

provider surveys so that the results of the surveys could be useful to DOD and to the contractors in identifying civilian provider concerns and developing actions that might mitigate concerns and help ensure the adequacy of the civilian provider network.

As a result, the new Managed Care Support Contracts (MCSC) incorporates an incentive award fee component. The determination of the award fee is through an evaluation by the Government that rewards contractor performance that exceeds contract requirements. For assessment of awards, activities will include, in part, the collection and analyses of survey data obtained confidentially via telephone from network civilian providers within U.S. and international regions. The goal of this survey effort is to provide regional Administrative Contracting Officers with information on provider-user satisfaction with the administrative processes/services of MCSC. Specifically, confidential telephone surveys of civilian network providers will be conducted that focus on three basic business functions provided of claims processing, customer service, and administrative services by the MCSC.
