

drift fences, stock and camp etiquette, implementation of temporary variances, and other closures. The SUMMP also establishes a monitoring program to inform and modify management as necessary to reduce resource impacts.

Alternative 2 (NPS preferred alternative) would protect wilderness character by implementing site-specific actions, incorporating much of the current management strategies and tools used by the parks to protect wilderness. Wilderness would be managed by evaluating conditions in specific areas and mitigating impacts through targeted actions. The goal is to encourage wilderness use and minimize restrictions while preserving wilderness character. *Alternative 2* acknowledges that there are some challenges in the most popular areas and in areas with sensitive resources that can be mitigated through targeted improvements in management. Most wilderness trails in the parks would remain open to stock under this alternative. Stock would continue to be allowed to travel up to one-half mile off maintained trails to reach campsites. Off-trail stock travel would continue to be allowed in four areas of the parks: On the Monarch Divide, in the Roaring River area, on the Hockett Plateau, and along the western side of the Kern River watershed south from the Chagoopa Plateau. Grazing would generally be allowed in areas open to camping with stock (within 0.5 mile of maintained trails open to camping with stock or in off-trail travel areas), with some exceptions. Under *alternative 2*, the levels and types of commercial services to be performed would be similar to current conditions. However, the levels and types of commercial services allowed would be limited in the Mount Whitney Management Area, an approximately 37,200 acre area around Mount Whitney within Sequoia National Park.

Alternative 3 would provide more opportunities for primitive recreation by allowing additional use, which would be expected to occur mostly in popular areas. To preserve the natural quality of wilderness, the popular use areas in wilderness would require additional development and restrictions on visitor behavior. Most wilderness trails in the parks would remain open to stock under this alternative. Stock would continue to be allowed to travel up to one-half mile off maintained trails to reach campsites. Off-trail stock travel would continue to be allowed in four areas of the parks: On the Monarch Divide, in the Roaring River area, on the Hockett Plateau, and along the western side of the Kern River watershed south from the Chagoopa Plateau. Grazing would

generally be allowed within 0.5 mile of maintained trails open to camping with stock, with some exceptions. As part of allowing increased use, the levels of commercial services would increase to accommodate less experienced visitors, to help educate visitors, and to control the impacts of inexperienced or inadequately equipped visitors.

Alternative 4 emphasizes the undeveloped quality and non-commercial recreation. This alternative would eliminate some of the development currently in wilderness to emphasize the undeveloped quality of wilderness. There would be fewer signs, bridges, stock-related facilities, and ranger stations. Restrooms/privies and food-storage boxes would be removed and there would be no designated campsites. Because fewer resource-protecting developments would remain in place, the amount of use would need to be reduced to protect the natural quality of wilderness. Private parties traveling with stock would continue to have access to most trails in the parks, and stock would continue to be allowed to travel off-trail in four designated areas. However, commercial stock use would be limited to certain destinations and trails. No private, commercial, or administrative stock grazing would be allowed under this alternative. Commercial services would be reduced to levels significantly lower than those in the no-action alternative and commercial services would be limited in high-use areas

Alternative 5 (environmentally preferable alternative) emphasizes opportunities for solitude by reducing the total number of wilderness visitors allowed in wilderness. Presence of fewer visitors in wilderness would in turn allow for reduced levels of development, along with reduced restrictions on visitor behavior (fewer people need fewer facilities). Reducing the numbers of visitors would also result in reduced impacts on resources. Stock travel more than 0.5 mile from trails open to camping with stock would be prohibited. Stock use and grazing would generally be allowed in most areas where overnight use is permitted with some exceptions. Commercial services would be at levels lower than those in the no-action alternative in most locations, but the percentage of total visitor use supported by commercial services would be similar to the no-action alternative to ensure that reduced access would not disproportionately affect any particular user group.

Dated: February 6, 2015.

Patricia L. Neubacher,

Acting Regional Director, Pacific West Region.

National Register of Historic Places; Notification of Pending Nominations and Related Actions

Nominations for the following properties being considered for listing or related actions in the National Register were received by the National Park Service before March 14, 2015. Pursuant to section 60.13 of 36 CFR part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation. Comments may be forwarded by United States Postal Service, to the National Register of Historic Places, National Park Service, 1849 C St. NW., MS 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St. NW., 8th Floor, Washington, DC 20005; or by fax, 202–371–6447. Written or faxed comments should be submitted by April 23, 2015. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: March 18, 2015.

BILLING CODE 4312–51–P

INTERNATIONAL TRADE COMMISSION**Public Availability of FY 2013 Service Contract Inventory Analysis, FY 2014 Service Contract Inventory, and FY 2014 Service Contract Inventory Planned Analysis**

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: In accordance with Section 743 of Division C of the Consolidated Appropriations Act of 2010 (Pub. L. 111–117), the U.S. International Trade Commission is publishing this notice to advise the public of the availability of the FY 2013 Service Contract Inventory Analysis, the FY 2014 Service Contract Inventory, and the FY 2014 Service Contract Inventory Planned Analysis. The FY 2013 inventory analysis provides information on specific service contract actions that were analyzed as part of the FY 2013 inventory. The 2014 inventory provides information on service contract actions over \$25,000

which were made in FY 2014. The inventory information is organized by function to show how contracted resources are distributed throughout the agency. The inventory has been developed in accordance with guidance issued on November 5, 2010 by the Office of Management and Budget's Office of Federal Procurement Policy (OFPP). OFPP's guidance is available at <http://www.whitehouse.gov/sites/default/files/omb/procurement/memo/service-contract-inventories-guidance-11052010.pdf>. The FY 2014 inventory planned analysis provides information on which functional areas will be reviewed by the agency. The United States International Trade Commission has posted its FY 2014 inventory, FY 2014 planned analysis, and FY 2013 inventory analysis at the following link: <http://www.usitc.gov/procurement/>.

FOR FURTHER INFORMATION CONTACT:

Questions regarding the service contract inventory should be directed to Debra Bridge, U.S. International Trade Commission, Office of Procurement, 500 E Street SW., Washington, DC 20436, or at 202–205–2004 or debra.bridge@usitc.gov.

By order of the Commission.

Dated: April 3, 2015.

Lisa R. Barton,

Secretary to the Commission.
