#### 29 CFR Part 1904

[Docket No. OSHA-2013-0023]

RIN 1218-AD16

#### Improve Tracking of Workplace Injuries and Illnesses: Proposed Delay of Compliance Date

**AGENCY:** Occupational Safety and Health Administration, Department of Labor.

**ACTION:** Proposed rule; delay of compliance date.

**SUMMARY:** On May 12, 2016, the Occupational Safety and Health Administration (OSHA) published a rule entitled “Improve Tracking of Workplace Injuries and Illnesses” with an effective date of January 1, 2017 for the final rule’s electronic reporting requirements. The final rule sets an initial deadline of July 1, 2017, as the date by which certain employers are required to submit the information from their completed 2016 Form 300A to OSHA electronically. This action proposes to extend the initial submission deadline for 2016 Form 300A data to December 1, 2017, to provide the new administration an opportunity to review the new electronic reporting requirements prior to their implementation and allow affected entities sufficient time to familiarize themselves with the electronic reporting system, which will not be available until August 1. The proposed five-month delay would be effective on the date of publication of a final rule in the **Federal Register**. OSHA also intends to issue a separate proposal to reconsider, revise, or remove other provisions of the prior final rule. OSHA will seek comment on those provisions in that separate proposal. In this proposal, OSHA only seeks comment on the delay of the July 1, 2017 compliance date to December 1, 2017.

**DATES:** Written comments must be submitted (postmarked, sent, or received) by July 13, 2017.

#### SUPPLEMENTARY INFORMATION:

##### A. Background

On May 12, 2016, the Occupational Safety and Health Administration (OSHA) published a rule entitled “Improve Tracking of Workplace Injuries and Illnesses” with an effective date of January 1, 2017, for the final rule’s electronic reporting requirements (81 FR 29624). Under these requirements, certain employers who were required to complete Form 300A in 2016 must submit the information on the form to OSHA electronically by July 1, 2017.

The Department proposes to delay the initial deadline for electronic submission of 2016 300A data from July 1, 2017, to December 1, 2017. The data collection system was originally intended to launch in February 2017. This would have given employers four months to submit their data in time for the due date of July 1. However, the launch was postponed. OSHA now expects to launch the data collection system by August 1, and the proposed due date of December 1 will allow OSHA to provide employers the same four-month window to electronically submit their 2016 Form 300A data. This delay will also to provide the new administration the opportunity to review the new electronic reporting requirements prior to their implementation and allow affected entities sufficient time to familiarize themselves with the electronic reporting system, which will not be available until August 1. OSHA seeks comment by July 13, 2017 on its proposal to extend the submission deadline by five months to December 1, 2017. OSHA also intends to issue a separate proposal to reconsider, revise, or remove other
