

319.56–1 through 319.56–75). In accordance with these regulations, mangoes from India may be imported into the United States only under certain conditions to prevent the introduction of plant pests into the United States.

Need and Use of the Information: APHIS amended the fruits and vegetables regulations to allow the importation into the continental United States of mangoes from India under certain conditions. As a condition of entry, the mangoes have to undergo irradiation treatment and be accompanied by a phytosanitary certificate with additional declaration statement providing specific information regarding the treatment and inspection of the mangoes and the orchards in which they were grown. The additional information collection activities include a preclearance workplan, trust fund agreement, compliance agreement, monitoring of inspections, orchard mutual agreement, irradiation treatment package labeling, recordkeeping, treatment certification, and denial and withdrawal certification. Failure to collect this information would greatly hinder APHIS' ability to ensure that mangoes from India are not carrying plant pests.

Grain Inspection, Packers and Stockyards Administration

Designation of Hastings Grain Inspection, Inc. To Provide Class X or Class Y Weighing Services

AGENCY: Grain Inspection, Packers and Stockyards Administration, USDA.

ACTION: Notice.

SUMMARY: GIPSA is announcing the designation of Hastings Grain Inspection, Inc. (Hastings) to provide Class X or Class Y weighing services under the United States Grain Standards Act (USGSA), as amended.

DATES: Effective August 5, 2016.

FOR FURTHER INFORMATION CONTACT: Jacob Thein, 816–866–2223 or FGIS.QACD@usda.gov

SUPPLEMENTARY INFORMATION: In the December 9, 2014, **Federal Register** (79 FR 73027), GIPSA announced the designation of Hastings to provide official services under the USGSA, effective October 1, 2014, to September 30, 2017. Subsequently, Hastings asked GIPSA to amend their designation to include official weighing services. The USGSA authorizes the Secretary to designate authority to perform official weighing to an agency providing official inspection services within a specified geographic area, if such agency is qualified under 7 U.S.C. 79. Under 7 U.S.C. 79(a), GIPSA evaluated information regarding the designation criteria in section 7 U.S.C. 79 and determined that Hastings is qualified to provide official weighing services in their currently assigned geographic area.

Hastings' designation is amended to include Class X or Class Y weighing within their assigned geographic area, effective August 5, 2016, to September 30, 2017. Interested persons may obtain official services by contacting Hastings at (402) 462–4254.

Authority: 7 U.S.C. 71–87k.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Southeast Region Dealer and Interview Family of Forms.

OMB Control Number: 0648–0013.

Form Number(s): None.

Type of Request: Regular (revision and extension of a currently approved information collection).

Number of Respondents: 7,494.

Average Hours per Response: Dealer reporting for monitoring Federal fishery annual catch limits (ACLs): Coastal fisheries dealers reporting, 10 minutes; mackerel dealer reporting (non-gillnet), 10 minutes; mackerel dealer reporting (gillnet), 10 minutes; mackerel vessel reporting (gillnet), 10 minutes; wreckfish dealer reporting, 10 minutes.

Bioprofile data from Trip Interview programs (TIP): Shrimp Interviews, 10 minutes; Fin Fish interviews, 10 minutes.

Burden Hours: 5,028.

Needs and Uses: This request is for revision and extension of a current information collection.

Fishery quotas are established for many species in the fishery management plans developed by the Gulf of Mexico Reef Fish Fishery Management Council, the South Atlantic Fishery Management Council, and The Caribbean Fishery Management Council. The Southeast Fisheries Science Center has been delegated the responsibility to monitor these quotas. To do so in a timely manner, seafood dealers that handle these species are required to report the purchases (landings) of these species. The frequency of these reporting requirements varies depending on the magnitude of the quota (e.g., lower quota usually require more frequent reporting) and the intensity of fishing effort. The most common reporting frequency is twice a month; however, some fishery quotas, (e.g., the mackerel gill net) necessitate weekly or by the trip reporting.

In addition, information collection included in this family of forms includes interview with fishermen to gather information on the fishing effort, location and type of gear used on individual trips. This data collection is conducted for a subsample of the fishing trips and vessel/trips in selected commercial fisheries in the Southeast region and commercial fisheries of the US Caribbean. Fishing trips and individuals are selected at random to provide a viable statistical sample. These data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations.

A revision to this collection is requested because the Caribbean Fishery Management Council has asked that commercial trip interviews be conducted for the fisheries of the Caribbean. In order to support this
