II. Data

(1) *Title*: Indian Water Rights Settlements: Economic Analysis.
OMB Control Number: 1093-0NEW.
Type of Review: New Information Collection.

Affected Entities: State, Local & Tribal Governments as well as some Private Sector entities.

Estimated annual number of respondents: 48.

Frequency of responses: One time.

(2) Annual reporting and recordkeeping burden:

Total annual reporting per response: 2.73 hours.

Total number of estimated responses: 48.

Total annual reporting: 131 hours.

(3) Description of the need and use of the information. Indian reserved water rights are vested property rights for which the United States has a trust responsibility, with the United States holding legal title to such water in trust for the benefit of Indian tribes. Federal policy supports the resolution of disputes regarding Indian water rights through negotiated settlements. Settlement of Indian water rights disputes breaks down barriers and helps create conditions that improve water resources management by providing certainty as to the rights of all water users who are parties to the disputes. At a time of increasing competition for Federal funds, it is important to quantify and describe the economic impacts and net benefits of the implementation of enacted Indian water rights settlements.

Notice of Proposed Classification of Public Lands and Minerals for State Indemnity Selection, Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Montana Department of Natural Resources and Conservation (State) has filed a petition for classification and application to obtain public lands and mineral estate in lieu of lands to which the State was entitled, but did not receive under its Statehood Act. The State did not receive title because the lands had previously been appropriated. Under Section 7 of the Taylor Grazing Act of 1934, the Bureau of Land Management (BLM) proposes to classify sufficient acreage of public lands/minerals in Montana for title transfer to the State to satisfy this obligation to the State. Of the area proposed for State Indemnity Selection, 10,560 acres are designated as greater sage-grouse General Habitat Management area.

DATES: Comments must be received by December 16, 2016.

The BLM will not consider or include comments received after the close of the comment period or comments delivered to an address other than the one listed below. Persons asserting a claim to or interest in the lands or mineral estate described in this notice will find the requirements for filing such claims in the **SUPPLEMENTARY INFORMATION** section.

ADDRESSES: The public may submit written comments by mail or hand delivery to: State Director, Montana/Dakotas State Office, Bureau of Land Management, Department of the Interior, 5001 Southgate Drive, Billings, MT 59101.

FOR FURTHER INFORMATION CONTACT: Jim Ledger, Realty Specialist, Branch of Lands, Realty, and Renewable Energy; telephone (406) 329-3733; email jledger@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: Sections 2275 and 2276 of the Revised Statutes,

as amended (43 U.S.C. 851 and 852), provide authority for the State of Montana to receive title to public lands in lieu of lands to which it was entitled under the Enabling Act of 1889 (25 Stat. 676), where it did not receive title because those lands had otherwise been encumbered.

Section 7 of the Taylor Grazing Act of June 8, 1934, requires that such public lands and/or minerals identified for proposed transfer out of Federal ownership must first be classified. The BLM proposes to classify these lands/minerals under Section 7 of the Taylor Grazing Act of June 8, 1934 (48 Stat. 1272, as amended), 43 U.S.C. 315(f). For a period until December 16, 2016 all persons who wish to submit comments, suggestions, or objections in connection with this classification may present their views by the means shown under the **ADDRESSES** section above.

Any adverse comments will be evaluated by the BLM Montana/Dakotas State Director, who will issue a notice of determination to proceed with, modify, or cancel the proposed classification. In the absence of any action by the State Director, this classification action will be issued as the initial classification decision of the State Director.

Comments, including names and street addresses of respondents and records relating to this proposed classification, will be available for public review at the BLM Montana/Dakotas State Office at the address cited in the **ADDRESSES** section above during regular business hours. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The BLM intends to schedule public meetings during the 60-day comment period. The BLM will announce the public meetings 15 days prior to the meetings in newspapers of general circulation in the vicinity of the selected lands and via the Web site at www.blm.gov/mt/st/en/prog/lands_realty/indemnity.html.

The lands/minerals included within this proposed classification are in Custer, Fallon, Prairie, Richland, and Yellowstone Counties, Montana, and are described as follows:

The State expressed interest in the selection of lands withdrawn to the Bureau of Reclamation (BOR). The BOR has filed with the BLM a Notice of Intent to Relinquish, dated January 26, 2016, requesting partial revocation of an Order dated, October 15, 1904, and full revocation of an Order dated March 30, 1950. Should the revocations be approved, the following lands in Chouteau and Hill Counties are

proposed for classification by this notice as available for State indemnity selection:

Principal Meridian, Montana

- T. 29 N., R. 11 E.,
sec. 21, N $\frac{1}{2}$ NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$;

- T. 29 N., R. 12 E.,
sec. 9, W $\frac{1}{2}$ and SE $\frac{1}{4}$;
sec. 21, N $\frac{1}{2}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, and SW $\frac{1}{4}$ SE $\frac{1}{4}$;
sec. 22;
sec. 28, W $\frac{1}{2}$;
sec. 29, E $\frac{1}{2}$ NE $\frac{1}{4}$ and E $\frac{1}{2}$ SE $\frac{1}{4}$.
- T. 30 N., R. 12 E.,
sec. 35, SE $\frac{1}{4}$.

The areas described aggregate 2,560 acres.

The BLM will examine all lands described above for evidence of valid existing rights and any constraints that would prevent transfer. Right-of-way (ROW) holders will be afforded the opportunity to modify their existing authorization per 43 CFR 2807.15. Oil and gas, geothermal, or other leases issued under the authority of the Mineral Leasing Act of 1920 (30 U.S.C. 181 *et seq.*) will remain in effect under the terms and conditions of the leases. Agricultural leases issued under the authority of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1732) will remain in effect under the terms and conditions of the leases.

Current holders of BLM grazing use authorizations were sent the required 2-year notice in January 2016 as outlined in 43 CFR 4110.4–2(b). Upon expiration of the 2-year period or receipt of a waiver from the current holder, such authorizations will be terminated upon transfer of any of the land described above to the State of Montana. State of Montana procedures provide that upon Land Board Approval, the State will offer 10-year grazing leases to the current holders of BLM permits/leases on any transferred lands.

For a period until December 1, 2016 persons asserting a claim to, or interest in, the above-described lands or mineral estate, other than holders of leases, permits, or ROWs, may file such claim with the BLM Montana/Dakotas State Director at the address cited in the **ADDRESSES** section above. You must provide evidence that a copy thereof has been served on the Montana Department of Natural Resources and Conservation, 1625 11th Avenue, P.O. Box 201601, Helena, MT 59620.

Under 43 CFR 2091.3–1(b) the lands described above were segregated from entry upon application by the State from all forms of disposal under the public land laws, including the mining laws, except for the form of land disposal specified in this notice of classification.

However, this publication does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources, other than under the mining laws.

The segregative effect of this classification will terminate in one of the following ways:

(1) Classification of the lands on or before the expiration of the 2-year period from the date of application;

(2) Publication of a notice of termination of the classification in the **Federal Register**;

(3) An Act of Congress; or

(4) Expiration of the 2-year period from the date of application unless notice of extension for the proposed classification for an additional period, not exceeding 2 years, is given.

Authority: 43 CFR parts 2091, 2400, and 2621.

Jamie Connell,

BLM Montana/Dakotas State Director.

Grant Notification

We are notifying the public that we intend to grant funds to eligible applicants for purposes authorized under the AML Reclamation Program. Additionally, we are notifying the public that we intend to grant funds to eligible applicants for regulating coal mining within their jurisdictional borders under the Regulatory Program. We will award these grants during fiscal year 2017. Eligible applicants are those states and Indian tribes with a regulatory program, regulatory development program, and/or reclamation plan approved under the Surface Mining Control and Reclamation Act of 1977 (SMCRA), as amended, 30 U.S.C. 1201 *et seq.*, and the State of Tennessee. Under Executive Order (E.O.) 12372, we must provide state and tribal officials the opportunity to review and comment on proposed federal financial assistance activities. Of the eligible applicants, nineteen states or Indian tribes do not have single points-of-contact under the E.O. 12372 review process; therefore, we are required to publish this notice as an alternate means of notification.

Description of the AML Program

SMCRA established the Abandoned Mine Reclamation Fund to receive the AML fees used to finance reclamation of AML coal mine sites. Title IV of SMCRA authorizes the Office of Surface Mining Reclamation and Enforcement to provide grants to eligible states and Indian tribes that are funded from permanent (mandatory) appropriations. Recipients use these funds to reclaim the highest priority AML coal mine sites that were left abandoned prior to the enactment of SMCRA in 1977, eligible non-coal sites, projects that address the impacts of mineral development, and non-reclamation projects.

Description of the Regulatory Program

Title VII of SMCRA authorizes the Office of Surface Mining Reclamation and Enforcement to provide grants to states and Indian tribes to develop, administer, and enforce state regulatory programs addressing the disturbance from coal mining operations. Title V

and Title VII authorize states to develop regulatory programs pursuant to SMCRA, and upon approval of regulatory programs, to assume regulatory primacy and act as the regulatory authority, and to administer and enforce their respective approved SMCRA regulatory programs. Our regulations at Title 30 of the Code of Federal Regulations, Chapter VII implement the provisions of SMCRA.

Dated: September 28, 2016.
