In addition, the Exchange asserts that the numerous options for buying and selling bitcoins will both provide Authorized Participants with many options for hedging their positions and provide market participants generally with potential arbitrage opportunities, further strengthening the arbitrage mechanism as it relates to the Shares. What are commenters' views regarding these statements? Do commenters' agree or disagree with the assertion that Authorized Participants and other market makers will be able to make efficient and liquid markets in the Shares at prices generally in line with the NAV? What are commenters' views on whether the relationship between the Gemini Exchange and the Trust's Sponsor and Custodian might affect the arbitrage mechanism?
