NUCLEAR REGULATORY COMMISSION

Seeking Qualified Candidates for the Advisory Committee on Reactor Safeguards

AGENCY: Nuclear Regulatory
Commission.

ACTION: Request for resumes.

SUMMARY: The U.S. Nuclear Regulatory
Commission (NRC) seeks qualified
candidates for the Advisory Committee
on Reactor Safeguards (ACRS).

DATES: Resumes will be accepted until
June 23, 2015.

ADDRESSES: Submit resumes to Ms.
Kendra Freeland, ACRS, Mail Stop
T2E26, U.S. Nuclear Regulatory
Commission, Washington, DC 20555-
0001, or email *Kendra.Freeland@
nrc.gov*.

SUPPLEMENTARY INFORMATION: The ACRS
is a part-time advisory group, which is
statutorily mandated by the Atomic
Energy Act of 1954, as amended. ACRS
provides independent expert advice on
matters related to the safety of existing
and proposed nuclear power plants and
on the adequacy of proposed reactor
safety standards. Of primary importance
are the safety issues associated with the
operation of 99 commercial nuclear
power plants in the United States and
regulatory initiatives, including risk-
informed and performance-based
regulation, license renewal, power
uprates, and the use of mixed oxide and
high burnup fuels. An increased
emphasis is being given to safety issues
associated with new reactor designs and
technologies, including passive system
reliability and thermal hydraulic
phenomena, use of digital
instrumentation and control,
international codes and standards used
in multinational design certifications,
materials, and structural engineering,
nuclear analysis and reactor core
performance, and nuclear materials and
radiation protection. In addition, the
ACRS may be requested to provide
advice on radiation protection,
radioactive waste management, and
earth sciences in the agency's licensing
reviews for fuel fabrication and
enrichment facilities, and for waste
disposal facilities. The ACRS also has
some involvement in security matters

related to the integration of safety and
security of commercial reactors.

See the NRC Web site at <http://www.nrc.gov/aboutnrc/regulatory/advisory/acrs.html> for additional
information about the ACRS. Criteria
used to evaluate candidates include
education and experience, demonstrated
skills in nuclear reactor safety matters,
the ability to solve complex technical
problems, and the ability to work
collegially on a board, panel, or
committee. The Commission, in
selecting its Committee members, also
considers the need for specific expertise
to accomplish the work expected to be
before the ACRS. ACRS Committee
members are appointed for four-year
terms with no term limits. The
Commission looks to fill two vacancies
as a result of this request. For this
position, a candidate must have at least
20 years of broad experience and a
distinguished record of achievement in
one or more areas of nuclear science and
technology or related engineering
disciplines.

Candidates with pertinent graduate
level experience will be given
additional consideration. Consistent
with the requirements of the Federal
Advisory Committee Act, the
Commission seeks candidates with
diverse backgrounds, so that the
membership on the Committee is fairly
balanced in terms of the points of view
represented and functions to be
performed by the Committee. Candidates
will undergo a thorough
security background check to obtain the
security clearance that is mandatory for
all ACRS members. The security
background check will involve the
completion and submission of
paperwork to the NRC. Candidates for
ACRS appointments may be involved in
or have financial interests related to
NRC-regulated aspects of the nuclear
industry. However, because conflict-of-
interest considerations may restrict the
participation of a candidate in ACRS
activities, the degree and nature of any
such restriction on an individual's
activities as a member will be
considered in the selection process.

Each qualified candidate's financial
interests must be reconciled with
applicable Federal and NRC rules and
regulations prior to final appointment.
This might require divestiture of
securities or discontinuance of certain
contracts or grants. Information
regarding these restrictions will be
provided upon request. As a part of the
Stop Trading on Congressional
Knowledge Act of 2012, which bans
insider trading by members of Congress,
their staff, and other high-level federal
employees, candidates for appointments

will be required to disclose additional
financial transactions.

A resume describing the educational
and professional background of the
candidate, including any special
accomplishments, publications, and
professional references should be
provided. Candidates should provide
their current address, telephone
number, and email address. All
candidates will receive careful
consideration. Appointment will be
made without regard to factors such as
race, color, religion, national origin, sex,
age, or disabilities. Candidates must be
citizens of the United States and be able
to devote approximately 100 days per
year to Committee business, but may not
be compensated for more than 130
calendar days. Resumes will be
accepted until June 23, 2015.

Dated at Rockville, Maryland, this 18th day
of March, 2015.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,

Secretary of the Commission.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-74535; File No. SR-
NYSEMKT-2015-18]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending Rule 900.3NY(w) and Rule 980NY(d)(1) to Delete the PNP Plus Designation for Electronic Complex Orders From Its Rules

March 19, 2015.

Pursuant to Section 19(b)(1)¹ of the
Securities Exchange Act of 1934 (the
"Act")² and Rule 19b-4 thereunder,³
notice is hereby given that on March 12,
2015, NYSE MKT LLC (the "Exchange"
or "NYSE MKT") filed with the
Securities and Exchange Commission
(the "Commission") the proposed rule
change as described in Items I and II
below, which Items have been prepared
by the self-regulatory organization. The
Commission is publishing this notice to
solicit comments on the proposed rule
change from interested persons.

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 900.3NY(w) (Orders Defined) and Rule 980NY(d)(1) (Complex Order Trading) to delete the PNP Plus designation for Electronic Complex Orders from its rules. The text of the proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 900.3NY(w) and Rule 980NY(d)(1) to delete the PNP Plus designation for Electronic Complex Orders from its rules.

PNP Plus Orders

The PNP Plus order type was designed to provide ATP Holders with additional processing capability in order to control the circumstances under which their Electronic Complex Orders are executed. However, due to little demand for PNP Plus orders, the Exchange proposes to discontinue functionality supporting the order type.

Pursuant to Rule 900.3NY(w), an Electronic Complex Order designated as PNP Plus ("PNP Plus") is automatically re-priced by the Exchange at an MPV greater (less than) the contra-side Complex BBO (as defined in Rule 900.2NY(7)) for any or all of the order that remains unexecuted and would otherwise lock or cross the Complex BBO should it be displayed in the Consolidated Book. The re-priced PNP Plus is then posted in the Consolidated Book. The Electronic Complex Order designated as PNP Plus continues to be re-priced at an MPV greater (less than)

than the Complex BBO and re-posted in the Consolidated Book, with each change in the Complex BBO, until such time as the Complex BBO has moved to a price where the original limit price of the order no longer locks or crosses the Complex BBO, at which time the Electronic Complex Order designated as PNP Plus will revert to its original limit price. PNP Plus orders are ranked in the Consolidated Book pursuant to Rule 980NY(b) and assigned a new price time priority as of the time of each re-posting.

Given the lack of demand for PNP Plus orders, the Exchange proposes to decommission the order type and delete the definition of PNP Plus from Rule 900.3NY(w). The Exchange proposes to hold Rule 900.3NY(w) as Reserved. Similarly, the Exchange proposes to delete the reference to "Limit Orders designated as PNP Plus" from Rule 980NY(d)(1) regarding the types of allowable Electronic Complex Orders. As proposed Rule 980NY(d)(1) would state that "Electronic Complex Order must be designated as Limit Orders."

The Exchange believes the proposed change would assist with the maintenance of fair and orderly markets because it would reduce the complexity of order types available to market participants and would help clarify the nature of order types available for trading on the Exchange.

Implementation

The Exchange will announce the implementation date of this change through a Trader Update.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),⁴ in general, and furthers the objectives of Section 6(b)(5),⁵ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system. Specifically, the Exchange believes that by eliminating a little-used order type the proposal would assist with the maintenance of fair and orderly markets because it would reduce the complexity of order types available to market participants, thereby adding transparency and clarity to the Exchange's rules, and would help

clarify the nature of order types available for trading on the Exchange. The Exchange further believes that deleting an order type rarely used by investors also removes impediments to and perfects the mechanism of a free and open market by ensuring that members, regulators and the public can more easily navigate the Exchange's rulebook and better understand the order types available for trading on the Exchange. Moreover, the Exchange believes that the elimination of the PNP Plus order type would simplify order processing and reduce the burden on system capacity, which the Exchange believes is consistent with promoting just and equitable principles of trade as well as protecting investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that the proposed rule change would relieve a burden on competition by eliminating an order type and streamlining the Exchange's rules. In doing so, the proposed rule change would also serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁶ and Rule 19b-4(f)(6) thereunder.⁷ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A)

⁴ 15 U.S.C. 78f(b).

⁵ 15 U.S.C. 78f(b)(5).

⁶ 15 U.S.C. 78s(b)(3)(A)(iii).

⁷ 17 CFR 240.19b-4(f)(6).

of the Act and Rule 19b-4(f)(6) thereunder.⁸

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) of the Act⁹ to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the NYSE's principal office and on its Internet Web site at www.nyse.com.
