SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the

safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace at the Missouri airports listed in this NPRM.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2015-0842/Airspace Docket No. 15-ACE-2." The postcard will be date/time stamped and returned to the commenter.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Central Service Center, 2601 Meacham Blvd., Fort Worth, TX 76137.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by modifying Class E airspace extending upward from 700 feet above the surface for standard instrument approach procedures (SIAP) at Chillicothe Municipal Airport, Chillicothe, MO; Cuba Municipal Airport, Cuba, MO; Farmington Regional Airport, Farmington, MO; Lamar Municipal Airport, Lamar, MO; Mountain View Airport, Mountain View, MO; Nevada Municipal Airport, Nevada, MO; and Poplar Bluff Municipal Airport, Poplar Bluff, MO. Also, Class E airspace extending upward from the surface would be amended at Farmington Regional Airport, Farmington, MO. Airspace reconfiguration is necessary due to the decommissioning of NDBs and/or cancellation of the NDB approach at each airport. Controlled airspace is necessary for the safety and management of IFR operations for SIAPs at the airports. Geographic coordinates also would be adjusted for Lamar Municipal Airport, Lamar, MO; Nevada Municipal Airport, Nevada, MO; and Poplar Bluff Municipal Airport, Poplar Bluff, MO, to coincide with the FAA's aeronautical database.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February

26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

SUMMARY: The Consumer Product Safety Commission ("Commission" or "CPSC") is proposing to determine that unfinished and untreated trunk wood does not contain heavy elements that would exceed the limits specified in the Commission's toy standard, ASTM F963-11. Based on this proposed determination, unfinished and untreated trunk wood in toys would not require third party testing. In the "Rules and Regulations" section of this **Federal Register**, the Commission is issuing this determination as a direct final rule. If we receive no significant adverse comment in response to the direct final rule, we will not take further action on this proposed rule.

DATES: Submit comments by August 17, 2015.

SUPPLEMENTARY INFORMATION: Along with this proposed rule, CPSC is publishing a direct final rule in the "Rules and Regulations" section of this issue of the **Federal Register**. This direct final rule establishes a determination that unfinished and untreated trunk wood does not contain heavy elements that would exceed the heavy elements limits specified in the Commission's mandatory toy standard, ASTM F963-11. Based on this determination, unfinished and untreated trunk wood in toys does not require third party testing. CPSC did not issue a proposed rule before today because CPSC believes that this action is not controversial and CPSC does not expect significant adverse comment.
