Coast Guard

[Docket No. USCG-2016-0368]

Practicability Review: Standards for Living Organisms in Ships' Ballast Water Discharged in United States Waters

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability.

SUMMARY: The Coast Guard announces the availability of its Practicability Review conducted for the purpose of determining whether technology to comply with a performance standard more stringent than that required by the Coast Guard's current regulations on Ballast Water Discharges can be practicably implemented and whether testing protocols that can assure accurate measurement of compliance with a more stringent performance standard can be practicably implemented. Coast Guard ballast water regulations require the Coast Guard to

undertake and publish the results of its Practicability Review. In the Practicability Review, we conclude that, at this time, technology to achieve a significant improvement in ballast water treatment efficacy onboard vessels cannot be practicably implemented. The reason for this determination is that, as of the date of completion of the Practicability Review, there are no data demonstrating that ballast water management systems can meet a discharge standard more stringent than the existing performance standards. In light of this determination, the Coast Guard has not evaluated whether testing protocols exist which can accurately measure efficacy of treatment against a performance standard more stringent than the existing performance standards.

DATES: The Practicability Review is available on May 11, 2016.

ADDRESSES: The Practicability Review is available at: <http://homeport.uscg.mil/ballastwater> under Regulations and Policy Documents.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call CDR Meridena Kauffman, Chief, Environmental Standards Division (CG-OES-3), Coast Guard, telephone 202-372-1430, email Meridena.D.Kauffman@uscg.mil.

Dated: May 5, 2016.

DEPARTMENT OF HOMELAND SECURITY

Office of Chief Information Officer; Agency Information Collection Activities: REAL ID: Minimum Standards for Driver's Licenses and Identification Cards Acceptable by Federal Agencies for Official Purposes

AGENCY: Office of the Secretary, DHS.

ACTION: 30-Day Notice and request for comments; Reinstatement with change, 1601-0005.

SUMMARY: The Department of Homeland Security, Office of the Secretary, will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). DHS previously published this information collection request (ICR) in the **Federal Register** on Monday,

February 22, 2016 at 81 FR 8736 for a 60-day public comment period. Three comments were received by DHS. The purpose of this notice is to allow an additional 30 days for public comments.

DATES: Comments are encouraged and will be accepted until June 10, 2016. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to OMB Desk Officer, Department of Homeland Security and sent via electronic mail to oir_submission@omb.eop.gov or faxed to (202) 395-5806.

SUPPLEMENTARY INFORMATION: The REAL ID Act of 2005 (the Act) prohibits Federal agencies from accepting State-issued drivers' licenses or identification cards for any official purpose—defined by the Act and regulations as boarding commercial aircraft, accessing Federal facilities, or entering nuclear power plants—unless the license or card is issued by a State that meets the requirements set forth in the Act. Title II of Division B of Public Law 109-13, codified at 49 U.S.C. 30301 note. The REAL ID regulations, which DHS issued in January 2008, establish the minimum standards that States must meet to comply with the Act. See 73 FR 5272, also 6 CFR part 37 (Jan. 29, 2008). These include requirements for presentation and verification of documents to establish identity and lawful status, standards for document issuance and security, and physical security requirements for drivers' license production facilities. For a State to achieve full compliance, the Department of Homeland Security (DHS) must make a final determination that the State has met the requirements contained in the regulations and is compliant with the Act. The regulations include new information reporting and record keeping requirements for States seeking a full compliance determination by DHS. As discussed in more detail below, States seeking DHS's full compliance determination must certify that they are meeting certain standards in the issuance of drivers' licenses and identification cards and submit security plans covering physical security of document production and storage facilities as well as security of personally identifiable information. 6 CFR 37.55(a). States also must conduct background checks and training for employees involved in the document production and issuance processes and retain and store applicant photographs
