## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-71527; File No. SR-Topaz-2014-07]

### Self-Regulatory Organizations; Topaz Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Schedule of Fees

February 12, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on February 3, 2014, the Topaz Exchange, LLC (d/b/a ISE Gemini) (the "Exchange" or "Topaz") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Topaz is proposing to amend its Schedule of Fees. The text of the proposed rule change is available on the Exchange's Internet Web site at <http://www.ise.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The purpose of the proposed rule change is to amend the Schedule of Fees to (1) introduce volume-based tiered rebates for Firm Proprietary/Broker-

Dealer and Professional Customer orders, (2) increase Maker Rebates provided to Priority Customer orders in Non-Penny Symbols, and (3) increase the Taker Fee and Fee for Responses to Crossing Orders charged for Market Maker orders in Non-Penny Symbols. The fee changes discussed apply to both Standard Options and Mini Options traded on Topaz. The Exchange's Schedule of Fees has separate tables for fees applicable to Standard Options and Mini Options. The Exchange notes that while the discussion below relates to fees for Standard Options, the fees for Mini Options, which are not discussed below, are and shall continue to be 1/10th of the fees for Standard Options.

On September 3, 2013 the Exchange filed with the Commission an immediately effective rule filing that established volume-based tiered rebates for adding liquidity on the Exchange ("Maker Rebates").<sup>3</sup> Specifically, that filing established Maker Rebates applicable to Market Maker<sup>4</sup> and Priority Customer<sup>5</sup> orders based on a Member's average daily volume ("ADV") in a given month. Topaz now proposes to amend its Schedule of Fees to introduce similar tiered Maker Rebates for Firm Proprietary/Broker-Dealer<sup>6</sup> and Professional Customer<sup>7</sup> orders that add liquidity on the Exchange. The proposed tiered Maker Rebates will replace the current uniform Maker Rebate of \$0.25 per contract that is currently provided to all Firm Proprietary/Broker-Dealer and Professional Customer orders in all symbols regardless of the volume executed by a Member.

A Member's tier will be based on its "maker" ADV in Firm Proprietary/Broker-Dealer and Professional Customer orders, which must be from 0-9,999 contracts for Tier 1, from 10,000-24,999 contracts for Tier 2, from 25,000-39,999 contracts for Tier 3, and

<sup>3</sup> See Securities Exchange Act Release No. 70426 (September 17, 2013), 78 FR 58359 (September 23, 2013) (SR-Topaz-2013-04).

<sup>4</sup> The term Market Maker refers to "Competitive Market Makers" and "Primary Market Makers" collectively. Market Maker orders sent to the Exchange by an Electronic Access Member are assessed fees and rebates at the same level as Market Maker orders. See footnote 2, Schedule of Fees, Section I and II.

<sup>5</sup> A Priority Customer is a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s).

<sup>6</sup> A Firm Proprietary order is an order submitted by a Member for its own proprietary account. A Broker-Dealer order is an order submitted by a Member for a non-Member broker-dealer account.

<sup>7</sup> A Professional Customer is a person who is not a broker/dealer and is not a Priority Customer.

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>24</sup> 17 CFR 200.30-3(a)(12).

40,000 or more contracts for Tier 4.<sup>8</sup> Instead of the uniform Maker Rebates currently provided, Firm Proprietary/Broker-Dealer and Professional Customer orders will now qualify for tiered Maker Rebates, which are proposed to be \$0.25 per contract in Penny Symbols and \$0.35 per contract in Non-Penny Symbols for Tier 1, \$0.30 per contract in Penny Symbols and \$0.45 per contract in Non-Penny Symbols for Tier 2, \$0.35 per contract in Penny Symbols and \$0.55 per contract in Non-Penny Symbols for Tier 3, and \$0.40 per contract in Penny Symbols and \$0.65 per contract in Non-Penny Symbols for Tier 4. The highest tier threshold attained by a Member will apply retroactively in a given month to all eligible traded contracts and for all eligible market participants. These tiers, however, will be completely separate from the tiers currently in place for Market Maker and Priority Customer orders. Thus, for example, if a Member executes sufficient volume to qualify for Tier 2 rebates for its Firm Proprietary/Broker-Dealer and Professional Customer orders that Member will not thereby qualify for Tier 2 rebates for its Market Maker or Priority Customer orders, and vice versa. Market Maker and Priority Customer orders will continue to be eligible for tiers based exclusively on achieving volume thresholds in the current table of qualifying tier thresholds, which has been relabeled "Table 1." Firm Proprietary/Broker-Dealer and Professional Customer orders will be eligible for higher tiers based exclusively on achieving volume thresholds in new "Table 2." Members who do not achieve a higher tier based on the applicable table will receive Tier 1 rates.

In connection with the new tiered Maker Rebates described above, the Exchange is also proposing to make non-substantive edits to the text of its Schedule of Fees to clarify which items are included in the various ADV categories. In particular, the Exchange proposes to adopt amended text that states that: (1) The Total Affiliated Member ADV category includes all volume in all symbols and order types, including both maker and taker volume and volume executed in the PIM, Facilitation, Solicitation, and QCC

mechanisms;<sup>9</sup> and (2) the Priority Customer Maker ADV category includes all Priority Customer volume that adds liquidity in all symbols. This amended language will supplement new text indicating, as explained above, that the Firm Proprietary/Broker-Dealer and Professional Customer Maker ADV category includes all Firm Proprietary/Broker-Dealer and Professional Customer volume that adds liquidity in all symbols.

The Exchange is also proposing to increase the Maker Rebates applicable to Priority Customer orders in Non-Penny Symbols. Currently, Priority Customer orders in Non-Penny Symbols receive a Maker Rebate of \$0.70 per contract for Tier 1, \$0.75 per contract for Tier 2, \$0.80 per contract for Tier 3, and \$0.82 per contract for Tier 4. The Exchange proposes to increase the Maker Rebate for Priority Customer orders in Non-Penny Symbols to be \$0.75 per contract for Tier 1, \$0.80 per contract for Tier 2, \$0.82 per contract for Tier 3, and \$0.85 per contract for Tier 4.

Finally, the Exchange is proposing to increase the Taker Fee and Fee for Responses to Crossing Orders applicable to Market Maker orders in Non-Penny Symbols. Currently, Market Maker orders in Non-Penny Symbols that remove liquidity or respond to a Crossing Order pay a fee of \$0.84 per contract. The Exchange is proposing to increase both of these fees to \$0.86 per contract.

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>10</sup> in general, and Section 6(b)(4) of the Act,<sup>11</sup> in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

The Exchange believes the proposed tiered Maker Rebates are reasonable, equitable, and not unfairly discriminatory because Topaz has already established volume-based pricing for Market Maker and Priority Customer orders, and is merely proposing to adopt a similar pricing model for Firm Proprietary/Broker-Dealer and Professional Customer orders in order to incentivize Members to send this order flow to the Exchange. The new Maker Rebate tiers will allow

Members to receive increased rebates for their Firm Proprietary/Broker-Dealer and Professional Customer orders. In Penny Symbols, Members that bring this order flow to the Exchange will receive the same \$0.25 per contract Maker Rebate that they receive today at the lowest tier, and an additional \$0.15 per contract above the current rebate at the highest tier. In Non-Penny Symbols, Members will receive an additional \$0.10 per contract above the current rebate at the lowest tier, and an additional \$0.40 per contract above the current rebate at the highest tier. As noted above, Market Maker and Priority Customer orders currently benefit from tiered rebates, and the Exchange believes that these rebates have been successful in attracting that order flow to Topaz. This proposal is designed to attract additional order flow from certain market participants that are not incentivized by the current tiers for Market Maker and Priority Customer orders. The Exchange believes that providing higher rebates for Firm Proprietary/Broker-Dealer and Professional Customer orders executed by Members that have achieved specified volume thresholds will attract that order flow to Topaz, and thereby create additional liquidity to the benefit of all market participants who trade on the Exchange. While non-Topaz Market Makers will not be eligible for the proposed tiers, the Exchange does not believe that this is unfairly discriminatory as the proposal is not intended to incentivize additional flow from non-Members who will continue to receive Maker Rebates at the current rate. In addition, the Exchange believes that it is appropriate, in connection with this change, to make non-substantive amendments to the text of the Schedule of Fees in order to make the current and proposed rebate programs more transparent to Members and investors.

The Exchange also believes that it is reasonable, equitable, and not unfairly discriminatory to increase Maker Rebates provided to Priority Customer orders in Non-Penny Symbols. As with the new Maker Rebates discussed above for Firm Proprietary/Broker-Dealer and Professional Customer orders, the Exchange believes that providing higher rebates for Priority Customer orders attracts that order flow to Topaz and thereby creates liquidity to the benefit of all market participants who trade on the Exchange. While the proposed rule change increases Maker Rebates for both Priority and Professional Customer orders the Exchange notes that Priority Customer orders will remain entitled to higher rebates than Professional

<sup>8</sup> All eligible volume from affiliated Members will be aggregated in determining applicable tiers, provided there is at least 75% common ownership between the Members as reflected on each Member's Form BD, Schedule A. ADV thresholds will be based on Standard and Mini volume, but their respective rebates/fees will apply. Any day that the market is not open for the entire trading day may be excluded from the ADV calculation.

<sup>9</sup> Only the Total Affiliated Member ADV category includes volume executed in the PIM, Facilitation, Solicitation, and QCC mechanisms as orders executed in the Exchange's crossing mechanisms are not considered "maker" volume.

<sup>10</sup> 15 U.S.C. 78f.

<sup>11</sup> 15 U.S.C. 78f(b)(4).

Customer orders. The Exchange believes that it is equitable and not unfairly discriminatory to provide higher rebates to Priority Customer orders than to Professional Customer orders. A Priority Customer is by definition not a broker or dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s). This limitation does not apply to participants on the Exchange whose behavior is substantially similar to that of market professionals, including Professional Customers, who will generally submit a higher number of orders (many of which do not result in executions) than Priority Customers.

Finally, the Exchange believes that it is reasonable, equitable, and not unfairly discriminatory to increase the Taker Fee and Fee for Responses to Crossing Orders charged for Market Maker orders in Non-Penny Symbols as these fees are still within the range of fees currently charged on other options exchanges. For example, the NASDAQ Options Market currently charges a fee for removing liquidity of \$0.89 per contract for Market Maker orders in Non-Penny Symbols, which is higher than the \$0.86 per contract fee proposed here.<sup>12</sup> The Exchange notes that it is increasing response fees in tandem with its Taker Fees as an execution resulting from a Response to a Crossing Order is akin to taking liquidity.

The Exchange notes that it has determined to charge fees and provide rebates in Mini Options at a rate that is 1/10th the rate of fees and rebates the Exchange provides for trading in Standard Options. The Exchange believes it is reasonable and equitable and not unfairly discriminatory to assess lower fees and rebates to provide market participants an incentive to trade Mini Options on the Exchange. The Exchange believes the proposed fees and rebates are reasonable and equitable in light of the fact that Mini Options have a smaller exercise and assignment value, specifically 1/10th that of a standard option contract, and, as such, is providing fees and rebates for Mini Options that are 1/10th of those applicable to Standard Options.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

In accordance with Section 6(b)(8) of the Act,<sup>13</sup> the Exchange does not believe that the proposed rule change will impose any burden on inter-market or

intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange believes that the proposed changes will promote competition as they are designed to allow Topaz to better compete for order flow by offering higher rebates to market participants that add liquidity on the Exchange. While the Exchange proposes to increase taker and response fees for a subset of orders, the Exchange believes that this will not impose a burden on competition because the new fees are consistent with those charged by other options exchanges.<sup>14</sup> Furthermore, the Exchange believes that the clarifying text being added to the Schedule of Fees is non-substantive, and therefore does not impact the competition analysis. The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

#### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,<sup>15</sup> and subparagraph (f)(2) of Rule 19b-4 thereunder,<sup>16</sup> because it establishes a due, fee, or other charge imposed by Topaz.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings

to determine whether the proposed rule should be approved or disapproved.

#### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

##### *Electronic Comments*

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-71528; File No. SR-FINRA-2014-007]

### Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing of a Proposed Rule Change To Amend Rule 7510 and Rule 7540 Relating to Fees for the Alternative Display Facility

February 12, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) <sup>1</sup> and Rule 19b-4 thereunder, <sup>2</sup> notice is hereby given that on January 31, 2014, Financial Industry Regulatory Authority, Inc. (“FINRA”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by FINRA. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

FINRA is proposing to amend Rule 7510 and Rule 7540 relating to fees for the Alternative Display Facility (“ADF”).<sup>3</sup>

The text of the proposed rule change is available on FINRA's Web site at <http://www.finra.org>, at the principal office of FINRA and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed

rule change. The text of these statements may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The ADF is a quotation collection and trade reporting facility that provides ADF Market Participants (i.e., ADF-registered market makers or electronic communications networks (“ECNs”)) <sup>4</sup> the ability to post quotations, display orders and report transactions in NMS stocks <sup>5</sup> for submission to the Securities Information Processors (“SIPs”) for consolidation and dissemination to vendors and other market participants. In addition, the ADF delivers real-time data to FINRA for regulatory purposes, including enforcement of requirements imposed by Regulation NMS. <sup>6</sup> Since the second quarter of 2010, there have been no ADF Market Participants. <sup>7</sup> FINRA is currently in the process of migrating the ADF to its multi-product platform (“MPP”). In connection with the migration to the MPP, and the addition of new ADF Market Participants, FINRA is proposing certain changes to the fees relating to ADF operations. Specifically, FINRA is proposing to (1) expand the web browser access that is currently available on the Trade Reporting and Compliance Engine (“TRACE”) to provide ADF Market Participants with trade reporting and trade management functionality for ADF trades and to adopt fees for such service; (2) expand the FINRA Automated Data Delivery Service (“ADDS”) that is currently available on TRACE to include ADF data and to adopt fees for such service; (3) revise Rule 7510(a) so that certain of the transaction charges would be assessed on a per-trade basis, with the fee being charged to the executing party; (4) revise Rule 7510(a) to provide a carve-out to the Corrective Transaction Charge pursuant to which the fee would be assessed to the executing party only; (5) delete the carve-out for fees for the late reporting of trades; and (6) delete a provision of Rule 7540(c) relating to a fee for certain testing services and make

corresponding changes to the remaining testing service fee in that section.

#### Proposed Web Browser Access

Although there are currently no active ADF participants, an ADF participant today that wished to report a trade in an ADF-eligible security to the ADF would utilize FINRA's Trade Reporting and Comparison Service (“TRACS”) pursuant to Rule 6280. <sup>8</sup> Following the migration of the ADF to the MPP, FINRA will expand its current web browser access, which members may currently use to access the Trade Reporting and Compliance Engine (“TRACE”), so that ADF Market Participants may use this functionality to access the ADF and to report ADF trades. <sup>9</sup> Pursuant to proposed paragraph (c)(1) of Rule 7510, FINRA is proposing to charge ADF Market Participants \$20 per user ID per month for web browser access. <sup>10</sup> In addition to reporting trades through the web browser, ADF Market Participants that elect to utilize the web browser feature will be able to access trade management functions, such as trade reconciliation, cancel and correct, and will be able to access up to three prior days' worth of their trade data as well as the current trading day's trades. The proposed web browser access will offer the same level of functionality as the Level I (Trade Report Only) web browser access and trade management functionality that is offered under Rule 7730(a) for TRACE. In addition, the proposed fee is identical to the fee currently charged under Rule 7730(a) for Level I (Trade Report Only) web browser access and trade management functionality for TRACE. <sup>11</sup>

<sup>8</sup> FINRA notes that it has recently proposed to replace the reference to TRACS in the rules relating to the ADF, including replacing the reference to TRACS in Rule 6281 with a more generalized reference to the ADF. See Securities Exchange Act Release No. 71147 (December 19, 2013), 78 FR 78451 (December 26, 2013) (Notice of Filing of File No. SR-FINRA-2013-053).

<sup>9</sup> Due to system capacity limitations, FINRA proposes to offer the web browser access to ADF Market Participants (i.e., Registered Reporting ADF Market Makers and Registered Reporting ADF ECNs) only. FINRA proposes to offer ADDS, which is discussed in greater detail below, to all ADF participants (i.e., a market participant that is a party to an ADF trade).

<sup>10</sup> An ADF Market Participant that elects to not utilize the web browser access would report trades directly to the ADF through FIX (Financial Information eXchange) protocol. Although a participant would incur connectivity costs when submitting trade reports to the ADF through FIX, FINRA will not assess a charge for a FIX connection to the ADF.

<sup>11</sup> In contrast to TRACE, FINRA does not propose to offer a Level II web browser access for the ADF. The Level II service for TRACE web browser access provides all real-time TRACE transaction data, in addition to the functionality of Level I. TRACE is the sole platform for the reporting of fixed-income

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> FINRA notes that it has submitted proposed rule change SR-FINRA-2013-053, which would, among other things, amend Rule 7510. See Securities Exchange Act Release No. 71147 (December 19, 2013), 78 FR 78451 (December 26, 2013). FINRA will amend this filing and/or SR-FINRA-2013-053, as necessary, to reflect Commission approval, or the effectiveness, of any of the proposed rule changes.

<sup>4</sup> See Rule 6220(a)(3).

<sup>5</sup> See 17 CFR 242.600.

<sup>6</sup> See 17 CFR 242.600.

<sup>7</sup> FINRA notes that it recently submitted a proposed rule change to add a new entrant, LavaFlow, to the ADF. See Securities Exchange Act Release No. 71042 (December 11, 2013), 78 FR 76341 (December 17, 2013) (Notice of Filing of File No. SR-FINRA-2013-52).
