SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is required by the Trademark Act of 1946, Sections 13, 14, and 20, 15 U.S.C. 1063, 1064, and 1070, respectively. Under the Trademark Act, any individual or entity that adopts a trademark or service mark to identify its goods or services may apply to federally register its mark. Section 14 of the Trademark Act allows individuals and entities to file a petition to cancel a registration of a mark, while Section 13 allows individuals and entities who believe that they would be damaged by the registration of a mark to file an opposition, or an extension of time to file an opposition, to the registration of a mark. Section 20 of the Trademark Act allows individuals and entities to file an appeal from any final decision of the Trademark Examining Attorney assigned to review an application for registration of a mark.

The USPTO administers the Trademark Act pursuant to 37 CFR part 2, which contains the various rules that govern the filing of petitions to cancel the registration of a mark, notices of opposition to the registration of a mark, extensions of time to file an opposition, appeals, and other submissions filed in connection with inter partes and ex parte proceedings. These petitions, notices, extensions, and additional papers are filed with the Trademark Trial and Appeal Board (TTAB), an administrative tribunal empowered to

determine the right to register and subsequently determine the validity of a trademark.

The information in this collection must be submitted electronically through the Electronic System for Trademark Trials and Appeals (ESTTA). There are no paper forms associated with this collection. If applicants or entities wish to submit the petitions, notices, extensions, and additional papers in inter partes and ex parte cases, they must use the forms provided through ESTTA. This collection contains nine electronic forms.

The additional submissions filed in inter partes and ex parte proceedings must be filed electronically. Submissions filed in paper form are permitted only when ESTTA is unavailable due to technical problems, or when extraordinary circumstances are present.

The information in this collection is a matter of public record, and is used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. This information is important to the public, as both common law trademark owners and federal trademark registrants must actively protect their own rights.

II. Method of Collection

The method of collection is by electronic submission through ESTTA when a party files a petition to cancel a trademark registration, an opposition to the registration of a trademark, a request to extend the time to file an opposition, a notice of appeal, or additional papers for inter partes and ex parte proceedings with the USPTO. Submissions filed in paper form via mail or hand delivery are permitted only when ESTTA is unavailable due to technical problems, or when extraordinary circumstances are present.

Certain submissions in paper must also be accompanied by a Petition to the Director. That petition is being added to collection 0651–0054 (Substantive Submissions).
