

SUPPLEMENTARY INFORMATION: Parts of this meeting of the Board will be open to the public (limited space available), and parts will be closed to the public. Please send an email to VisitorRequest@FCA.gov at least 24 hours before the meeting. In your email include: Name, postal address, entity you are representing (if applicable), and telephone number. You will receive an email confirmation from us. Please be prepared to show a photo identification when you arrive. If you need assistance for accessibility reasons, or if you have any questions, contact Dale L. Aultman, Secretary to the Farm Credit Administration Board, at (703) 883-4009. The matters to be considered at the meeting are:

Open Session

A. Approval of Minutes

- March 12, 2015

B. Reports

- Quarterly Report on Economic Conditions and FCS Conditions

Closed Session*

- Office of Examination Quarterly Report
*Session Closed-Exempt pursuant to 5 U.S.C. Section 552b(c)(8) and (9).

Dated: March 31, 2015.

Dale L. Aultman,

Secretary, Farm Credit Administration Board.

BILLING CODE CODE 6705-01-P

FEDERAL COMMUNICATIONS COMMISSION

Radio Broadcasting Services; AM or FM Proposals To Change the Community of License

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The following applicants filed AM or FM proposals to change the community of license: Always Mountain Time, LLC, Station KIDN-FM, Facility ID 57339, BPH-20140311ACI, From Burns, CO, To Hayden, CO; McNeese State University, Station KBYS, Facility ID 17277, BPED-20150226ABQ, From Moss Bluff, LA, To Lake Charles, LA; Radio Hatteras, Inc., Station WHDX, Facility ID 16416, BPED-20150223ABD, From Buxton, NC, To Waves, NC; Riverfront Broadcasting, LLC, Station KZKK, Facility ID 15267, BPH-20150213ADF, From Huron, SD, To Parkston, SD; Saver Media, Inc., Station KQTC, Facility Id 19041, BPH-

20150204AAG, From Eldorado, TX, To Christoval, TX.

DATES: The agency must receive comments on or before June 1, 2015.

ADDRESSES: Federal Communications Commission, 445 Twelfth Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Tung Bui, 202-418-2700.

SUPPLEMENTARY INFORMATION: The full text of these applications is available for inspection and copying during normal business hours in the Commission's Reference Center, 445 12th Street SW., Washington, DC 20554 or electronically via the Media Bureau's Consolidated Data Base System, http://svartifoss2.fcc.gov/prod/cdbs/pubacc/prod/cdbs_pa.htm. A copy of this application may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., 445 12th Street SW., Room CY-B402, Washington, DC 20554, telephone 1-800-378-3160 or www.BCPIWEB.com.

Federal Communications Commission.

James D. Bradshaw,

Deputy Chief, Audio Division, Media Bureau.

FEDERAL COMMUNICATIONS COMMISSION

[MB Docket No. 15-43; DA 15-253]

Media Bureau Seeks Comment for Report Required by the STELA Reauthorization Act of 2014

AGENCY: Federal Communications Commission.

ACTION: Notice; solicitation of comments.

SUMMARY: This document solicits public comments and data for use in preparation of a report required by the STELA Reauthorization Act of 2014. The report must contain an analysis of designated market areas and recommendations for fostering increased localism. The Commission is required to submit the report no later than June 3, 2016.

DATES: Comments may be filed on or before May 12, 2015, and reply comments may be filed on or before June 11, 2015.

ADDRESSES: You may submit comments, identified by MB Docket No. 15-43, DA-15-253, by any of the following methods:

- Federal Communications Commission's Web site: <http://fjallfoss.fcc.gov/ecfs2/>. Follow the instructions for submitting comments.

■ Mail: Federal Communications Commission, 445 12th Street SW., Washington, DC, 20554.

■ People with Disabilities: Contact the FCC to request reasonable accommodations (accessible format documents, sign language interpreters, CART, etc.) by email: FCC504@fcc.gov or phone: 202-418-0530 or TTY: 202-418-0432.

For detailed instructions for submitting comments and additional information on the rulemaking process, see the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Dan Bring, Media Bureau (202) 418-2164, TTY (202) 418-7172, or email at Danny.Bring@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's document in MB Docket No. 15-43, DA-15-253, released February 25, 2015. The complete text of the document is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street SW., Washington, DC 20554.

Synopsis

1. By this Public Notice, the Media Bureau seeks data, information, and comment for use in preparation of a report required by the STELA Reauthorization Act of 2014 (STELAR), Public Law 113-200, sec. 109, 128 Stat. 2059, 2065 (2014). Section 109 of STELAR requires the Commission to submit a report on designated market areas and considerations for fostering increased localism to the appropriate congressional committees not later than 18 months after the date of enactment (*i.e.*, June 3, 2016). Specifically, Section 109 states:

SEC. 109. REPORT ON DESIGNATED MARKET AREAS.

(a) IN GENERAL. Not later than 18 months after the date of the enactment of this Act, the Commission shall submit to the appropriate congressional committees a report that contains—

(1) An analysis of—

(A) The extent to which consumers in each local market have access to broadcast programming from television broadcast stations located outside their local market, including through carriage by cable operators and satellite carriers of signals that are significantly viewed (within the meaning of section 340 of the Communications Act of 1934 (47 U.S.C. 340)); and

(B) Whether there are technologically and economically feasible alternatives to the use of designated market areas to define markets that would provide consumers with more programming

options and the potential impact such alternatives could have on localism and on broadcast television locally, regionally, and nationally; and

(2) Recommendations on how to foster increased localism in counties served by out-of-State designated market areas.

(b) CONSIDERATIONS FOR FOSTERING INCREASED LOCALISM.

In making recommendations under subsection (a)(2), the Commission shall consider—

(1) The impact that designated market areas that cross State lines have on access to local programming;

(2) The impact that designated market areas have on local programming in rural areas; and

(3) The state of local programming in States served exclusively by out-of-State designated market areas.

2. The legislative history of Section 109 instructs the Commission to consider a number of factors in making its recommendations to foster increased localism in counties served by out-of-State designated market areas (DMA), including: (1) The impact DMAs that cross State lines have on access to local programming; (2) the impact DMAs have on local programming in rural areas; and (3) the impact such alternatives to the DMA system could have on localism, as well as broadcast television locally, regionally, and nationally. The legislative history also provides the following guidance regarding the report:

The Committee intends that the FCC's report will interpret local programming to include not only television programming (in particular news, sports, weather, and other programming containing content relevant to a consumer's daily life) originating from and about the DMA in which a consumer resides, but also television programming originating from and about the State in which a consumer resides.

The Committee also intends that the analysis concerning alternatives to the DMA system should explore in detail the merits and advantages to those alternatives to consumers, and not just the impact those alternatives may have on broadcast television.

3. To prepare the STELAR Section 109 Report, we seek comment on the appropriate methodologies and data sources, as well as the submission of data and information, to analyze the extent consumers have access to broadcast stations located outside their local markets. We ask commenters to identify technologically and economically feasible alternatives to DMAs that would provide more programming options and the potential impact of such alternatives on localism and on broadcast television locally,

regionally, and nationally. We also ask commenters to provide recommendations that would foster localism in counties served by out-of-State DMAs and the impact of such recommendations as required under Section 109(b).

Data Analysis—Section 109(a)(1)(A)

4. Section 109(a)(1)(A) requires the Commission to analyze the extent to which consumers in each local market have access to broadcast programming from television broadcast stations located outside their local markets, including through carriage by cable operators and satellite carriers of signals that are significantly viewed (within the meaning of section 340 of the Communications Act of 1934 (47 U.S.C. 340)). We interpret Section 109(a)(1)(A) to require the Commission to identify in each DMA the out-of-market broadcast stations available over-the-air or carried by DBS, cable, and telephone MVPDs, and the number of consumers that have access to each out-of-market broadcast station through any of these distribution means. In 2011, pursuant to STELA, the Commission reported to Congress regarding the extent that consumers in a State receive broadcast signals from stations licensed to another State as well as the extent to which consumers have access to in-State broadcast programming, among other things. While the focus of the *Report to Congress pursuant to Section 304 of the Satellite Extension and Localism Act of 2010 (2011 STELA Report)* differed somewhat from the requirements of Section 109, it provided information about consumer access to out-of-State and out-of-DMA broadcast stations. We believe, however, that information at the DMA level, as contained in the *2011 STELA Report*, may not be fully responsive to Congress' directive in STELAR. We note that Section 109(a)(2) seeks recommendations to foster localism in counties served by out-of-State DMAs. Thus, we believe we should report data on out-of-market broadcast stations on a county basis within each DMA. We request comment on this belief and input on additional data and analysis that would be fully responsive.

5. Section 109(a)(1)(A) requires us to consider access to broadcast programming, including through DBS and cable carriage. We seek comment on the appropriate methodologies and submission of essential data for the analysis. Do data exist that would allow us to determine consumer access to out-of-market broadcast programming from one source regardless of distribution technology? In the absence of one data

source, we tentatively conclude that we should consider the availability of broadcast stations over-the-air by calculating the number of housing units in each DMA reached by the predicted broadcast signal contour of each out-of-market broadcast station, as we did in the *2011 STELA Report*. We seek comment on this tentative conclusion.

6. We believe we have access to comprehensive data for analysis of DBS carriage and over-the-air reception of out-of-market broadcast stations. We note that Section 108 of STELAR requires DBS carriers to provide data regarding satellite carriage of broadcast stations and that these data should be useful for this report. We seek comment on whether the Section 108 reports DBS operators submit are sufficient for this purpose. Will these reports include the carriage of significantly viewed signals that we must take into consideration?

7. With respect to cable and telephone MVPD carriage of out-of-market broadcast stations, we seek comment on what data are available that would be adequate for such analysis and what methodology we could use to analyze the available data. In 2011, pursuant to STELA, the Bureau was unable to provide separate data for cable and telephone MVPDs, and therefore instead the Bureau used Nielsen data to identify for each DMA the out-of-market broadcast television stations that earned a cumulative rating of at least 2.5 percent from all sources. Are comprehensive data available that would enable us to determine for each county in each DMA the out-of-market broadcast stations carried by each cable and telephone MVPD? In the absence of such data, we seek comment on the use of Nielsen data and the methodology used for the *2011 STELA Report*. What other options are available to the Commission to analyze this question?

8. In this regard, we note that the Commission collects cable system data in its Annual Report of Cable Television Systems (FCC Form 325) and in its Annual Report on Cable Prices, but these data are not comprehensive. Only a limited number of cable systems must file FCC Form 325. All cable systems with more than 20,000 subscribers are subject to the reporting requirement as are a sample of cable systems with fewer than 20,000 subscribers. Other than on a sample basis, cable systems with fewer than 20,000 subscribers, however, are not required to report information to the Commission. Also, many rural counties of interest to the STELAR Section 109 Report may be served by cable systems not subject to the requirement.

9. Cable systems subject to the FCC Form 325 reporting requirement provide

the Commission with a list of the broadcast stations carried by each reporting system. The geographic configuration of a cable system is determined by its physical system, which consists of a cable system technically integrated to a principal headend. Cable system data are provided for the entire system. The data do not correspond to census blocks, counties, DMAs, or other common geographic units and, therefore, cannot be aggregated or disaggregated to provide estimates for those geographic units or households. Thus, the data cable companies provide to the Commission do not permit analysis on a comparable geographic basis to data available for over-the-air broadcast stations, DBS carriage of broadcast stations, or the Bureau of the Census household data.

10. The Commission publishes annually a cable price report, which collects a listing of broadcast stations carried by a random sample of cable operators. According to the Bureau's most recent report, over 33,000 communities are served by cable operators. The report, however, included information on only 800 communities. As such, it does not provide comprehensive data and many rural counties of interest to the STELAR Section 109 Report may be served by cable operators not included in the Commission's cable price report. We seek comment on the availability of other more comprehensive data sources that might be available to the Commission to perform the required analysis.

11. In the absence of comprehensive data, we propose including case studies for specific counties where commenters have indicated a lack of local programming. In 2011, pursuant to STELA, the Bureau undertook a number of case studies for specific counties in which commenters indicated a lack of in-State broadcast programming. For each case, the Bureau examined the extent to which consumers had access to in-State programming over the air, from cable operators and from DBS operators on a county basis within each relevant DMA. The Bureau described the availability of in-State broadcast stations and the carriage of in-State stations by DBS operators and cable systems. For cable system information, the Bureau identified the cable systems in the counties and communities under study using the Commission's Cable Operations and Licensing System. To determine the carriage of in-State broadcast stations, the Bureau used cable operators' 2010 FCC Form 325 submissions, to the extent they were

available, and publicly available information, including the Warren Television & Cable Factbook data and the Web sites of individual cable systems.

12. For each case study for the STELAR Section 109 Report, we propose to examine, using the best available information, the extent to which consumers have access to out-of-market broadcast programming from DBS, cable, and telephone MVPDs, and over the air. We seek comment on the use of case studies for our report. Is there a better approach to case studies? We seek data, information, and comment for the analysis of cable and telephone MVPD carriage of out-of-market broadcast stations.

13. Out-of-market broadcast stations may provide multiple programming streams. Should the STELAR Section 109 Report include all out-of-market broadcast programming? We seek comment on the appropriate methodologies and the availability of data for including multiple programming streams. Are there other mechanisms for carriage that we should include (e.g., online access to broadcast programming)? Commenters are asked to consider these issues and to provide any additional suggestions and data for the quantitative analysis required for this Report.

Alternatives and Recommendations—Sections 109(a)(1)(B), (a)(2), and (b)

14. Sections 109(a)(1)(B), (a)(2), and (b) require the Commission to analyze alternatives to the use of DMAs to define markets and to make recommendations on how to foster increased localism in counties served by out-of-State DMAs taking into account a number of factors. Specifically, Section 109(a)(1)(B) requires the Commission to analyze whether there are technologically and economically feasible alternatives to the use of designated market areas to define markets that would provide consumers with more programming options and the potential impact such alternatives could have on localism and on broadcast television locally, regionally, and nationally. Section 109(a)(2) requires the Commission to make recommendations on how to foster increased localism in counties served by out-of-State designated market areas. Section 109(b) directs the Commission to consider three enumerated factors related to the impact of DMAs on access to local programming when making its recommendations.

15. We ask commenters to provide suggested alternatives to the use of DMAs to define market areas, pursuant

to Section 109(a)(1)(B). For each alternative, we request that commenters explain how the alternative would provide consumers with more programming options and what the impact would be on localism and on broadcast television locally, regionally and nationally. What specific programming options should we consider in our analysis? For instance, should we consider news, sports, weather, coverage of State-level politics and government, or other content relevant to a consumers' daily life, including advertising from local businesses, and if so how should we identify and consider such content? Commenters also should address the technological and economic feasibility of each alternative proposed and provide data and information on these issues. To analyze the various alternatives, we request suggestions on how to evaluate and compare the proposed alternatives for the STELAR Section 109 Report.

16. Section 109(a)(2) requires the Commission to make recommendations on how to foster increased localism in counties served by out-of-State DMAs. In making recommendations, Section 109(b) instructs the Commission to consider: (1) the impact that DMAs that cross State lines have on access to local programming; (2) the impact that DMAs have on local programming in rural areas; and (3) the state of local programming in States served exclusively by out-of-State DMAs. We seek recommendations that could increase television programming from and about the DMA, and television programming from and about the State, in which a consumer resides. We specifically ask commenters to address the three considerations identified in Section 109(b). In particular, how do DMAs affect access to local programming for each of the three areas of concern? To what extent do consumers in DMAs that cross State lines have access to television programming from and about their State? How will the proposed recommendations foster increased local programming for consumers residing in such locations?

17. To assist us in analyzing proposed recommendations that we will consider including in the STELAR Section 109 Report, we also seek comment on the effects of each recommendation on consumers, local broadcast stations, the number of stations that MVPDs would be required to carry, the advertising market, broadcast network affiliation agreements and areas of exclusivity. What would be the benefits and costs of each recommendation? How would the

proposed recommendation provide consumers with increased local programming without curtailing the broadcast programming consumers currently view? Are there other criteria we should consider when evaluating recommendations to foster increased localism? We seek comment on these issues and any other comments that address the requirements of Section 109 of STELAR.

Procedural Matters

18. *Comment Information.* Pursuant to sections 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS). See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998).

- Electronic Filers: Comments may be filed electronically using the Internet by accessing the ECFS: <http://fjallfoss.fcc.gov/ecfs2/>.

- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number.

Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

- All hand-delivered or messenger-delivered paper filings for the Commission's Secretary must be delivered to FCC Headquarters at 445 12th St. SW., Room TW-A325, Washington, DC 20554. The filing hours are 8:00 a.m. to 7:00 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.

- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743.

- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 445 12th Street SW., Washington DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format),

send an email to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (tty).

19. For further information about this Public Notice, please contact Marcia Glauber at (202) 418-7046, marcia.glauber@fcc.gov or Dan Bring at (202) 418-2164, danny.bring@fcc.gov. Press inquiries should be directed to Janice Wise at (202) 418-8165, janice.wise@fcc.gov.

Federal Communications Commission.

Thomas Horan,

Chief of Staff, Media Bureau.

BILLING CODE CODE 6712-01-P

FEDERAL MARITIME COMMISSION

Notice of Agreement Filed

The Commission hereby gives notice of the filing of the following agreement under the Shipping Act of 1984.

Interested parties may submit comments on the agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within twelve days of the date this notice appears in the **Federal Register**. A copy of the agreement is available through the Commission's Web site (www.fmc.gov) or by contacting the Office of Agreements at (202) 523-5793 or tradeanalysis@fmc.gov.

Agreement No.: 012324.

Title: NMCC/Grimaldi Space Charter Agreement.

Parties: Grimaldi Deep Sea S.p.A.; Grimaldi Euromed S.p.A.; Nissan Motor Car Carrier Co., Ltd.; World Logistics Service (U.S.A.), Inc.

Filing Party: Eric. C. Jeffrey, Esq.; Nixon Peabody LLP; 401 9th Street NW., Suite 900, Washington, DC 20004.

Synopsis: The Agreement authorizes the parties to charter space to/from one another for the transportation of vehicles and other Ro/Ro cargo in the trade between the United States, on the one hand, and Europe, Africa, the Mediterranean, and the Middle East on the other hand.

By Order of the Federal Maritime Commission.

Dated: March 27, 2015.

Karen V. Gregory,
Secretary.

[FR Doc. 2015-07487 Filed 4-1-15; 8:45 am]

BILLING CODE CODE 6730-01-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than April 27, 2015.

A. Federal Reserve Bank of St. Louis (Yvonne Sparks, Community Development Officer) P.O. Box 442, St. Louis, Missouri 63166-2034:

1. *First State Bancorp, Inc., Combined Retirement Benefit Plan (formerly known as First State Bancorp, Inc. Employee Stock Ownership Plan)*, Caruthersville, Missouri; to acquire additional voting shares, for a total of 40 percent, of the voting shares of First State Bancorp, Inc., and thereby indirectly acquire voting shares of First State Bank and Trust Company, Inc., both in Caruthersville, Missouri.

Board of Governors of the Federal Reserve System, March 30, 2015.

Michael J. Lewandowski,

Associate Secretary of the Board.
