#### I. Background for the Proposed Action

On October 17, 2006, the EPA issued its final action to revise the PM<sub>2.5</sub> NAAQS to establish revised 24-hour standards (71 FR 61144). In that action, we promulgated identical revised primary and secondary PM<sub>2.5</sub> standards designed to protect public health and welfare that specified a 24-hour PM<sub>2.5</sub> average concentration of 35 µg/m<sup>3</sup>. Specifically, the 2006 standards require that the 3-year average of the annual 98th percentile concentration may not exceed 35 µg/m<sup>3</sup>.

On November 13, 2009, the EPA issued a final rule designating all areas throughout the country for the 2006 24-hour PM<sub>2.5</sub> NAAQS, effective December 14, 2009 (74 FR 58688). In that action,

the EPA designated Oakridge, Oregon and a small surrounding area as a nonattainment area (Oakridge NAA) based on monitor values at the Willamette Activity Center in Oakridge. As a result of this nonattainment area designation, Oregon is required to prepare and submit to the EPA a State Implementation Plan (SIP) revision to meet attainment plan requirements and to bring the Oakridge NAA into attainment for the 2006 24-hour PM<sub>2.5</sub> NAAQS. The State submitted an attainment plan submission for the Oakridge NAA to the EPA by letter dated December 12, 2012 (2012 Oakridge Plan).

On January 4, 2013, the D.C. Circuit Court issued a decision in *NRDC v. EPA*, 706 F.3d 428, holding that the EPA erred in implementing the 1997 PM<sub>2.5</sub> NAAQS only pursuant to the provisions of subpart 1 of the Act, rather than the particulate matter specific provisions of subpart 4 of Part D of Title I (subpart 4). The Court did not vacate the 2007 PM<sub>2.5</sub> Implementation Rule for the 1997 PM<sub>2.5</sub> NAAQS, but remanded it to the EPA with instructions to promulgate a new implementation rule for the PM<sub>2.5</sub> NAAQS in accordance with the requirements of both subpart 1 and subpart 4. On June 6, 2013, consistent with the Court's remand decision, the EPA withdrew its March 2012 Implementation Guidance recommending that states rely on the 2007 PM<sub>2.5</sub> Implementation Rule for development of attainment plans for the 2006 24-hour PM<sub>2.5</sub> NAAQS. Thus, the EPA withdrew the guidance it initially provided to states for meeting attainment plan requirements for purposes of areas designated nonattainment for the 2006 24-hour PM<sub>2.5</sub> NAAQS, such as the Oakridge NAA.

On June 2, 2014, in response to the *NRDC* decision that it implement the PM<sub>2.5</sub> NAAQS pursuant to subpart 4, the EPA promulgated the “PM<sub>2.5</sub> Subpart 4 Nonattainment Classification and Deadline Rule” (79 FR 31566). In that action, the EPA classified all areas currently designated nonattainment for both the 1997 and 2006 PM<sub>2.5</sub> NAAQS as “Moderate” nonattainment areas. That rule also provided guidance to states on how to meet the subpart 4 requirements and set a deadline of December 31, 2014 for states to submit any revisions to previously submitted attainment plan submissions, as necessary to meet subpart 4 requirements. Thus, the EPA classified the Oakridge NAA as a Moderate nonattainment area for the 2006 24-hour PM<sub>2.5</sub> NAAQS and provided an
