Schedule

The report must be forwarded to the ARAC for review and approval no later than December 31, 2015.

ARAC Acceptance of New Task

The ARAC has accepted the task and will assign it to the ARAC ACSWG. The ACSWG serves as staff to ARAC and assists in the analysis of the assigned new task. ARAC must review and approve the ACSWG's report. If ARAC accepts the ACSWG's written report, it will transmit it to the FAA.

Working Group Activity

The ACSWG must comply with the procedures adopted by ARAC. As part of the procedures, the ACSWG must:

1. Recommend a work plan for completion of the task, including the rationale supporting such a plan, for consideration at the next ARAC meeting held following publication of this notice.

2. Provide a status report at each meeting of the ARAC.

3. Draft the report and required analyses and/or any other related materials or documents.

4. Present the final report to the ARAC for review and approval.

Participation in the ARAC Working Group

The ACSWG will be comprised of aviation professionals with experience and expertise in airman training and testing, and technical experts having an interest in the assigned new task. The FAA would like a wide range of members, to include individuals with experience in the part 61, part 121, part 135, part 141, and part 142 communities, to ensure that all appropriate aspects of airman testing and training, including best practices, are considered in the development of its report.

If you wish to become a member of the ACSWG, please write the person listed under the caption **FOR FURTHER INFORMATION CONTACT** expressing such desire. Describe your interest in the new task and state the expertise you would bring to the ACSWG. We must receive all requests by February 28, 2014.

The ARAC and the FAA will review the requests and advise you whether your request is approved.

If you are chosen for membership on the ACSWG, you must actively participate by attending all meetings and providing written comments when requested to do so. You must devote the resources necessary to support the ACSWG in meeting any assigned deadlines. You must keep your management chain, and those you may represent, advised of the ACSWG's activities and decisions to ensure the proposed technical solutions do not conflict with your sponsoring organization's position, when the subject is presented to ARAC for approval. Once the ACSWG has begun deliberations, members will not be added or substituted without the approval of the FAA and the ACSWG Chair.

The Secretary of Transportation determined the formation and use of ARAC is necessary and in the public

interest in connection with the performance of duties imposed on the FAA by law. ARAC meetings are open to the public. However, ARAC Working Group meetings are not open to the public, except to the extent individuals with an interest and expertise are selected to attend. The FAA will make no public announcement of the Working Group's meetings.

Issued in Washington, DC, on January 24, 2014.

Lirio Liu,

Designated Federal Officer, Aviation Rulemaking Advisory Committee.

Hours of Service of Drivers: RockTenn, Application for Renewal of Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for renewal of exemption; request for comments.

SUMMARY: RockTenn has requested a renewal of its exemption from certain provisions of the hours-of-service (HOS) requirements for drivers of property-carrying vehicles. FMCSA requests public comment on the RockTenn application for exemption.

DATES: If granted, this exemption would be effective during the period of April 17, 2014 through April 16, 2016. Comments must be received on or before February 28, 2014.

SUPPLEMENTARY INFORMATION:

RockTenn Application for Exemption

The HOS rules in 49 CFR 395.3(a)(1) and (a)(2) prohibit a property-carrying CMV driver from driving a CMV after the 14th hour after coming on duty following 10 consecutive hours off duty. Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption from the HOS requirements for a maximum 2-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The procedures for requesting an exemption (including renewals) are prescribed in 49 CFR part 381.
