General description of report: This information collection is voluntary and is authorized pursuant to sections 11(a), 11(i), 25, and 25A of the Federal Reserve Act (12 U.S.C. 248(a), 248(i), 602, and 611), section 5 of the Bank Holding Company Act (12 U.S.C. 1844), and section 7(c) of the International Banking Act (12 U.S.C. 3105(c)). To the extent the Federal Reserve collects information during an examination of a banking organization, confidential treatment may be afforded to the records under exemptions 4 and 8 of the Freedom of Information Act (FOIA) (5 U.S.C. 552(b)(4) and (8)).

Abstract: The interagency guidance outlines high-level principles for stress testing practices, applicable to all Federal Reserve-supervised, FDIC-supervised, and OCC-supervised banking organizations¹ with more than \$10 billion in total consolidated assets. In developing a stress testing framework and in carrying out stress tests, banking organizations² should understand and clearly document all assumptions, uncertainties, and limitations, and provide that information to users of the stress testing results. To ensure proper governance over the stress testing framework, banking organizations should develop and maintain written policies and procedures.

¹ The agencies that were party to the rulemaking were the Office of the Comptroller of the Currency (OCC); Board of Governors of the Federal Reserve System (Board); and Federal Deposit Insurance Corporation (FDIC).

² For purposes of this guidance, the term “banking organization” means national banks and Federal branches and agencies supervised by the OCC; state member banks, bank holding companies, and all other institutions for which the Federal Reserve is the primary federal supervisor; and state nonmember insured banks and other institutions supervised by the FDIC.

Board of Governors of the Federal Reserve System, April 8, 2015.

Robert deV. Frierson,
Secretary of the Board.
