Background

The data for the Transportation of Hazardous Materials, Highway Routing ICR is collected under authority of 49 U.S.C. 5112 and 5125. Specifically, 49 U.S.C. 5112(c) requires that the Secretary, in coordination with the States, “shall update and publish periodically a list of currently effective hazardous material highway route designations.”

Under 49 CFR 397.73, the FMCSA Administrator has the authority to request that each State and Indian tribe, through its routing agency, provide information identifying hazardous materials routing designations within its

jurisdiction. That information is collected and consolidated by FMCSA and published annually, in whole or as updates, in the **Federal Register**.

Comments From the Public: The FMCSA received 1 comment in response to the 60-day comment request **Federal Register** notice published on October 23, 2013. FMCSA will consider the comment received from the American Trucking Association (ATA) that addressed the changes to be implemented in the ICR to meet the requirements of Public Law 112-141, Moving Ahead for Progress in the 21st Century Act (MAP-21).

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87 on: February 6, 2014.

Associate Administrator, Office of Research and Information Technology and Chief Information Officer.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice; reopening docket and extension of comment period.

In its comments responding to the notice, Advocates for Highway and Auto Safety (Advocates) pointed out that the Agency failed to include a copy of the Van Hool/Coach USA application in the docket for public inspection as required by statute and regulation. In response to the Advocates concern, the Agency (1) has placed a copy of the Van Hool/Coach USA application in the docket, (2) is reopening the docket, and (3) is extending the comment period from February 14, 2014 until March 3, 2014.

SUPPLEMENTARY INFORMATION: On August 6, 2013 (78 FR 47817), FMCSA published a notice in the **Federal Register** requesting comments on an application for exemption from Van Hool/Coach USA to allow the use of double deck motorcoaches constructed with a sleeper berth that has an exit that does not meet the minimum dimensional requirements specified in the FMCSRs. The Agency provided a 30-day comment period for the notice with a deadline of September 5, 2013. On September 16, 2013, Advocates noted that the Agency did not provide the public with an opportunity to inspect the information relevant to the application, including the application and any safety analysis provided by the applicant.

The FMCSA has placed the information provided by Van Hool/Coach USA into the docket, and has determined that a 15 day extension of the comment period is appropriate.

In consideration of the above, FMCSA is reopening the comment period for 15 days, from February 14, 2014 to March 3, 2014.

Issued on: February 5, 2014.
