

751(a)(2)(B)(i) of the Tariff Act of 1930, as amended (the “Act”), and 19 CFR 351.214(b) and (c), the Department received a timely request for a NSR from SXT. Pursuant to section 751(a)(2)(B)(i)(I) of the Act and 19 CFR 351.214(b)(2)(i), SXT certified that it is the exporter and producer of the passenger tires for which the request for a NSR is based, and certified that it did not export passenger tires to the United States during the period of investigation (POI).² Moreover, pursuant to section 751(a)(2)(B)(i)(II) of the Act and 19 CFR 351.214(b)(2)(iii)(A), SXT certified that, since the investigation was initiated, it never has been affiliated with any exporter or producer who exported the subject merchandise to the United States during the POI, including those not individually examined during the investigation.³ Further, as required by 19 CFR 351.214(b)(2)(v), it certified that it informed the government of the PRC that the government will be required to provide a full response to the Department’s questionnaires.⁴

In addition to the certifications described above, pursuant to 19 CFR 351.214(b)(2)(iv), SXT submitted documentation establishing the following: (1) The date of its first sale to an unaffiliated customer in the United States; (2) the date on which the passenger tires were first entered for consumption; (3) the volume of that shipment.⁵

The Department queried the database of U.S. Customs and Border Protection (CBP) in an attempt to confirm that the shipment reported by SXT had entered the United States for consumption and that liquidation had been suspended as subject to the countervailing duty order. The information which the Department examined was consistent with that provided by SXT in its request.⁶ In particular, the CBP data confirmed the price and quantity reported by SXT for the sale that forms the basis for this NSR request.

Period of Review

Pursuant to 19 CFR 351.214(c), an exporter or producer may request a NSR within one year of the date on which its subject merchandise was first entered. Moreover, 19 CFR 351.214(d)(1) states

that if the request for the review is made during the six-month period ending with the end of the semiannual anniversary month, the Department will initiate a NSR in the calendar month immediately following the semiannual anniversary month. Further, 19 CFR 351.214(g)(2) and 19 CFR 351.213(e)(2)(ii) state that the first review period after an order normally will cover entries or exports from the date of suspension of liquidation to the end of the most recently completed calendar year. However, since SXT’s shipment entered the United States after the end of 2015, and because SXT has requested a concurrent NSR of the antidumping duty order covering the same shipment, we are expanding the POR by one month.⁷ Therefore, the POR is December 1, 2014, through January 31, 2016.⁸

Initiation of New Shipper Review

Pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(b), and the information on the record, the Department finds that SXT’s request meets the threshold requirements for initiation of a NSR and, therefore, is initiating a NSR of SXT. If the information supplied by STX is found to be incorrect or insufficient during the course of this proceeding, the Department may rescind the review for STX or apply facts available pursuant to section 776 of the Act, depending on the facts on the record. Absent a determination that the new shipper review is extraordinarily complicated, the Department intends to issue the preliminary results within 180 days after the date on which this review is initiated and the final results within 90 days after the date on which we issue the preliminary results.⁹

On February 24, 2016, the President signed into law the “Trade Facilitation and Trade Enforcement Act of 2015,” H.R. 644, which made several amendments to section 751(a)(2)(B) of the Act. We will conduct this new shipper review in accordance with section 751(a)(2)(B) of the Act, as

amended by the Trade Facilitation and Trade Enforcement Act of 2015.¹⁰

Interested parties requiring access to proprietary information in this proceeding should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 351.221(c)(1)(i).

Dated: May 27, 2016.

Postponement of Preliminary Determination

On May 3, 2016, Titan Tire Corporation and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (USW) (collectively, Petitioners) made a timely request, pursuant to 19 CFR 351.205(e), for postponement of the preliminary determination, in order to provide the Department with sufficient time to develop the record in this proceeding through additional questionnaires, which Petitioners will in turn need to analyze and possibly comment on. AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On May 10, 2016, the United States Court of International Trade (the Court) sustained the *Final Remand Redetermination* pertaining to the administrative reviews of the antidumping duty orders on ball bearings and parts thereof from Japan and the United Kingdom covering the period May 1, 2009, through April 30, 2010.¹ Consistent with the decision of the United States Court of Appeals for the Federal Circuit (CAFC) in *Timken Co. v. Cir. 2010) (*Diamond Sawblades*), the Department of Commerce (the Department) is notifying the public that the Court's final judgment in this case is not in harmony with the *Final Results*, and that the Department is amending the *Final Results* with respect to all respondents that were subject to these administrative reviews.²

DATES: Effective May 20, 2016.

SUPPLEMENTARY INFORMATION:

Background

On July 8, 2015, the Court remanded the *Final Results* for the Department to apply a differential pricing analysis.³ On remand, the Department applied a differential pricing analysis, under protest, and as a result, the weighted-average dumping margin for each respondent subject to these administrative reviews changed. On May 10, 2016, the Court upheld the *Final Remand Redetermination* in full.⁴

Timken Notice

In its decision in *Timken*, as clarified by *Diamond Sawblades*, the CAFC held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), the Department must publish a notice of a court decision that is not "in harmony" with a Department determination and must suspend liquidation of entries pending a "conclusive" court decision. The *Remand Affirmation* sustaining the *Final Remand Redetermination* constitutes a final decision of the Court which is not in harmony with the *Final Results*. This notice is published in fulfillment of the publication requirements of *Timken*.
