#### SUPPLEMENTARY INFORMATION:

**Title:** Generic Clearance for the Collection of Quantitative Feedback on Agency Service Delivery.

**Abstract:** The proposed information collection activity provides a means to garner quantitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, and provide an early warning of issues with service. This one time collection will allow for actionable communications between the Agency and its customers and stakeholders.

The solicitation of feedback will target areas such as: Perceptions of programs for inmates, Bureau of Prisons employees and the agency itself. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency’s services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
