

application of a stricter statistical significance test may lower rents in an area, while the use of the more local “all-bedroom” recent mover factor may increase rents in the same area.

In addition, HUD solicits comments on the possible effects of changes in FMR methodology on the achievement of fair housing and other civil rights goals and objectives, including increasing mobility of low-income persons to areas of high opportunity and lower poverty, and whether other methodological changes might better ensure appropriate fair housing outcomes.

HUD respectfully requests that comments filed in response to this notice remain focused on the proposed calculation changes. Hypothetical FY 2017 FMRs and Small Area FMRs, using these new methodology changes, are published at <https://www.huduser.gov/portal/datasets/fmr.html> and <https://www.huduser.gov/portal/datasets/fmr/smallarea/index.html>, respectively.

V. Environmental Impact

be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section.
