SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Migrant and Seasonal Agricultural Worker Protection Act (MSPA) Housing Occupancy Certificate information collection. Any non-exempt person who owns or controls a facility or real property to be used for housing migrant agricultural workers cannot permit any such worker to occupy the housing unless a copy of a certificate of occupancy from the State, local, or Federal agency that conducted the housing safety and health inspection is posted at the site of the facility or real property. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1235-0006.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 29, 2016 (81 FR 86018).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Gear Certification Standard information collection requirements codified in regulations 29 CFR part 1919. Applicants submit an Application for Accreditation to Perform Gear Certification Functions (Form OSHA-70) in order to seek OSHA approval to test or examine certain equipment and material handling devices, as required under OSHA maritime regulations, 29 CFR part 1917 (Marine Terminals) and 29 CFR part 1918 (Longshoring). The OSHA uses this information to accredit companies to inspect and provide certification for cranes, derricks, and accessory gear used in the longshoring, marine terminal, and shipyard industries. Certain types of vessel cargo gear and shore-based material handling devices used in maritime operations are required to have accredited companies conduct examinations. The accredited company issues either (1) a certificate to the owner that the piece of equipment has passed the examination or (2) a certificate to the owner of any deficiency found during the examination.
