National Agricultural Statistics Service

Title: Current Agricultural Industrial Reports (CAIR).

OMB Control Number: 0535–0254.

Summary of Collection: The Current Agricultural Industrial Reports (CAIR) surveys have become an integral part of the Census of Agriculture and numerous other surveys conducted by NASS. Under the authority of the Census of Agriculture Act of 1997 (Pub. L. 105–113) and defined under Title 7, Sec. 2204(g), these surveys will be mandatory. The data from the CAIR surveys will supply data users with important information on the utilization of many of the crops, livestock, and poultry produced in the U.S.

Need and Use of the Information: Data from these surveys is essential to measuring the consumption of agricultural products in the production of numerous consumer goods.

Agricultural products such as grain, oilseeds, fibers, and animal co-products is used in the creation of cooking oils, flour, lubricants, fuel, fabrics, soap, paint, methyl esters, resins, and numerous other products. The data are needed to provide a more complete picture of the importance of agriculture to the American population. Data from the instruments are published and publications are available to everyone at the same time on the NASS Web site.

Description of Respondents: Business or other for-profit.

Number of Respondents: 1,420.

Frequency of Responses: Reporting: One time.

Total Burden Hours: 2,490.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS—OMB Clearance Officer, at (202) 690–2388 or at ombofficer@nass.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Livestock Slaughter Survey.

OMB Control Number: 0535–0005.

Expiration Date of Approval:

November 30, 2017.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop management practices, as well as the Census of Agriculture. Livestock slaughter data are used to estimate U.S. red meat production and reconcile inventory estimates which provide producers and the rest of the industry with current and future information on market supplies. This data is also used in preparing production, disposition, and income statistics which facilitate more orderly

production, marketing, and processing of livestock and livestock products. NASS compiles data from both Federally Inspected and Non-Federally Inspected Slaughter Plants.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Pub. L. 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320. NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA).” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: The Livestock Slaughter Survey includes a weekly survey of approximately 900 Federally Inspected (FI) slaughter plants and a monthly survey of approximately 900 State Inspected (SI) slaughter plants. Slaughter data is compiled by the Federal and State inspectors, therefore NASS does not contact these operations. NASS collects data only from the smaller independent plants and combines this data with the FI and SI data to create a national report. The smaller, independent operations (approximately 1,300 operations) are contacted either monthly, quarterly, or annually. Public reporting burden for this collection of information is estimated to average 15 minutes per response for an estimated annual burden of 2,500 hours. (The USDA and State inspectors are not included in the calculation of total burden, since they are performing this task as a part of their job functions.)

Respondents: Farmers and custom/state inspected slaughter plants.

Estimated Number of Respondents: 1,300.

Estimated Total Annual Burden on Respondents: 2,500 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility,

and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, June 13, 2017.

Associate Administrator.

BILLING CODE P

DEPARTMENT OF COMMERCE

U.S. Census Bureau

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: U.S. Census Bureau.

Title: Generic Clearance for Internet Nonprobability Panel Pretesting.

OMB Control Number: 0607-0978.

Form Number(s): TBD.

Type of Request: Extension of a Currently Approved Collection.

Number of Respondents: 60,000.

Average Hours per Response: 0.167.

Burden Hours: 10,000.

Needs and Uses: The information collected in this program of developing and testing questionnaires will be used by staff from the Census Bureau and sponsoring agencies to evaluate and improve the quality of the data in the surveys and censuses that are ultimately conducted. Because the questionnaires being tested under this clearance are still in the process of development, the data that result from these collections are not considered official statistics of the Census Bureau or other Federal agencies. Data will be included in research reports prepared for sponsors inside and outside of the Census Bureau. The results may also be prepared for presentations related to survey methodology at professional meetings or publications in professional journals. Since the submission of the 60 day notice, we have changed both the title and burden estimate for this collection. At the 60-day notice, the collection was entitled "Generic Clearance for Internet Nonprobability Panel Pretesting and Qualitative Survey Methods Testing." To more accurately reflect the intended collection, we are renaming this collection "Generic Clearance for Medium-Scale Pretesting." We are requesting an increase in hours from 8,334 to 16,900 annually because we incorporated the pretesting needs for the 2020 Census communications campaign into this request.

Affected Public: Individuals and households.

Frequency: Once.

Respondent's Obligation: Voluntary.

Legal Authority: Data collection for this project is authorized under the authorizing legislation for the questionnaire being tested. This may be Title 13, Sections 131, 141, 161, 181, 182, 193, and 301 for Census Bureau-
