navigation and Vessel Inspection Circular (NVIC) 01–2011, "Guidance Related to Waterfront Liquefied Natural Gas (LNG) Facilities." NVIC 01–2011 provides guidance for owners and operators seeking approval to build and operate LNG facilities. While NVIC 01–2011 is specific to LNG, it provides useful process information and guidance for owners and operators seeking approval to build and operate LHG facilities as well. The Coast Guard will refer to NVIC 01–2011 for process information and guidance in evaluating Big Lake Fuels LLC's WSA. A copy of NVIC 01–2011 is available for viewing in the public docket for this notice and also on the Coast Guard's Web site at <http://www.uscg.mil/hq/cg5/nvic/2010s.asp>.

This notice is issued under authority of 33 U.S.C. §§ 1223–1225, Department of Homeland Security Delegation Number 0170.1(70), 33 CFR 127.009, and 33 CFR 103.205.

Dated: December 16, 2013.

G.J. Paitl,

Captain, U.S. Coast Guard, Captain of the Port, Port Arthur.

Federal Emergency Management Agency

[Docket ID FEMA–2013–0052]

Termination of the National Flood Insurance Program Pilot Inspection Program of Insured Structures by Communities in Monroe County, the Village of Islamorada, and the City of Marathon, Florida

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: FEMA is publishing this document to give notice that the pilot inspection procedure under the Pilot Inspection Program was terminated on June 28, 2013, for Monroe County, the Village of Islamorada, and the City of Marathon, Florida.

DATES: *Effective Dates:* The effective date of termination for the inspection procedure for Monroe County, the Village of Islamorada, and the City of Marathon, Florida, is June 28, 2013.

FOR FURTHER INFORMATION CONTACT: David Stearrett, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, David.Stearrett@fema.dhs.gov, (202) 646–2953.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) was established by the National Flood Insurance Act of 1968, as amended (NFIA) (42 U.S.C. 4001–4129). The NFIA authorizes the Administrator of the Federal Emergency Management Agency (FEMA) to establish and carry out a national flood insurance program that enables property owners in participating communities to purchase insurance as a protection against flood losses in exchange for State and community adoption of floodplain management regulations that reduce future flood damages. Community participation in the NFIP is voluntary, and is based on an agreement between communities and the Federal Government. If a community adopts and enforces floodplain management requirements to reduce future flood risk to new construction and substantial

improvements in floodplains, the Federal Government will make flood insurance available within the community as a financial protection against flood losses. 42 U.S.C. 4102(c) and 4022(a); 44 CFR 60.1(a).

In 2000, FEMA established by regulation, at 44 CFR 59.30, a pilot inspection procedure under the NFIP to help verify that structures comply with the community's floodplain management ordinances and to ensure that property owners pay flood insurance premiums commensurate with their flood risk. 65 FR 39726, June 27, 2000. The inspection procedure requires owners of insured buildings to obtain an inspection from community floodplain management officials as a condition of renewing the Standard Flood Insurance Policy (SFIP) on the building. The pilot procedure applies in the communities of: (1) Monroe County, Florida, (2) the Village of Islamorada located in Monroe County, Florida, and (3) the City of Marathon, located in Monroe County, Florida. 65 FR 39726, June 27, 2000; 67 FR 10631, March 9, 2002; 68 FR 59126, Oct. 14, 2003.

The pilot inspection procedure served as an additional tool for the three communities to enforce their flood damage prevention ordinances, and remain compliant with the NFIP regulations, given unique statutory constraints on inspections and rate of growth mandates in Florida, housing limits within the communities, and related factors. These related factors included: the nature of the flood hazard and damage potential; the number of possible violations (an estimated 2,000–4,000 illegally built enclosures in the entire County); the potential for loss of life in the event of a flood; and, the factors described above limited the County's ability to determine whether a building with an enclosure complies with the local flood damage prevention ordinance.

FEMA establishes the start date and the termination dates for implementing the pilot inspection procedure upon the recommendation of FEMA's Regional Administrator and in consultation with each community. 44 CFR 59.30(c). FEMA is permitted to extend the implementation of the inspection procedure with a new termination after consultation with the community and based on good cause. 44 CFR 59.30(c). The start date for the inspection procedure for Monroe County and the Village of Islamorada was January 1, 2001, and October 1, 2002, for the City of Marathon. The original termination date for the Village of Islamorada and the City of Marathon was January 1, 2004, and was December 31, 2007, for

Monroe County. Following consultation with the three communities, FEMA determined that additional time was needed and the inspection procedure was extended to December 31, 2011 by letter to the communities. Upon further consultation and evaluation, the inspection procedure was extended to June 28, 2013, to allow for the completion of the inspection procedure.

Following consultation with the three communities, FEMA found that the Village of Islamorada, the City of Marathon, and Monroe County, Florida, had fulfilled the requirements of the inspection procedure. As a result, FEMA notified the three participating communities that the pilot inspection procedure under 44 CFR 59.30 would terminate on June 28, 2013. FEMA is publishing this document to give notice that the pilot inspection procedure under the Pilot Inspection Program at 44 CFR 59.30 was terminated on June 28, 2013 for Monroe County, the Village of Islamorada, and the City of Marathon, Florida. FEMA expects that the three communities will continue to use their authorities and enforcement provisions (e.g., additional inspections during the building permit process, other enforcement provisions in their flood damage prevention ordinance, or a Section 1316 declaration by FEMA, if all other methods fail to bring compliance) beyond June 28, 2013.

Dated: January 8, 2013.

W. Craig Fugate,
*Administrator, Federal Emergency
Management Agency.*

National Register of Historic Places; Notification of Pending Nominations and Related Actions

Nominations for the following properties being considered for listing or related actions in the National Register were received by the National Park Service before November 30, 2013. Pursuant to section 60.13 of 36 CFR part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation. Comments may be forwarded by United States Postal Service, to the National Register of Historic Places, National Park Service, 1849 C St. NW., MS 2280,

Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St. NW., 8th floor, Washington, DC 20005; or by fax, 202-371-6447. Written or faxed comments should be submitted by January 29, 2014. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
