Form C-700 is used to collect data on construction of privately-owned nonresidential buildings and structures. Form C-700(R) is used to collect data on privately-owned residential building projects with two or more housing units. Form C-700(SL) is used to collect data on state and local government construction projects. Form C-700(F) is used to collect data on federal government construction projects.

Published statistics are used by all levels of government to evaluate economic policy, to measure progress toward national goals, to make policy decisions, and to formulate legislation. For example, Bureau of Economic Analysis (BEA) staff uses the data to develop the construction components of gross private domestic investment and government investment in the Gross Domestic Product. The Federal Reserve Board and the Department of the Treasury use the data to develop monetary policy. Private businesses and trade organizations use the data to estimate demand for building materials and to schedule production, distribution and sales efforts.

Affected Public: Business or other for-profit; Not-for-profit institutions, State, local or tribal government; Federal government.

Frequency: Monthly.

Respondent's Obligation: Voluntary.
