

information collection aims to standardize this process. Without this information, APHIS would be less effective in establishing procedures that are used to contain regulated plant pests within the United States.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 1.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 243.

Ruth Brown,

Departmental Information Collection Clearance Officer.

[FR Doc. 2017-08135 Filed 4-20-17; 8:45 am]

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are required regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 22, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control

number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Farm Service Agency

Title: Power of Attorney.

OMB Control Number: 0560-0190.

Summary of Collection: Individuals or authorized representatives of entities wanting to appoint another to act as their attorney-in-fact in connection with certain Farm Service Agency (FSA), Commodity Credit Corporation (CCC), and Risk Management Agency (RMA) programs, Federal Crop Insurance Corporation (FCIC), Natural Resources Conservation Service (NRCS) and related actions must complete a Power of Attorney form and Extension Sheet to accommodate additional signatures (FSA-211/211A). The FSA-211/211A serves as evidence that the grantor has appointed another to act on their behalf for certain FSA, CCC, FCIC, RMA, and NRCS programs and related actions giving the appointee legal authority to enter into binding agreements on the grantor's behalf.

Need and Use of the Information: FSA will collect information to verify an individual's authority to sign and act for another in the event of errors or fraud that requires legal remedies. The information collected on the FSA-211/211A is limited to the grantor's name, signature, and identification number, the grantee's name, address, and the applicable FSA, CCC, FCIC, NRCS, and RMA programs or transactions.

Description of Respondents: Individuals or households.

Number of Respondents: 51,585.

Frequency of Responses: Reporting: Other (once).

Total Burden Hours: 64,256.

Dated: April 18, 2017.

Ruth Brown,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410-05-P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 18, 2017.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are

requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 22, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725-17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Importation of Unshu Oranges.

OMB Control Number: 0579-0173.

Summary of Collection: The Plant Protection Act (7 U.S.C. 7701-7772) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction or dissemination of plant pests into the United States. The regulations in "Subpart-Citrus Fruit" (7 CFR 319.28) allow the importation of Unshu oranges from certain parts of Japan into the United States under certain conditions. A foreign phytosanitary certificate must accompany the unshu oranges from the Japanese Government's Ministry of Agriculture, Forestry, and Fisheries

certifying that the fruit is free of citrus canker.

Need and Use of the Information: The Animal and Plant Health Inspection (APHIS) will collect information using form PPQ 203 (Foreign Site Certificate of Inspection and/or Treatment), PPQ 587 (Application for Permit to Import Plants or Plant Products), packinghouse registration, certification for fumigation facilities, and box markings. The information from the forms and other activities will be used to certify that unshu oranges from Japan are free of citrus canker. To ensure that the oranges from Kyushu Island are not imported into citrus-producing areas of the United States such as Florida and California, boxes must be stamped or labeled with a statement specifying the State into which the oranges may be imported, and from which they are prohibited removal under a Federal quarantine. Failing to collect this information would cripple APHIS' ability to certify Unshu oranges from Japan are not carrying citrus canker.

Description of Respondents: Business or other for-profit, and foreign government.

Number of Respondents: 8.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 851.

Animal and Plant Health Inspection Service

Title: Interstate Movement of Fruit from Hawaii.

OMB Control Number: 0579-0331.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-*et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction or dissemination of plant pests into the United States. The Hawaii fruit and vegetables regulations contained in 7 CFR 318.13 govern, among other things, the interstate movement of fruits and vegetables from Hawaii. These regulations are necessary to prevent the spread of plant diseases and pests that occur in Hawaii but not on the mainland United States. The Animal and Plant Health Inspection Service (APHIS) regulations allow mangosteen, dragon fruit, melon, pods of cowpea and its relatives, breadfruit, jackfruit, and fresh drumstick tree pods to be moved interstate from Hawaii under certain conditions to the mainland United States while continuing to provide protection against the spread of plant pests from Hawaii in the continental United States.

Need and Use of the Information: APHIS will collect information using

PPQ 519, PPQ 530, and PPQ 540 forms to prevent the interstate spread of a number of destructive and economically damaging agricultural pests. If APHIS did not collect this information the effectiveness of APHIS' Hawaiian fruits and vegetables quarantine program would be severely compromised and could result in millions of dollars in damage to American agriculture.

Description of Respondents: Business or other for-profit.

Number of Respondents: 60.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1,971.

Animal Plant and Health Inspection Service

Title: Importation of Avocados from Spain under a Systems Approach.

OMB Control Number: 0579-0400.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants, and plant pest to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations in "Subpart—Fruits and Vegetables" (Title 7, Code of Federal Regulations (CFR) 319.56, referred to as the regulations), prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests that are new to or not widely distributed within the United States. The fruits and vegetables regulations allow the importation into the continental United States of avocados from Spain, subject to a systems approach.

Need and Use of the Information: In its efforts to import Fresh Avocados from Spain under a system approach, APHIS uses the following information activities: Operational Workplan, Trust Fund Agreement, Production Site Registration, Packinghouse Registration, Phytosanitary Certificate w/additional Declaration, Box Labeling, Recordkeeping of Export Activities, Monitoring and Oversight, Investigation and Remedial Action Packinghouse/ Production Site, Identifying Shipping Documents, Post-Harvest Inspection. Failure to collect the information would cripple APHIS' ability to ensure that avocados from Spain are not carrying plant pests.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 28.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 403.

Animal Plant and Health Inspection Service

Title: Importation of Fresh Apricots from Spain under a Systems Approach.

OMB Control Number: 0579-0402.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants, and plant pest to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations in "Subpart—Fruits and Vegetables" (Title 7, Code of Federal Regulations (CFR) 319.56, referred to as the regulations), prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests that are new to or not widely distributed within the United States. The fruits and vegetables regulations allow the importation into the continental United States of fresh apricots from Continental Spain, subject to a systems approach.

Need and Use of the Information: In its efforts to import Fresh Apricots from Continental Spain under a system approach, APHIS uses the following information activities: Operational Workplan, Trust Fund Agreement, Production Site Registration, Packinghouse Registration, Box Labeling, Production Site and Packinghouse Inspection, Certification and Accreditation of Personnel Trapping Programs and Surveys, Monitoring and Oversight of Packinghouse, Monitoring, Investigation and Remedial Action, Recordkeeping of Export Activities, Phytosanitary Inspection, Phytosanitary Certificate w/ additional Declaration, Trapping Records, Identifying Shipping Documents, Cold Treatment Requirements, Certification of Cold Treatment facilities, Written Approval for Treatment Enclosure, Cold Treatment Numbered Seal, Suspension and Recertification, Cold Treatment Audit, Cold Treatment Fruit Fly Investigation and Cold Treatment Monitoring. Failure to collect the information would cripple APHIS' ability to ensure that apricots from Spain are not carrying plant pests.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 19.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 1,835.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2017-0027]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Citrus Canker; Interstate Movement of Regulated Nursery Stock and Fruit From Quarantined Areas

AGENCY: Animal and Plant Health
Inspection Service, USDA.

ACTION: Revision to and extension of
approval of an information collection;
comment request.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, this
notice announces the Animal and Plant
Health Inspection Service's intention to
request a revision to and extension of
approval of an information collection
associated with the regulations for the
interstate movement of regulated
nursery stock and fruit from
quarantined areas to prevent the spread
of citrus canker.

DATES: We will consider all comments
that we receive on or before June 20,
2017.

ADDRESSES: You may submit comments
by either of the following methods:

- *Federal eRulemaking Portal:* Go to
<http://www.regulations.gov/>
#!docketDetail;D=APHIS-2017-0027.
- *Postal Mail/Commercial Delivery:*

Send your comment to Docket No.
APHIS-2017-0027, Regulatory Analysis
and Development, PPD, APHIS, Station
3A-03.8, 4700 River Road Unit 118,
Riverdale, MD 20737-1238.

Supporting documents and any
comments we receive on this docket
may be viewed at [http://
www.regulations.gov/](http://www.regulations.gov/)
#!docketDetail;D=APHIS-2017-0027 or
in our reading room, which is located in
room 1141 of the USDA South Building,
14th Street and Independence Avenue
SW., Washington, DC. Normal reading
room hours are 8 a.m. to 4:30 p.m.,
Monday through Friday, except
holidays. To be sure someone is there to
help you, please call (202) 799-7039
before coming.

FOR FURTHER INFORMATION CONTACT: For
information on the regulations for the

interstate movement of regulated
nursery stock and fruit from citrus
canker quarantined areas, contact Dr.
Robert Baca, Assistant Director,
Permitting and Compliance
Coordination, Compliance and
Environmental Coordination Branch,
PPQ, APHIS, 4700 River Road Unit 150,
Riverdale, MD 20737; (301) 851-2292.
For copies of more detailed information
on the information collection, contact
Ms. Kimberly Hardy, APHIS'
Information Collection Coordinator, at
(301) 851-2483.

SUPPLEMENTARY INFORMATION:

Title: Citrus Canker; Interstate
Movement of Regulated Nursery Stock
and Fruit From Quarantined Areas.

OMB Control Number: 0579-0317.

Type of Request: Revision to and
extension of approval of an information
collection.

Abstract: The Plant Protection Act
(PPA, 7 U.S.C. 7701 *et seq.*) authorizes
the Secretary of Agriculture, either
independently or in cooperation with
States, to carry out operations or
measures to detect, eradicate, suppress,
control, prevent, or retard the spread of
plant pests, such as citrus canker, that
are new to or not widely distributed
within the United States.

Citrus canker is a plant disease that
affects plant and plant parts, including
fresh fruit of citrus and citrus relatives
(family *Rutaceae*). Citrus canker can
cause defoliation and other serious
damage to the leaves and twigs of
susceptible plants. It can also cause
lesions on the fruit of infected plants
and cause infected fruit to drop from
trees before reaching maturity. The
aggressive A (Asiatic) strain of citrus
canker can infect susceptible plants
rapidly and lead to extensive economic
losses in commercial citrus-producing
areas.

The Animal and Plant Health
Inspection Service regulations to
prevent the interstate spread of citrus
canker are contained in "Subpart—
Citrus Canker" (7 CFR 301.75-1 through
301.75-17). The regulations restrict the
interstate movement of regulated
articles from and through areas
quarantined because of citrus canker
and provide, among other things,
conditions under which regulated
nursery stock and fruit may be moved
interstate. The interstate movement of
regulated nursery stock and fruit from
quarantined areas involves information
collection activities, including
compliance agreements, package
marking, certificates, and limited
permits.

We are asking the Office of
Management and Budget (OMB) to

approve our use of these information
collection activities, as described, for an
additional 3 years.

The purpose of this notice is to solicit
comments from the public (as well as
affected agencies) concerning our
information collection. These comments
will help us:

(1) Evaluate whether the collection of
information is necessary for the proper
performance of the functions of the
Agency, including whether the
information will have practical utility;

(2) Evaluate the accuracy of our
estimate of the burden of the collection
of information, including the validity of
the methodology and assumptions used;

(3) Enhance the quality, utility, and
clarity of the information to be
collected; and

(4) Minimize the burden of the
collection of information on those who
are to respond, through use, as
appropriate, of automated, electronic,
mechanical, and other collection
technologies; *e.g.*, permitting electronic
submission of responses.

Estimate of burden: The public
reporting burden for this collection of
information is estimated to average 0.19
hours per response.

Respondents: Citrus growers and
packinghouses.

*Estimated annual number of
respondents:* 400.

*Estimated annual number of
responses per respondent:* 36.

*Estimated annual number of
responses:* 14,402.

*Estimated total annual burden on
respondents:* 2,742 hours. (Due to
averaging, the total annual burden hours
may not equal the product of the annual
number of responses multiplied by the
reporting burden per response.)

All responses to this notice will be
summarized and included in the request
for OMB approval. All comments will
also become a matter of public record.

Done in Washington, DC, this 17th day of
April 2017.

Michael C. Gregoire,

*Acting Administrator, Animal and Plant
Health Inspection Service.*
