The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The licensee's recreation plan proposes to relocate the existing tailrace fishing access area from the east bank of the Shetucket River (river), as required by Article 416, to the west bank of the river. The proposed change in location is due to the presence of an existing railroad that runs parallel to the shoreline. The railroad prohibits the public from crossing railroad property to access the east bank for

fishing due to safety concerns.

Consequently, the informal path to the river has been closed. If the recreation plan is approved, the licensee would relocate the tailrace fishing access area to the tailrace section on the west bank of the river. The new site would be accessible to the public by watercraft only. The licensee is proposing this location to keep the fishing access area within the tailrace and to maintain the characteristics of its previously provided area.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371.
