

and state export assistance programs; invoicing (billing) foreign buyers; collecting (letters of credit and other financial instruments) payment for Products; and arranging for payment of applicable commissions and fees.

Export Markets

The Export Markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands).

Export Trade Activities and Methods of Operations

To engage in Export Trade in the Export Markets, WJIR may provide and/or arrange for the provision of Export Trade Facilitation Services.

Definition

“Supplier” means a person who produces, provides, or sells Products, Services, and/or Technology Rights.

Dated: March 31, 2015.

Joseph Flynn,

Director, Office of Trade and Economic Analysis, International Trade Administration.

[FR Doc. 2015-07717 Filed 4-2-15; 8:45 am]

BILLING CODE 3510-DR-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Commercial Operator's Annual Report (COAR).

OMB Control Number: 0648-0428.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 179.

Average Hours per Response: 8 hours.

Burden Hours: 1,432.

Needs and Uses: This request is for extension of a currently approved information collection.

The Alaska Commercial Operator's Annual Report (COAR) is a report that

collects harvest and production information broken out by specific criteria such as gear type, area, delivery and product type, and pounds and value. The COAR is due by April 1 of the year following any buying or processing activity.

Any person or company who received a Fisheries Business License from the Alaska Department of Revenue and an Intent to Operate Permit by Alaska Department of Fish and Game (ADF&G) is required to annually submit the COAR to the State of Alaska, Alaska Department of Fish and Game (ADF&G), under Alaska Administrative Code (AAC), chapter 5 AAC 39.130. In addition, any person or company who receives an Exclusive Economic Zone (EEZ)-only permit from ADF&G annually must submit a COAR to ADF&G. Any owner of a catcher/processor or mothership with a Federal permit operating in the EEZ off Alaska is required to annually submit a COAR to ADF&G under 50 CFR part 679.5(p).

The COAR provides information on ex-vessel and first wholesale values for statewide fish and shellfish products. Containing information from shoreside processors, stationary floating processors, motherships, and catcher/processors, this data collection yields equivalent annual product value information for all respective processing sectors and provides a consistent time series according to which groundfish resources may be managed more efficiently.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: March 30, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No.: 150318278-5278-01]

National Cybersecurity Center of Excellence Access Rights Management Use Case for the Financial Services Sector

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) invites organizations to provide products and technical expertise to support and demonstrate security platforms for access rights management for the financial services sector. This notice is the initial step for the National Cybersecurity Center of Excellence (NCCoE) in collaborating with technology companies to address cybersecurity challenges identified under the financial services sector program. Participation in the use case is open to all interested organizations.

DATES: Interested parties must contact NIST to request a letter of interest template. Letters of interest will be accepted on a first come, first served basis. Collaborative activities will commence as soon as enough completed and signed letters of interest have been returned to address all the necessary components and capabilities, but no earlier than May 4, 2015. When the use case has been completed, NIST will post a notice on the NCCoE financial services sector program Web site at <http://nccoe.nist.gov/financial-services> announcing the completion of the use case and informing the public that it will no longer accept letters of interest for this use case.

ADDRESSES: The NCCoE is located at 9600 Gudelsky Drive, Rockville, MD 20850. Letters of interest must be submitted to financial_NCCoE@nist.gov or via hardcopy to National Institute of Standards and Technology, NCCoE; 9600 Gudelsky Drive; Rockville, MD 20850. Organizations whose letters of interest are accepted in accordance with the Process set forth in the **SUPPLEMENTARY INFORMATION** section of this notice will be asked to sign a Cooperative Research and Development Agreement (CRADA) with NIST. A CRADA template can be found at: <http://nccoe.nist.gov/node/138>.

FOR FURTHER INFORMATION CONTACT: Michael Stone via email at financial_NCCoE@nist.gov; or telephone 240-314-

6813; National Institute of Standards and Technology, NCCoE; 9600 Gudelsky Drive; Rockville, MD 20850. Additional details about the Financial Services Sector program are available at <http://nccoe.nist.gov/financial-services>.

SUPPLEMENTARY INFORMATION:

Background: The NCCoE, part of NIST, is a public-private collaboration for accelerating the widespread adoption of integrated cybersecurity tools and technologies. The NCCoE brings together experts from industry, government, and academia under one roof to develop practical, interoperable cybersecurity approaches that address the real-world needs of complex Information Technology (IT) systems. By accelerating dissemination and use of these integrated tools and technologies for protecting IT assets, the NCCoE will enhance trust in U.S. IT communications, data, and storage systems; reduce risk for companies and individuals using IT systems; and encourage development of innovative, job-creating cybersecurity products and services.

Process: NIST is soliciting responses from all sources of relevant security capabilities (see below) to enter into a Cooperative Research and Development Agreement (CRADA) to provide products and technical expertise to support and demonstrate security platforms for the Access Rights Management use case for the Financial Services Sector. The full use case can be viewed at: http://nccoe.nist.gov/sites/default/files/NCCoE_FS_Use_Case_IDAM_FinalDraft_20140501.pdf.

Interested parties should contact NIST using the information provided in the **FOR FURTHER INFORMATION CONTACT** section of this notice. NIST will then provide each interested party with a letter of interest template, which the party must complete, certify that it is accurate, and submit to NIST. NIST will contact interested parties if there are questions regarding the responsiveness of the letters of interest to the use case objective or requirements identified below. NIST will select participants who have submitted complete letters of interest on a first come, first served basis within each category of product components or capabilities listed below up to the number of participants in each category necessary to carry out this use case. However, there may be continuing opportunity to participate even after initial activity commences. Selected participants will be required to enter into a consortium CRADA with NIST. NIST published a notice in the **Federal Register** on October 19, 2012 (77 FR 64314) inviting U.S. companies to enter

into National Cybersecurity Excellence Partnerships (NCEPs) in furtherance of the NCCoE. For this demonstration project, NCEP partners will not be given priority for participation.

Use Case Objective: The goal of this project is to demonstrate ways to link together the management of existing disparate identity and access mechanisms and systems into a comprehensive identity and access management (IDAM) system. This will enable financial sector entities to centrally issue, validate, and modify or revoke access rights for their entire enterprise based on easy-to-understand business rules. This IDAM system will abstract, unify, and simplify the complex task of dealing with multiple types of access systems, such as Windows Active Directory, Unix/Linux, Resource Access Control Facility (RACF), automatic class selection (ACS2) and myriad legacy and internally developed application-specific mechanisms. This IDAM system will also produce consolidated reports and statistics so that administrators and managers can make accurate risk management decisions. This IDAM system will, at a minimum, automate the monitoring and analysis of identity related activities in a manner that enables administrators and managers to make timely and informed risk management decisions.

Requirements: Each responding organization's letter of interest should identify which security platform components or capabilities it is offering. Components are listed in section six (for reference, please see link in PROCESS section above) of the Access Rights Management for the Financial Services Sector use case and include, but are not limited to:

- Mainframe (may be simulated or remotely accessed) such as RACF
- Representative "homemade" financial sector application(s) with internal user access database and logging system

Each responding organization's letter of interest should identify how their products address one or more of the following desired solution characteristics in section two (for reference, please see link in PROCESS section above) of the Access Rights Management for the Financial Services Sector use case:

1. Is a single system that is capable of interacting with multiple existing accesses
2. Has management systems to provide a complete picture of access rights within the organization

3. Complements, and does not replace, existing security infrastructure
4. Utilizes secure communications among all components
5. Automates logging, reporting and alerting of identity and access management events across the enterprise
6. Can be queried for information (ad-hoc reporting) in order to answer management, performance and security questions (*i.e.* show all activity for a given user in a certain time period)
7. Does not introduce new attack vectors into existing systems
8. Supports multiple access levels for the IDAM system (*e.g.* administrator, operator, viewer)
9. Provides fine-grain privilege controls (*e.g.* groups, users, directory, file, and record)
10. Provides the ability to attach expiration dates/time limits on access controls
11. Provides the ability to map user's access requests via "service" account access

Responding organizations need to understand and, in their letters of interest, commit to provide:

1. Access for all participants' project teams to component interfaces and the organization's experts necessary to make functional connections among security platform components
2. Support for development and demonstration of the Access Rights Management use case for the Financial Services Sector in NCCoE facilities which will be conducted in a manner consistent with Federal requirements (*e.g.*, FIPS 200, FIPS 201, SP 800-53, and SP 800-63)

Additional details about the Access Rights Management for the Financial Services sector use case are available at: http://nccoe.nist.gov/sites/default/files/NCCoE_FS_Use_Case_IDAM_FinalDraft_20140501.pdf.

NIST cannot guarantee that all of the products proposed by respondents will be used in the demonstration. Each prospective participant will be expected to work collaboratively with NIST staff and other project participants under the terms of the consortium agreement in the development of the Access Rights Management for the Financial Services sector capability. Prospective participants' contribution to the collaborative effort will include assistance in establishing the necessary interface functionality, connection and set-up capabilities and procedures, demonstration harnesses, environmental and safety conditions for use, integrated

platform user instructions, and demonstration plans and scripts necessary to demonstrate the desired capabilities. Each prospective participant will train NIST personnel as necessary, to operate its product in capability demonstrations to the financial services community. Following successful demonstrations, NIST will publish a description of the security platform and its performance characteristics sufficient to permit other organizations to develop and deploy security platforms that meet the security objectives of the Access Rights Management for the Financial Services sector use case. These descriptions will be public information. Under the terms of the consortium agreement, NIST will support development of interfaces among participants' products by providing IT infrastructure, laboratory facilities, office facilities, collaboration facilities, and staff support to component composition, security platform documentation, and demonstration activities.

The dates of the demonstration of the Access Rights Management for the Financial Services sector capability will be announced on the NCCoE Web site at least two weeks in advance at <http://nccoe.nist.gov/>. The expected outcome of the demonstration is to improve access rights management across an entire financial services sector enterprise. Participating organizations will gain from the knowledge that their products are interoperable with other participants' offerings.

For additional information on the NCCoE governance, business processes, and NCCoE operational structure, visit the NCCoE Web site <http://nccoe.nist.gov/>.

Richard Cavanagh,

Acting Associate Director for Laboratory Programs.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

Economics and Statistics Administration

Commerce Data Advisory Council Meeting

AGENCY: Economic and Statistics Administration, Department of Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Economic and Statistics Administration (ESA) is giving notice of a meeting of Commerce Data Advisory Council (CDAC). The CDAC will

address areas such as data management practices; common, open data standards; policy issues related to privacy, latency, and consistency; effective models for public-private partnership; external uses of Commerce data; and, methods to build new feedback loops between the Department and data users. The CDAC will meet in a plenary session on April 23-24, 2015. Last-minute changes to the schedule are possible, which could prevent giving advance public notice of schedule adjustments.

DATES: April 23-24, 2015. On April 23, the meeting will begin at approximately 12:00 p.m. and end at approximately 5:00 p.m. On April 24, the meeting will begin at approximately 9:00 a.m. and end at approximately 1:00 p.m.

ADDRESSES: The meeting will be held at Google Washington, DC, 25 Massachusetts Avenue NW., Suite 900, Washington, DC 20001.

FOR FURTHER INFORMATION CONTACT: Burton Reist, BReist@doc.gov Director of External Communication and DFO, CDAC, Department of Commerce, Economics and Statistics Administration, 1401 Constitution Ave. NW., Washington, DC 20230, telephone (202) 482-3331.

SUPPLEMENTARY INFORMATION: The CDAC comprises as many as 20 members. The Committee provides an organized and continuing channel of communication between recognized experts in the data industry (collection, compilation, analysis, dissemination and privacy protection) and the Department of Commerce. The CDAC provides advice and recommendations, to include process and infrastructure improvements, to the Secretary, DOC and the DOC data-bureau leadership on ways to make Commerce data easier to find, access, use, combine and disseminate. The aim of this advice shall be to maximize the value of Commerce data to all users including governments, businesses, communities, academia, and individuals.

The Committee meeting is in accordance with the Federal Advisory Committee Act (Title 5, United States Code, Appendix 2, Section 10(a)(b)).

All meetings are open to the public. A brief period will be set aside at the meeting for public comment on April 24, 2015. However, individuals with extensive questions or statements must submit them in writing to: DataAdvisoryCouncil@doc.gov (subject line "APRIL 2015 CDAC Meeting Public Comment"), or by letter submission to the Director of External Communication and DFO, CDAC, Department of Commerce, Economics and Statistics

Administration, 1401 Constitution Ave. NW., Washington, DC 20230. Such submissions will be included in the record for the meeting if received by Friday, April 17, 2015.

The meeting is physically accessible to persons with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Director of External Communication as soon as possible, preferably two weeks prior to the meeting. If you plan to attend the meeting, please register by Monday, April 20, 2015. You may access the online registration from the following link: https://www.regonline.com/cdac_april_2015_meeting.

Seating is available to the public on a first-come, first-served basis.

Dated: March 30, 2015.

Austin Durrer,

Chief of Staff for Under Secretary for Economic Affairs, Economics and Statistics Administration.
