

III. Regulatory Procedures

Administrative Procedure Act

The Administrative Procedure Act (APA) provides an exception to the notice and comment procedures where an agency finds good cause for dispensing with such procedures, on the basis that they are impracticable, unnecessary, or contrary to the public interest. EEOC finds that under 5 U.S.C. 553(b)(3)(B) good cause exists for dispensing with the notice of proposed rulemaking and public comment procedures for this rule because this adjustment of the civil monetary penalty is required by the 2015 Act, the formula for calculating the adjustment to the penalty is prescribed by statute, and the Commission has no discretion in determining the amount of the published adjustment. Accordingly, we are issuing this revised regulation as a final rule without notice and comment.

Executive Order 13563 and 12866

In promulgating this final rule, EEOC has adhered to the regulatory philosophy and applicable principles set forth in Executive Order 13563. Pursuant to Executive Order 12866, the EEOC has coordinated with the Office of Management and Budget (OMB). Under section 3(f) of Executive Order 12866, the EEOC and OMB have determined that this final rule will not have an annual effect on the economy of \$100 million or more, or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local, or tribal governments or communities. The great majority of employers and entities covered by these regulations comply with the posting requirement, and, as a result, the aggregate economic impact of these revised regulations will be minimal, affecting only those limited few who fail to post required notices in violation of the regulation and statute. The rule only increases the penalty by \$315 for each separate offense, nowhere near the \$100 million figure that would amount to a significant regulatory action.¹

Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) (PRA) applies to rulemakings in which an agency creates a new paperwork burden on regulated entities or modifies an existing burden. This final rule contains no new

information collection requirements, and therefore, will create no new paperwork burdens or modifications to existing burdens that are subject to review by the Office of Management and Budget under the PRA.

Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601–612) only requires a regulatory flexibility analysis when notice and comment is required by the Administrative Procedure Act or some other statute. As stated above, notice and comment is not required for this rule. For that reason, the requirements of the Regulatory Flexibility Act do not apply.

Unfunded Mandates Reform Act of 1995

This final rule will not result in the expenditure by State, local, or tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Congressional Review Act

The Congressional Review Act (CRA) requires that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EEOC will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to the effective date of the rule. Under the CRA, a major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by the CRA at 5 U.S.C. 804(2).

Approval and Promulgation of Air Quality Implementation Plans; Wyoming; Revisions to Wyoming Air Quality Standards and Regulations

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve State Implementation Plan (SIP) revisions submitted by the State of Wyoming on November 6, 2015. This submittal revises the Wyoming Air Quality Standards and Regulations (WAQSR) that pertain to the issuance of Wyoming air quality permits for major sources in nonattainment areas. This action is being taken under section 110 of the Clean Air Act (CAA).

DATES: This final rule is effective July 5, 2016.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R08-OAR-2016-0014. All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. I. Background

In this final rulemaking, we are taking action to approve the addition of Chapter 6, Section 13, Nonattainment permit requirements, and updated Section 14, Incorporation by reference, Wyoming Air Quality Standards and Regulations (WAQSR) to the Wyoming SIP. These provisions were submitted by the Wyoming Department of Environmental Quality (WDEQ) on November 6, 2015, to address certain CAA requirements related to ozone nonattainment areas.

On March 27, 2008, the EPA promulgated a revised National Ambient Air Quality Standard (NAAQS) for ozone with an 8-hour concentration limit of 0.075 parts per million ("8-Hour Ozone NAAQS"). Effective July 20, 2012, the EPA designated the Upper Green River Basin (UGRB) area of Wyoming as "nonattainment" for the 8-Hour Ozone NAAQS. For nonattainment areas, states are required to submit SIP revisions, including a nonattainment NSR permitting program for the construction and operation of new or modified major stationary sources located in the nonattainment area.

On May 10, 2011, before the formal designation of the UGRB area as nonattainment for the 8-Hour Ozone NAAQS, the WDEQ submitted a nonattainment new source review (NSR) permitting program SIP revision to EPA. This new section incorporated by reference 40 CFR 51.165 in its entirety, with the exception of paragraphs (a) and (a)(1), into Wyoming's Chapter 6 Permitting Requirements. On February 20, 2015 (80 FR 9194), the EPA took final action to disapprove the portion of Wyoming's May 10, 2011 submittal that added this new section to the permitting requirements in WAQSR Chapter 6. As explained in 80 FR 9194, the method Wyoming used to create a nonattainment NSR program was not consistent with the CAA and EPA regulations.

Our final disapproval started a two-year clock under CAA section 110(c)(1) for our obligation to promulgate a federal implementation plan (FIP) to correct the deficiency and the 18-month clock for sanctions, as required by CAA section 179(a)(2). These deadlines will be removed by the approval of this SIP revision addressing the deficiency in Wyoming's nonattainment NSR permitting requirements. Under section 110(c)(1), the EPA must promulgate a FIP addressing the deficiencies unless the state corrects the deficiencies, and the EPA approves the plan or plan

revision, before the EPA promulgates the FIP. Under section 179(a), sanctions apply unless the deficiency has been corrected within 18 months. See also 40 CFR 52.31(d). With our approval of the November 6, 2015 submittal, we are affirmatively determining that the deficiencies identified in our February 20, 2015 notice have been corrected, and as a result the deadlines for a FIP and sanctions have been removed.

The SIP revisions submitted by the WDEQ on November 6, 2015, involve Chapter 6, Permitting Requirements, Section 13, Nonattainment new source review permit requirements, and Section 14, Incorporation by reference. The revisions to Section 13 establish specific nonattainment new source review permitting requirements. In Section 13, the WDEQ has incorporated federal regulatory language from 40 CFR 51.165 and reformatted it into state specific language that effectively imposes requirements on major sources in Wyoming. Additionally, the WDEQ has revised language within the rule to maintain consistency with the State's Prevention of Significant Deterioration (PSD) regulations (WAQSR Chapter 6, Section 4). In addition to the revisions to Chapter 6, Section 13, the November 6, 2015, submittal also updates Chapter 6, Section 14, Incorporation by reference, to adopt by reference the CFR as published on July 1, 2014. The State previously submitted SIP revisions for Chapter 6, Section 14 on May 28, 2015 that requested adoption by reference of the CFR as published on July 1, 2013.

II. What are the changes that EPA is taking final action to approve?

In our March 1, 2016 proposed action (81 FR 10559), we proposed to approve the following revisions to the WASQR: Chapter 6, Section 13, Nonattainment permit requirements, and updated Section 14, Incorporation by reference, WAQSR to the Wyoming SIP. As explained in 81 FR 10559, these changes are consistent with CAA and EPA regulations and address the deficiencies identified in our February 20, 2015 disapproval.

Instead of incorporating 40 CFR 51.165 by reference, the November 6, 2015 submittal adapts the language in 40 CFR 51.165 to remove phrases such as "the plan shall provide" and "the plan may provide," and specifies the procedures to be used. In addition, the submittal revises language in 40 CFR 51.165 to specify that the WDEQ is the reviewing authority. In one place, the submittal modifies the term "building, structure, facility, or installation" to "structure, building, facility, equipment, installation, or operation," without
