Title: CBP Recordkeeping Requirements.

OMB Number: 1651-0076.

Abstract: The North American Free Trade Agreement Implementation Act, Title VI, known as the Customs Modernization Act (Mod Act) amended title 19 U.S.C. 1508, 1509 and 1510 by revising Customs and Border Protection (CBP) laws related to recordkeeping, examination of books and witnesses, regulatory audit procedures and judicial enforcement. Specifically, the Mod Act expanded the list of parties subject to CBP recordkeeping requirements; distinguished between records which pertain to the entry of merchandise and

financial records needed to substantiate the correctness of information contained in entry documentation; and identified a list of records which must be maintained and produced upon request by CBP. The information and records are used by CBP to verify the accuracy of the claims made on the entry documents regarding the tariff status of imported merchandise, admissibility, classification/nomenclature, value and rate of duty applicable to the entered goods. The CBP recordkeeping requirements are provided for by 19 CFR 163 and instructions are available at: <http://www.cbp.gov/document/publications/recordkeeping>.

Current Actions: CBP proposes to extend the expiration date of this information collection with no change to the burden hours or to the recordkeeping requirements. In order to more accurately reflect these requirements, CBP proposes to change the name of this information collection from Customs Modernization Act Recordkeeping Requirements to CBP Recordkeeping Requirements.

Type of Review: Extension (without change).

Affected Public: Businesses.

Estimated Number of Recordkeepers: 5,459.

Estimated Annual Time per Recordkeeper: 1,040 hours.

Estimated Annual Burden Hours: 5,677,360.

Dated: October 29, 2015.

The data collection forms have standardized the collection of information that is both necessary and essential for the DHS OSAI.

The SAFETY Act Program provides critical incentives for the development and deployment of effective anti-terrorism technologies by creating systems of risk and litigation management. This program creates certain liability limitations for claims resulted from an act of terrorism and provides legal liability protections for providers of qualified anti-terrorism technologies. The DHS S&T currently has approval to collect information for the implementation of the SAFETY Act

Program until March 31, 2016. With this notice, the DHS S&T seeks approval to renew this information collection for continued use after this date. The SAFETY Act Program requires the collection of this information in order to evaluate anti-terrorism technologies, based on the economic and technical criteria contained in the Regulations Implementing the Support Anti-Terrorism by Fostering Effective Technologies Act (the Final Rule), for protection in accordance with the Act, and therefore encourage the development and deployment of innovative anti-terrorism products and services. The Support Anti-Terrorism by Fostering Effective Technologies (SAFETY) Act (6 U.S.C. 441) was enacted as part of the Homeland Security Act of 2002, Public Law 107–296 establishing this requirement. This notice and request for comments is required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. chapter 35).

The DHS S&T currently has approval to collect information utilizing the Registration of a Seller as an Anti-Terrorism Technology (DHS Form 10010), Request for a Pre-Application Consultation (DHS Form 10009), Notice of License of Qualified Anti-Terrorism Technology (DHS Form 10003), Notice of Modification of Qualified Anti-Terrorism Technology (DHS Form 10002), Application for Transfer of SAFETY Act Designation and Certification (DHS Form 10001), Application for Renewal Of SAFETY Act Protections of a Qualified Anti-Terrorism Technology (DHS Form 10057), Application for SAFETY Act Developmental Testing and Evaluation Designation (DHS Form 10006), Application for SAFETY Act Designation (DHS Form 10008), Application for SAFETY Act Certification (DHS Form 10007), SAFETY Act Block Designation Application (DHS Form 10005), SAFETY Act Block Certification Application (DHS Form 10004) until 31 March 2016 with OMB approval number 1640–0001.

The DHS S&T is particularly interested in comments that:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
