

ATTACHMENT 1—GENERAL TARGET SCHEDULE FOR PROCESSING AND RESOLVING REQUESTS FOR ACCESS TO SENSITIVE UNCLASSIFIED NON-SAFEGUARDS INFORMATION IN THIS PROCEEDING—Continued

Day	Event/Activity
20	U.S. Nuclear Regulatory Commission (NRC) staff informs the requester of the staff's determination whether the request for access provides a reasonable basis to believe standing can be established and shows need for SUNSI. (NRC staff also informs any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information.) If NRC staff makes the finding of need for SUNSI and likelihood of standing, NRC staff begins document processing (preparation of redactions or review of redacted documents).
25	If NRC staff finds no "need" or no likelihood of standing, the deadline for petitioner/requester to file a motion seeking a ruling to reverse the NRC staff's denial of access; NRC staff files copy of access determination with the presiding officer (or Chief Administrative Judge or other designated officer, as appropriate). If NRC staff finds "need" for SUNSI, the deadline for any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information to file a motion seeking a ruling to reverse the NRC staff's grant of access.
30	Deadline for NRC staff reply to motions to reverse NRC staff determination(s).
40	(Receipt +30) If NRC staff finds standing and need for SUNSI, deadline for NRC staff to complete information processing and file motion for Protective Order and draft Non-Disclosure Affidavit. Deadline for applicant/licensee to file Non-Disclosure Agreement for SUNSI.
A	If access granted: Issuance of presiding officer or other designated officer decision on motion for protective order for access to sensitive information (including schedule for providing access and submission of contentions) or decision reversing a final adverse determination by the NRC staff.
A + 3	Deadline for filing executed Non-Disclosure Affidavits. Access provided to SUNSI consistent with decision issuing the protective order.
A + 28	Deadline for submission of contentions whose development depends upon access to SUNSI. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing or opportunity for hearing), the petitioner may file its SUNSI contentions by that later deadline.
A + 53	(Contention receipt +25) Answers to contentions whose development depends upon access to SUNSI.
A + 60	(Answer receipt +7) Petitioner/Intervener reply to answers.
>A + 60	Decision on contention admission.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION**[Docket No. 52-046; NRC-2015-0021]****Korea Hydro and Nuclear Power Co., Ltd., and Korea Electric Power Corporation****AGENCY:** Nuclear Regulatory Commission.**ACTION:** Notice of docketing.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has determined that Korea Hydro and Nuclear Power Co., Ltd. (KHNP) and Korea Electric Power Corporation (KEPCO) have submitted information for a standard design certification of the APR1400 Standard Plant Design that is acceptable for docketing. The docket number established is 52-046.

DATES: March 12, 2015.

ADDRESSES: Please refer to Docket ID NRC-2015-0021 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0021. Address questions about NRC dockets to Carol

Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC'S Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "*Begin Web-based ADAMS Search.*" For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that the document is referenced. The application is available in ADAMS under Accession No. ML15006A037.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Jeffrey Ciocco, Office of New Reactors, U.S. Nuclear Regulatory Commission, Washington, DC, 20555-0001;

telephone: 301-415-6391; email: Jeff.Ciocco@nrc.gov.

SUPPLEMENTARY INFORMATION: By letter dated December 23, 2014, KHNP and KEPCO filed with the NRC, pursuant to Section 103 of the Atomic Energy Act and part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Licenses, Certifications, and Approvals for Nuclear Power Plants," an application for standard design certification of the APR1400 Standard Plant Design. A notice of receipt for this application was previously published in the **Federal Register** on February 3, 2015 (80 FR 5792).

The APR1400 stands for Advanced Power Reactor with a 1,400 megawatts electrical power and two-loop pressurized water reactor, developed in the Republic of Korea. According to the applicant, based on the self-reliant technologies and experiences from the design, construction, operation and maintenance of the Optimized Power Reactor 1000 (OPR1000), the APR1400 adopts advanced design features to enhance plant safety, economical efficiency, and convenience of operation and maintenance. The APR1400 application includes the entire power generation complex, except those elements and features considered site-specific.

The NRC staff has determined that KHNP and KEPCO have submitted information in accordance with 10 CFR

part 2, “Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders,” and 10 CFR part 52 that is acceptable for docketing. The docket number established for this application is 52–046.

The NRC staff will perform a detailed technical review of the design certification application. Docketing of the design certification application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the NRC will grant or deny the application. A notice related to the rulemaking pursuant to 10 CFR 52.51 for design certification, including provisions for participation of the public and other parties, will be the subject of a subsequent **Federal Register** notice.

Dated at Rockville, Maryland, this 3rd day of March, 2015.

For the Nuclear Regulatory Commission.

Jeffrey A. Ciocco,

Senior Project Manager, Licensing Branch 2, Division of New Reactor Licensing, Office of New Reactors.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–608; NRC–2013–0053]

SHINE Medical Technologies, Inc.; Notice of Hearing, Opportunity To Intervene, Order Imposing Procedures

AGENCY: Nuclear Regulatory Commission.

ACTION: Construction permit application; hearing, opportunity to petition for leave to intervene; order imposing procedures for access to Sensitive Unclassified Non-Safeguards Information (SUNSI).

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received a construction permit application from SHINE Medical Technologies, Inc. (SHINE), for approval of a proposed medical radioisotope production facility for the production of molybdenum-99 (Mo-99) at a site located in Janesville, Wisconsin. The NRC is currently conducting a detailed technical review of the construction permit application. If the construction permit application is approved, the applicant would be authorized to construct its proposed medical radioisotope production facility in accordance with the provisions of the construction permit.

DATES: A petition for leave to intervene must be filed by May 11, 2015.

ADDRESSES: Please refer to Docket Number 50–608 or Docket ID NRC–2013–0053 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Steven Lynch, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–1524, email: Steven.Lynch@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

By letters dated March 26, 2013 (ADAMS Accession No. ML13088A192), and May 31, 2013 (ADAMS Accession No. ML13172A361), and supplemented by letter dated September 25, 2013 (ADAMS Accession No. ML13269A378), SHINE requested approval of a construction permit application for a medical radioisotope production facility (ADAMS Accession No. ML13172A324). SHINE’s medical radioisotope production facility would include an irradiation facility and a radioisotope production facility collocated in a single building. The irradiation facility would consist of accelerator-driven subcritical operating assemblies used for the irradiation of a uranium solution to produce molybdenum-99 and other fission products. The radioisotope production facility would consist of hot cell structures used for the extraction of radioisotopes. Part one of the application was accepted for docketing on June 25, 2013 (78 FR 39342). The second and final portion of SHINE’s two-part construction permit

application, as supplemented, was accepted for docketing on December 2, 2013 (78 FR 73897). The docket number established for this application is 50–608.

The NRC is considering issuance of a construction permit to SHINE for construction of the SHINE medical radioisotope production facility, to be located in Rock County, Wisconsin.

II. Hearing

Pursuant to the Atomic Energy Act of 1954, as amended, and parts 2 and 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), “Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders,” and “Domestic Licensing of Production and Utilization Facilities,” notice is hereby given that a hearing will be held, at a time and place to be set in the future by the Commission or designated by the Atomic Safety and Licensing Board (Board).

The hearing on the application for a construction permit filed by SHINE pursuant to 10 CFR part 50 will be conducted by a Board that will be designated by the Chief Judge of the Atomic Safety and Licensing Board Panel or will be conducted by the Commission. Notice as to the membership of the Board will be published in the **Federal Register** at a later date. The NRC staff will complete a detailed technical review of the application and will document its findings in a safety evaluation report. The Commission will refer a copy of the application to the Advisory Committee on Reactor Safeguards (ACRS) in accordance with 10 CFR 50.58, “Hearings and Report of the Advisory Committee on Reactor Safeguards,” and the ACRS will report on those portions of the application that concern safety. The NRC staff will also complete an environmental review of the application and will document its findings in an environmental impact statement in accordance with the National Environmental Policy Act of 1969, as amended, and the Commission’s regulations in 10 CFR part 51.

III. Opportunity To Petition for Leave To Intervene

Within 60 days after the date of publication of this **Federal Register** notice, any person whose interest may be affected by this proceeding and who desires to participate as a party in this proceeding must file a written petition for leave to intervene with respect to issuance of the construction permit to SHINE in accordance with the NRC’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested
