

scientific community, including the Science Advisory Board, prior to publishing a list of currently unregulated contaminants that are known or anticipated to occur in public water systems and may require regulation under the SDWA (referred to as the Contaminant Candidate List, or CCL). This list is subsequently used to identify priority contaminants for further research needs and to make determinations on whether or not to regulate at least five contaminants from the CCL with national primary drinking water regulations. The draft CCL4 includes 100 chemicals or chemical groups and 12 microbial contaminants. Information about this advisory activity can be found on the Web at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/CCL%204?OpenDocument.

Availability of Meeting Materials: The agenda and materials in support of this teleconference will be available on the EPA Web site at <http://www.epa.gov/sab> in advance of the teleconference.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a federal advisory committee to consider as it develops advice for EPA. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the Designated Federal Officer as noted above. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a teleconference will be limited to three minutes. Each person making an oral statement should consider providing written comments as well so that the points presented orally can be expanded upon in writing. Interested parties should contact Mr. Carpenter, DFO, in writing (preferably via email) at the contact information noted above one week before the teleconference to be placed on the list of public speakers. **Written Statements:** Written statements should be supplied to the DFO, preferably via email, at the contact

information noted above one week before each of the teleconferences so that the information may be made available to the Board members for their consideration. It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Mr. Thomas Carpenter at (202) 564-4885 or carpenter.thomas@epa.gov. To request accommodation of a disability, please contact Mr. Carpenter preferably at least ten days prior to the teleconference to give EPA as much time as possible to process your request.

Dated: August 24, 2015.

Director, EPA Science Advisory Board Staff Office.
