On April 27, 2016, the U.S. Nuclear Regulatory Commission (NRC) solicited comments on the Draft Standard Review Plan (SRP) on Foreign Ownership, Control, or Domination, Revision 1. The purpose of issuing this revision to the SRP is to provide guidance and establish procedures for NRC staff's review of whether an applicant for a nuclear facility license issued under sections 103.d., "Commercial Licenses," or 104.d., "Medical Therapy and Research and Development," of the Atomic Energy Act of 1954, as amended (AEA or Act), is owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government (individually or collectively, a foreign entity). This SRP will be used as the basis for the conduct of FOCD reviews associated with license applications for new facilities, to be licensed under Title 10 of the *Code of Federal Regulations* (10 CFR), Parts 50 and 52; applications for the renewal of facility licenses under 10 CFR part 54; or, applications for approval of direct or indirect transfers of facility licenses. The public comment period was originally scheduled to close on May 27, 2016. The NRC has decided to extend the public comment period on this document until July 25, 2016, to allow more time for members of the public to submit their comments.

Dated at Rockville, Maryland, this 19th day of May 2016.

For the Nuclear Regulatory Commission.
