

(1) How well they communicate an understanding of, and ability to meet, the proposed CRADA's goal; and
(2) How well they address the following criteria:

(a) Technical capability to support the non-Federal party contributions described; and

(b) Resources available for supporting the non-Federal party contributions described.

Currently, the Coast Guard is considering COP for participation in this CRADA. This consideration is based on the fact that COP has demonstrated its ability to operate UAS in an Arctic maritime environment, and its UAS's widespread use throughout the Department of Defense. However, we do not wish to exclude other viable participants from this or future similar CRADAs.

This is a technology demonstration effort. Since the goal of this CRADA is to identify and investigate the potential of the UAS to contribute to Coast Guard mission effectiveness in an Arctic maritime environment, non-Federal CRADA participants will not be excluded from any future Coast Guard procurements based solely on their participation in this CRADA. Special consideration will be given to small business firms/consortia, and preference will be given to business units located in the U.S.

This notice is issued under the authority of 5 U.S.C. 552(a).

Dated: March 20, 2015.

Captain Dennis C. Evans, USCG,
Commanding Officer, U.S. Coast Guard
Research and Development Center.
