Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions are specified at 40 CFR part 63, subpart CCCCCC. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are also required annually.

Form Numbers: None.

Respondents/Affected Entities: Paints and allied products manufacturing facilities.

Respondent’s Obligation to Respond: Mandatory (40 CFR part 63, subpart CCCCCC).

Estimated Number of Respondents: 2,190 (total).

Frequency of Response: Initially, occasionally and annually.

Total Estimated Burden: 5,040 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total Estimated Cost: \$1,240,000 (per year). There are no annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a small adjustment increase in the estimated respondent labor hours in this ICR from the most recently-approved ICR. This is due to a change in our estimation assumption, and not associated with any program changes. In this ICR, we assume existing sources will have to re-familiarize themselves with the regulatory requirements each year, which results in an increase in burden.

Acting Director, Collection Strategies Division.

The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 63, subpart A, as well as the specific requirements at 40 CFR part 63, subpart AAAAAAA. This includes submitting initial notification reports, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/Affected Entities: Area source facilities that process asphalt or manufacture asphalt roofing products.

Respondent's Obligation to Respond: Mandatory (40 CFR part 63, subpart AAAAAAA).

Estimated Number of Respondents: 75 (total).

Frequency of Response: Initially and semiannually.

Total Estimated Burden: 3,020 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total Estimated Cost: \$305,000 (per year), which includes \$1,130 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a small adjustment increase in the respondent labor hours and the total O&M costs as currently identified in the OMB Inventory of Approved Burdens. The increase in labor hours is due to a change in assumption. In this ICR, we assume all existing sources will take some time each year to re-familiarize themselves with the regulatory requirements. The increase of five dollars in total O&M cost is due to

rounding of all calculated values to three significant figures.
