

Number of respondents	Estimated number of responses per respondent	Average burden hours per response	Annual burden hours requested
1	293	.25	73.25

(5) Conference Registration Form*Need and Use of the Records:*

Approximately 250 4-H youth and 75 adult chaperones attend National 4-H Conference on an annual basis. They need to complete a registration form to attend.

Components of the Record: The form consists of name, date of birth, address, phone number, email address, race and

ethnicity, gender, emergency contact, Land Grant University affiliation, roundtable preferences, special accommodations, food requests.

Method of Collection: The delegates and chaperones will complete the registration form electronically and return it via email.

Frequency of Response:

Approximately 250 youth and 75 adult

chaperones will complete the registration form.

Affected Public: 4-H youth and adult chaperones who have applied and been selected to attend National 4-H Conference.

Type of Respondents: 4-H members and adult chaperones.

Estimate of Burden:

Number of respondents	Estimated number of responses per respondent	Average burden hours per response	Annual burden hours requested
325	1	.25	81.25

Total Estimate of Burden: The estimated annual reporting burden for

all National 4-H Conference collection is as follows:

Type of respondents	Number of respondents	Estimated number of responses per respondent	Average burden hours per response	Annual burden hours requested
Youth Leadership Team Applicants	50	1	2	100
Facilitator Applicants	50	1	2	100
Program Participant Evaluations	367	1	.25	91.75
Delegate Health Forms	293	1	.25	73.25
Conference Registration Forms	325	1	.25	81.25
Grand Total	1085	446.25

Comments: Comments are invited on: (a) Whether the proposed record keeping requirement and collection of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.

Obtaining a Copy of the Information Collection: A copy of the information collection and related instructions may

be obtained free of charge by contacting Robert Martin as directed above.

Done at Washington, DC, this 2 day of March 2017.

Ann Bartuska,

Acting Under Secretary, Research, Education, and Economics.

DEPARTMENT OF COMMERCE**International Trade Administration**

[A-570-896]

Magnesium Metal From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2015-2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On January 6, 2017, the Department of Commerce

("Department") published in the **Federal Register** the preliminary results of the administrative review of the antidumping duty order on magnesium metal from the People's Republic of China ("PRC") covering the period April 1, 2015, through March 31, 2016. This review covers two PRC companies, Tianjin Magnesium International, Co., Ltd. ("TMI") and Tianjin Magnesium Metal Co., Ltd. ("TMM"). The Department gave interested parties an opportunity to comment on the *Preliminary Results*, but we received no comments. Hence, the final results are unchanged from the *Preliminary Results*, and we continue to find that TMI and TMM did not have reviewable entries during the period of review ("POR").

DATES: Effective March 8, 2017.

FOR FURTHER INFORMATION CONTACT: James Terpstra or Brendan Quinn, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of

Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3965 or (202) 482-5848, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 6, 2017, the Department published the *Preliminary Results*.¹ We invited interested parties to comment on the *Preliminary Results*, but no comments were received.

The Department conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (“the Act”).

Scope of the Order

The product covered by this antidumping duty order is magnesium metal from the PRC, which includes primary and secondary alloy magnesium metal, regardless of chemistry, raw material source, form, shape, or size. Magnesium is a metal or alloy containing by weight primarily the element magnesium. Primary magnesium is produced by decomposing raw materials into magnesium metal. Secondary magnesium is produced by recycling magnesium-based scrap into magnesium metal. The magnesium covered by this order includes blends of primary and secondary magnesium.

The subject merchandise includes the following alloy magnesium metal products made from primary and/or secondary magnesium including, without limitation, magnesium cast into ingots, slabs, rounds, billets, and other shapes; magnesium ground, chipped, crushed, or machined into rasping, granules, turnings, chips, powder, briquettes, and other shapes; and products that contain 50 percent or greater, but less than 99.8 percent, magnesium, by weight, and that have been entered into the United States as conforming to an “ASTM Specification for Magnesium Alloy”² and are thus outside the scope of the existing antidumping orders on magnesium from the PRC (generally referred to as “alloy” magnesium).

The scope of this order excludes: (1) All forms of pure magnesium, including chemical combinations of magnesium and other material(s) in which the pure magnesium content is 50 percent or

greater, but less than 99.8 percent, by weight, that do not conform to an “ASTM Specification for Magnesium Alloy”³; (2) magnesium that is in liquid or molten form; and (3) mixtures containing 90 percent or less magnesium in granular or powder form by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures, including lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomite lime, and colemanite.⁴

The merchandise subject to this order is classifiable under items 8104.19.00, and 8104.30.00 of the Harmonized Tariff Schedule of the United States (“HTSUS”). Although the HTSUS items are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Final Determination of No Shipments

As noted above, the Department received no comments concerning the *Preliminary Results* on the record of this segment of the proceeding. As there are no changes from, or comments on, the *Preliminary Results*, the Department finds that there is no reason to modify its analysis. Thus, we continue to find that TMI and TMM had no shipments of the subject merchandise, and, therefore, no reviewable transactions, during the POR.⁵ Accordingly, no decision memorandum accompanies this **Federal**

Register notice. For further details of the issues addressed in this segment of the proceeding, see the *Preliminary Results*.

Assessment Rates

The Department determined, and U.S. Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with section 751(a)(2)(C) of the Act and 19 CFR 351.212(b). The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of this review.

Additionally, consistent with the Department’s refinement to its assessment practice in non-market economy cases, because the Department determined that TMI and TMM had no shipments of subject merchandise during the POR, any suspended entries of subject merchandise during the POR from these companies will be liquidated at the PRC-wide rate.⁶

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice of final results of the administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For TMI, which claimed no shipments, the cash deposit rate will remain unchanged from the rate assigned to TMI in the most recently completed review of the company; (2) for previously investigated or reviewed PRC and non-PRC exporters who are not under review in this segment of the proceeding but who have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate (including TMM, which claimed no shipments, but has not been found to be separate from the PRC-wide entity), the cash deposit rate will be the PRC-wide rate of 141.49 percent⁷ and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

¹ See *Magnesium Metal from the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2015–2016*, 82 FR 1696 (January 6, 2017) (“*Preliminary Results*”).

² The meaning of this term is the same as that used by the American Society for Testing and Materials in its Annual Book for ASTM Standards: Volume 01.02 Aluminum and Magnesium Alloys.

³ The material is already covered by existing antidumping orders. See *Notice of Antidumping Duty Orders: Pure Magnesium from the People’s Republic of China, the Russian Federation and Ukraine; Notice of Amended Final Determination of Sales at Less Than Fair Value: Antidumping Duty Investigation of Pure Magnesium from the Russian Federation*, 60 FR 25691 (May 12, 1995); and *Antidumping Duty Order: Pure Magnesium in Granular Form from the People’s Republic of China*, 66 FR 57936 (November 19, 2001).

⁴ This third exclusion for magnesium-based reagent mixtures is based on the exclusion for reagent mixtures in the 2000–2001 investigations of magnesium from China, Israel, and Russia. See *Final Determination of Sales at Less Than Fair Value: Pure Magnesium in Granular Form From the People’s Republic of China*, 66 FR 49345 (September 27, 2001); *Final Determination of Sales at Less Than Fair Value: Pure Magnesium From Israel*, 66 FR 49349 (September 27, 2001); *Final Determination of Sales at Not Less Than Fair Value: Pure Magnesium From the Russian Federation*, 66 FR 49347 (September 27, 2001). These mixtures are not magnesium alloys, because they are not combined in liquid form and cast into the same ingot.

⁵ See *Preliminary Results*, 82 FR at 1697.

⁶ See *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011).

⁷ See *Notice of Antidumping Duty Order: Magnesium Metal From the People’s Republic of China*, 70 FR 19928 (April 15, 2005).

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results and this notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: March 2, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XF150

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from the South Carolina Aquarium. If granted, the EFP would authorize the South Carolina Aquarium to collect, with certain conditions, various species of snapper-grouper, dolphin, wahoo, cobia, king mackerel, Spanish mackerel, golden crab, shrimp, and spiny lobster in the

Federal waters off South Carolina and North Carolina in the South Atlantic. The specimens would be used in educational exhibits displaying native marine species at the South Carolina Aquarium located in Charleston, SC.

DATES: Written comments must be received on or before April 7, 2017.

ADDRESSES: You may submit comments, identified by "NOAA-NMFS-2017-0008", by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov #!docketDetail;D=NOAA-NMFS-2017-0008, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Nikhil Mehta, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method (including email), to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Nikhil Mehta, 727-824-5305; email Nikhil.mehta@noaa.gov.

SUPPLEMENTARY INFORMATION: The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

The proposed specimen collection involves activities otherwise prohibited by regulations at 50 CFR part 622, as they pertain to species managed by the South Atlantic Fishery Management Council (Council) including snapper-grouper, golden crab, coastal migratory pelagics, dolphin, wahoo, spiny lobster, and shrimp. The applicant requires authorization to collect 1,799 live fish, crabs, lobsters, and shrimp in the Federal waters off South Carolina, and sporadically off North Carolina. The federally-managed species to be collected by the applicant per year, over a 5-year period, listed by common name with the collection total, are: Black

snapper (10); cobia (6); coney (10); dolphin (50); golden crab (5); graysby (10); groupers (*Epinephelus spp.* and *Hyporhamphus spp.* including red, misty, red hind, rock hind, snowy, and yellowedge) (40); groupers (*Mycteroperca spp.* and *Cephalopholis spp.* including black grouper, gag, yellowmouth, yellowfin, and scamp) (50); grunts (*Haemulon spp.* including cottonwick, margate, sailors choice, tomtate, and white) (250); hogfish (8); jacks including greater amberjack, almaco jack, banded rudderfish, bar jack, and lesser amberjack (200); king mackerel (15); little tunny (25); longspine porgy (50); ocean triggerfish (5); porgies including knobbed, jolthead, whitebone, and saucereye (65); porkfish (15); queen snapper (2); red porgy (25); red snapper (25); sand tilefish (10); sea basses including black, bank, and rock (100); scup (50); Atlantic spadefish (50); triggerfish (20); white shrimp (200); pink or brown shrimp (200); snappers excluding red snapper, but including yellowtail, gray, mutton, lane, cubera, silk, and blackfin (75); Spanish mackerel (15); spiny lobster (25); vermilion snapper (75); wahoo (5); and yellowtail snapper (15).

The project would use vertical hook-and-line gear with artificial and natural baits, black sea bass pots, spiny lobster traps, golden crab traps, habitat traps, octopus traps, hand nets, dip nets, and bait traps. Bait traps and minnow traps would be deployed by hand by divers using SCUBA gear. Most of the sample collection would be done in less than 300 ft (91 m) of water. No more than 5 each, black sea bass pots, lobster pots, golden crab traps, minnow traps, and bait traps would be deployed with a soak time of no more than 5 hours at a time, and will not be tied together on a groundline. Up to 10 habitat traps will also be utilized with a soak time of 7 days up to no more than 30 days. All trap and pot gear will be deployed either by hand by divers using SCUBA or through using individual nylon lines with buoys. All gear types would be utilized for the collection of requested species. This EFP would authorize sampling operations to be conducted on three vessels designated by the South Carolina Aquarium including: F/V REEL SCIENCE SC-9152-DE; F/V CUB SCOUT SC-9288-BF; and F/V MISTRESS SC-5326-BS.

All attempts would be made (venting, controlled ascent and descent, etc.) to release all non-targeted bycatch species alive. During each year of sampling requested through this EFP, there would be no traps or pots deployed from November 1 through April 30, to avoid interactions with North Atlantic right
