FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of December 17-18, 2013

In accordance with Section 271.25 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on December 17-18, 2013.¹

Consistent with its statutory mandate, the Federal Open Market Committee seeks monetary and financial conditions that will foster maximum employment and price stability. In particular, the Committee seeks conditions in reserve markets consistent with federal funds trading in a range from 0 to ¼ percent. The Committee directs the Desk to undertake open market operations as necessary to maintain such conditions. Beginning in January, the Desk is directed to purchase longer-term Treasury securities at a pace of about \$40 billion per month and to purchase agency mortgage-backed securities at a pace of about \$35 billion per month. The Committee also directs the Desk to engage in dollar roll and coupon swap transactions as necessary to facilitate settlement of the Federal Reserve's agency mortgage-backed securities transactions. The Committee directs the Desk to maintain its policy of rolling over maturing Treasury securities into new issues and its policy of reinvesting principal payments on all agency debt and agency mortgage-backed securities in agency mortgage-backed securities. The System Open Market Account Manager and the Secretary will keep the Committee informed of ongoing developments regarding the System's balance sheet that could affect the attainment over time of the Committee's objectives of maximum employment and price stability.

¹ Copies of the Minutes of the Federal Open Market Committee at its meeting held on December 17-18, 2013, which includes the domestic policy directive issued at the meeting, are available upon request to the Board of Governors of the Federal Reserve System, Washington, DC 20551. The minutes are published in the Federal Reserve Bulletin and in the Board's Annual Report.

By order of the Federal Open Market Committee. January 9, 2014.

William B. English,

Secretary, Federal Open Market Committee.

SUPPLEMENTARY INFORMATION:

A. Purpose

Subpart 27.4, Rights in Data and Copyrights is a regulation which concerns the rights of the Government and contractors with whom the Government contracts, regarding the use, reproduction, and disclosure of information developed under such contracts. The delineation of such rights is necessary in order to protect the contractor's rights to not disclose proprietary data and to ensure that data developed with public funds is available to the public. The specific clauses associated with this information collection are as follows:

(1) FAR 52.227-15, Representation of Limited Rights Data and Restricted Computer Software. This clause is included in solicitations if the contracting officer requires an offeror to state whether limited rights data or restricted computer software are likely to be used in meeting the requirements. FAR 52.227-15 requires the contractor to identify whether data proposed for fulfilling the requirements is limited to data rights or restricted software. If the government does not receive unlimited rights, the contractor must provide a list of the data not covered. This information is submitted with a contractor's proposal to the Government. The Government uses the information to identify when there are only limited data rights or restricted software rights.

(2) FAR 52.227-16, Additional Data Requirements. This clause is included in all contracts for experimental, developmental, research, or demonstration work (other than basic or applied research to be performed solely by a university or college where the contract amount will be \$500,000 or less). The clause requires that the contractor keep all data first produced in the performance of the contract for a period of three years from the final
