

SUPPLEMENTARY INFORMATION: On April 25, 2016, we published in the **Federal Register** (81 FR 24070) a notice inviting applications for new awards for FY 2016 for the i3 Development competition. The deadline for transmittal of full applications was August 16, 2016. We are reopening this competition in order to allow certain eligible applicants affected by the severe storms and flooding in Louisiana (described in more detail below) more time to prepare and submit their applications.

Eligibility: Applicants are eligible to submit applications under this reopened competition if they are located in a Federally declared disaster area, as determined by the Federal Emergency Management Agency (FEMA) (see www.fema.gov/news/disasters.fema), and adversely affected by the severe storms and flooding beginning on August 11, 2016, and continuing, in Louisiana.

Under section 14007(a)(1) of the American Recovery and Reinvestment Act of 2009 (ARRA) (Pub. L. 111–5), an eligible applicant for the Investing in Innovation Fund is (a) a local educational agency (LEA) or (b) a partnership between a nonprofit organization and (1) one or more LEAs or (2) a consortium of schools. An eligible applicant that is a partnership may apply under this reopened competition if any of the entities required to be part of the partnership (*i.e.*, a nonprofit organization, an LEA, or a consortium of schools) are located in a Federally declared disaster area, as determined by FEMA, and adversely affected by the severe storms and flooding in Louisiana.

An eligible applicant must provide a certification in its application that it meets the criteria for submitting an application as part of the reopened competition and be prepared to provide appropriate supporting documentation, if requested. If such an eligible applicant is submitting its application electronically, the submission of the application serves as the eligible applicant's attestation that it meets the criteria for submitting an application as part of this reopened competition.

We are not reopening the application period for any other applicants. Thus, applications from applicants not affected by the severe storms and flooding that were not timely submitted may not be submitted as part of this reopened competition.

Note: All information in the NIA for this competition remains the same, except for the deadline date for certain eligible applicants and the deadline for intergovernmental review.

Program Authority: ARRA, Division A, Section 14007, Pub. L. 111–5.

Title of Collection: EDFacts Data Collection School Years 2016–17, 2017–18, and 2018–19.

OMB Control Number: 1850–0925.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 61.

Total Estimated Number of Annual Burden Hours: 126,800.

Abstract: EDFacts is a U.S. Department of Education (ED) initiative

to collect, analyze, report on and promote the use of high-quality, pre-kindergarten through grade 12 (pre-K–12) performance data for use in education planning, policymaking, and management and budget decision making to improve outcomes for students. EDFacts enables the National Center for Education Statistics (NCES) to report on students, schools, staff, services, and education outcomes at the state, district, and school levels, by centralizing data provided by state education agencies, local education agencies, and schools. This centralized approach provides ED users with the ability to efficiently analyze and report on submitted data and has reduced the reporting burden for state and local data producers through the use of streamlined data collection, analysis, and reporting tools. EDFacts collects information on behalf of ED grant and program offices for approximately 180 data groups for all 50 states, Washington DC, Puerto Rico, and seven outlying areas and freely associated states (American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Commonwealth of the Northern Mariana Islands, Republic of Palau, and the U.S. Virgin Islands), the Department of Defense Education Activity (DoDEA), and the Bureau of Indian Education (BIE). NCES seeks authorization from OMB to revise its EDFacts data collection and is requesting a new clearance for the 2016–17, 2017–18, and 2018–19 school years in order to support the Elementary and Secondary Act (ESEA), as amended by the Every Student Succeeds Act (ESSA) in December, 2015. This collection package will be available for public comment during two open periods, a 60 day and a 30 day, and revisions will be made accordingly. This submission includes a few proposed changes to the EDFacts data collection. In addition to reviewing the proposed changes (detailed in Attachment C and the B Attachments), ED requests that SEAs and other stakeholders respond to the directed questions found in Attachment D.
