I. Background and Authority

The Middle Class Tax Relief and Job Creation Act of 2012 (Act) created the First Responder Network Authority (FirstNet) as an independent authority within NTIA and charged it with ensuring the building, deployment, and operation of a nationwide, interoperable public safety broadband network, based on a single, national network architecture.¹ FirstNet is responsible for, at a minimum, ensuring nationwide standards for use and access of the network; issuing open, transparent, and competitive requests for proposals (RFPs) to build, operate, and maintain the network; encouraging these RFPs to leverage, to the maximum extent economically desirable, existing commercial wireless infrastructure to speed deployment of the network; and managing and overseeing contracts with non-federal entities to build, operate, and maintain the network.² FirstNet holds the single public safety license granted for wireless public safety broadband deployment. The FirstNet Board is responsible for providing overall policy direction and oversight of FirstNet to ensure the success of the nationwide network.
