

government's case has been dismissed. The convening authority may not take any actions inconsistent with directives of superior competent authority. Where that directive is unclear, appropriate clarification should be sought from the authority issuing the original directive."

(w) A new Discussion is inserted after the new R.C.M. 1107(e)(2)(B)(iii) and reads as follows:

"A sentence rehearing, rather than a reassessment, may be more appropriate in cases where a significant part of the government's case has been dismissed. The convening authority may not take any actions inconsistent with directives of superior competent authority. Where that directive is unclear, appropriate clarification should be sought from the authority issuing the original directive. For purposes of R.C.M. 1107(e)(1)(B), the term "superior competent authority" does not include superior convening authorities but rather, for example, the appropriate Judge Advocate General or a court of competent jurisdiction."

(x) A Discussion is inserted after the new R.C.M. 1107(e)(2)(C)(ii) and reads as follows:

"For example, if proof of absence without leave was by improperly authenticated documentary evidence admitted over the objection of the defense, the convening authority may disapprove the findings of guilty and sentence and order a rehearing if there is reason to believe that properly authenticated documentary evidence or other admissible evidence of guilt will be available at the rehearing. On the other hand, if no proof of unauthorized absence was introduced at trial, a rehearing may not be ordered."

(y) A new paragraph is added to the end of the Discussion immediately following R.C.M. 1108(b) and reads as follows:

"The limitations on suspension of the execution of any sentence or part thereof contained in Article 60 apply to a decision by a convening authority or other person acting on the case under Article 60, as opposed to an individual remitting or suspending a sentence pursuant to a different authority, such as Article 74. See R.C.M. 1107(d)."

(z) A new Discussion section is inserted immediately following the new R.C.M. 1109(h)(4) and reads as follows:

"The following oath may be given to witnesses:

"Do you (swear) (affirm) that the evidence you give shall be the truth, the whole truth, and nothing but the truth (so help you God)?"

The hearing officer is required to include in the record of the hearing, at a minimum, a summary of the substance of all testimony.

All hearing officer notes of testimony and recordings of testimony should be preserved until the end of trial.

If during the hearing any witness subject to the Code is suspected of an offense under the Code, the hearing officer should comply with the warning requirements of Mil. R. Evid. 305(c), (d), and, if necessary, (e).

Bearing in mind that the probationer and government are responsible for preparing and presenting their cases, the hearing officer may ask a witness questions relevant to the limited purpose of the hearing. When questioning a witness, the hearing officer may not depart from an impartial role and become an advocate for either side."

This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

**Title of Collection:** International Computer and Information Literacy Study (ICILS 2018) Field Test and Recruitment for Main Study.

**OMB Control Number:** 1850—New.

**Type of Review:** A new information collection.

**Respondents/Affected Public:** Individuals or Households.

**Total Estimated Number of Annual Responses:** 1,983.

**Total Estimated Number of Annual Burden Hours:** 2,040.

**Abstract:** The International Computer and Information Literacy Study (ICILS) is a computer-based international assessment of eighth-grade students' computer and information literacy (CIL) skills that will provide a comparison of U.S. student performance and technology access and use with those of

the international peers. ICILS collects data on eighth-grade students' abilities to collect, manage, evaluate, and share digital information; their understanding of issues related to the safe and responsible use of electronic information; on student access to, use of, and engagement with ICT at school and at home; school environments for teaching and learning CIL; and teacher practices and experiences with ICT. The data collected through ICILS will also provide information about the nature and extent of the possible "digital divide" and has the potential to inform understanding of the relationship between technology skills and experience and student performance in other core subject areas. ICILS is conducted by the International Association for the Evaluation of Educational Achievement (IEA), an international collective of research organizations and government agencies that create the assessment framework, assessment, and background questionnaires. In the U.S., the National Center for Education Statistics (NCES) conducts this study. In preparation for the ICILS 2018 main study, NCES will conduct a field test from March through May 2017 to evaluate new assessment items and background questions, to ensure practices that promote low exclusion rates, and to ensure that classroom and student sampling procedures proposed for the main study are successful. The U.S. ICILS main study will be conducted in the spring of 2018. Field recruitment will begin in October 2016 and main study recruitment in May of 2017. This request is for the 2017 field test and the 2018 main study recruitment activities and the 2017 field test data collection.
