

history records check (CHRC) for those individuals with access to a Security Identification Display Area (SIDA); (4) submission to TSA of identifying information about individuals to whom the airport operator has issued identification media, such as name, address, and country of birth, in order for TSA to conduct a Security Threat Assessment (STA); and (5) recordkeeping requirements associated with records required for compliance with the regulation, and for compliance with Security Directives (SDs).

This information collection is mandatory for airport operators. As part of their security programs, affected airport operators are required to maintain and update, as necessary, records of compliance with the security program provisions set forth in 49 CFR part 1542. This regulation also requires affected airport operators to make their security programs and associated records available for inspection and copying by TSA to verify compliance with transportation security regulations.

As required by 49 CFR part 1542, airport operators must ensure that individuals seeking unescorted access authority submit information for and receive a CHRC, as well as submit information so that TSA can conduct an STA. As part of this process, the individual must provide identifying information, including fingerprints. Additionally, airport operators must maintain these records and make them available to TSA for inspection and copying upon request.

TSA will continue to collect information to determine airport operator compliance with other requirements of 49 CFR part 1542. TSA estimates that there will be approximately 438 airport operator respondents to the information collection requirements described above, with a total annual burden estimate of approximately 1,607,260 hours.

Issued in Arlington, Virginia, on August 24, 2015.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

BILLING CODE 9110-05-P

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: Federal Flight Deck Officer Program

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0011, abstracted below that we will submit to OMB for renewal in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection requires interested volunteers to fill out an application to determine their suitability for participating in the Federal Flight Deck Officer (FFDO) Program, and deputized FFDOs to submit written reports of certain prescribed incidents.

DATES: Send your comments by November 2, 2015.

ADDRESSES: Comments may be emailed to TSAPRA@dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227-3651.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

1652-0011; Federal Flight Deck Officer Program. The Transportation Security Administration (TSA) initially required this information collection under the authority of the Arming Pilots Against Terrorism Act (APATA), Title XIV of the Homeland Security Act (Nov. 25, 2002), sec. 1402(a), as amended by title VI of the Vision 100—Century of Aviation Reauthorization Act (Vision 100) (Dec. 12, 2003), sec. 609(b). See Public Law 107-296, 116 Stat. 2300, as codified at 49 U.S.C. 44921, and Public Law 108-176, 117 Stat. 2570, as codified at 49 U.S.C. 44921, respectively. TSA is seeking to renew this information collection in order to continue collecting the information described in this notice to comply with its statutory mission. The APATA required TSA to establish a program to deputize volunteer pilots of passenger air carriers as Federal law enforcement officers to defend the flight deck of their aircraft against acts of criminal violence or air piracy. With the enactment of Vision 100, eligibility to participate in the FFDO program expanded to include pilots of all-cargo aircraft, as well as flight engineers and navigators on both passenger and cargo aircraft.

In order to screen volunteers for entry into the FFDO program, TSA collects information, including name, address, prior address information, personal references, criminal history, limited medical information, financial information, and employment information, from applicants through comprehensive applications they submit to TSA. In addition, standard operating procedures require deputized FFDOs to report certain prescribed incidents to TSA so that appropriate records are created for evidentiary, safety, and security purposes. TSA uses the information collected to assess the qualifications and suitability of prospective and current FFDOs through an online application, to ensure the readiness of every FFDO, to administer the program, and for other transportation security purposes. Based on the average number of new applicants to the FFDO program, TSA estimates a total of 5,000 respondents annually. TSA estimates that the online

application will take one hour for each applicant to complete, for a total burden of 5,000 hours.

Issued in Arlington, Virginia, on August 24, 2015.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

BILLING CODE 9110-05-P

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: TSA Airspace Waiver Program

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0033, abstracted below that we will submit to OMB for renewal in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. This collection of information allows TSA to conduct security threat assessments on individuals on board aircraft operating in restricted airspace pursuant to an airspace waiver or flight authorization.

DATES: Send your comments by November 2, 2015.

ADDRESSES: Comments may be emailed to TSAPRA@dhs.gov or delivered to the TSA PRA Officer, Office of Information Technology (OIT), TSA-11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227-3651.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following

information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0033; TSA Airspace Waiver Program. TSA is seeking approval to renew this collection of information. The airspace waiver program allows U.S. and foreign general aviation aircraft operators to apply for approval to operate in U.S. restricted airspace, including over flying the United States and its territories. This program includes both processing of applications for airspace waivers and flight authorizations for the DCA Access Standard Security Program flights, which entails name-based security threat assessments for all passengers, flight crews and armed security officers on board each flight. TSA uses the information to conduct security threat assessments of persons on these flights to protect against and mitigate threats to transportation security.

TSA collects information from applicants applying for a waiver or flight authorization either online via <https://waivers.faa.gov>, or by completing a waiver or flight authorization form requested via facsimile. It is recommended that applicants submit the request electronically within five business days prior to the start date of the flight. To obtain a waiver, the aircraft operator must submit information about the flight and provide certain information about all passengers and crew on board the flight for TSA to perform a security threat assessment on each individual. To obtain a flight authorization, the aircraft operator must submit information about all passengers, flight crews and armed security officers on board each flight for TSA to perform a name-based security threat assessment on each individual. Specifically, waiver or flight authorization requests must include the purpose of the flight, the aircraft type and registration number, including aircraft operator's company

name and address, and the proposed itinerary. Additionally, aircraft operators must provide the names, dates and places of birth, and Social Security or passport numbers of all passengers, crew and in the case of flight authorization, armed security officers. The current estimated annual reporting burden is 7,099 hours.

Issued in Arlington, Virginia, on August 24, 2015.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Office of Information and Technology.
