Information Collection Request Title: Title X Sustainability Assessment Tool For Grantees and Service Sites

Abstract: The Office of Population Affairs within the Office of the Assistant Secretary for Health seeks to collect data from the Title X centers on efforts related to (1) assisting individuals in obtaining health insurance; (2) partnerships with primary care providers; (3) availability and use of electronic health records; (4) monitoring patient care quality; (5) factors affecting revenue sources; and (6) the way that sites conduct analyses to consider the cost of providing services.

Need and Proposed Use of the Information

The Title X Family Planning Program (“Title X program” or “program”) is the

only Federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services (e.g., screening for breast and cervical cancer, sexually transmitted diseases (STDs), and human immunodeficiency virus [HIV]). By law, priority is given to persons from low-income families (Section 1006(c) of Title X of the Public Health Service Act, 42 U.S.C. 300). The Office of Population Affairs (OPA) within the Office of the Assistant Secretary for Health administers the Title X program.

The American health care system is experiencing unprecedented levels of change as a result of the Patient Protection and Affordable Care Act (ACA). The exact impact of these health system changes to Title X centers needs to be assessed in order to ensure the long term sustainability of the Title X network.

This data collection is necessary to explain trends in client volume, insurance status of clients and revenue sources for Title X centers (data already collected through the Family Planning Annual Report—FPAR). This data will be collected directly from individual centers in order to provide contextual information and explain national trends in FPAR data.
